DIPLOMATIC LANGUAGE.

Japan Will Forward 1,500 Emigrants Honolulu-All Drilled And Ready For Service-Strong Views of the English Papers-Japan's Protest is a Warning to United States-McKinley And Sherman Will Think Twice-If Japan A dicates Then Britain Must Interfere.

Los Angeles, Cal., July 28.—A letter a former Japanese officer living in this city, conveys the information that th Japanese government will forward to Honolulu in the latter part of July, 1,500 Japa-

son at Meegata, being soldiers in the Japanese service, and will go on shore in Honolulu as simple citizens, but drilled and ready for military duty at once. Japanese government, and carry addition to the 1,500 passengers, ammunition and military stores of suffi cient quantity to make it interesting for any party trying to prevent their landing. In addition, three large men-of-war are already prepared to leave Yokohama to arthe landing of the so-called emigrants will been educated in the United States, used the expression, no doubt acquired when here: "We will get there, and don't you into the Klondike now in thirty days withforget it," and remarked further : "I cannot write this in my own language, but you understand. English predictions conveyed in previous letters from this official were verified.'

London, July 28.—The St. James' Ga zette commenting upon Japan's protest in the Hawaiian matter says: "According European usagé it amounts to a threat to resist the transfer of the archipelage by force, and is equivalent to warning United States that they must give up their views as to Hawaii, or prepare for war. It does mean just so much in the mouth of Japan, though the Americans de seem to think so. But they have such odd ideas of diplomatic language that they are no great authorities."

The Pall Mall Gazette says: "We have said from the first that it is no concern of Great Britain whether the United States annexes Hawaii or not, but Japan's protest should give the American jingoes something to think about. It remains One carload of Twine just 2 be seen whether American opinion ratify the annexation policy. If it does, the matter will become important, for Japan has a powerful navy, and if it does | trading purposes. not, secretary Sherman, and at any rate president McKinley, will think twice be fore inviting the Japanese navy to do the mischief it undoubtedly could.

The Globe, after referring to the "Cynical Insolence of the American Minister, says: "Should it be our misfortune engage in a quarrel with our kin beyond the sea, we must seize Hawaii immediately but the state of things against which i necessary to take precautions now is the by no means remote contingency of a war between the United States and a Europear power able to take Hawaii, which would then become a strategic point of great importance against ourselves. If Japan abdicates or commutes her rights, it is the clear duty of this country to interfere, even at the risk of another abusive despatch

European edition publishes the following editorial, under the heading, "What's Japan Got to Say About It Anyhow?": "We publish a special despatch con-

firming one printed in the Temps, relative to the protest of Japan against the annexation of Hawaii by the United States. has for the last two bundred years governed the world by its common sense, force and civilizing instinct, and to-day 83,000,000 of boring streams. the Anglo-Saxon race across the water find themselves confronted with one of those Mongolian, Indian and Australasian con-We know very well what England would do under the circumstances, and we trust that the Anglo-Saxon United

NANAIMO, B.C., July 28.—This town is coveries in the Klondike. All the population want to move to the gold fields because two of its citizens have come home with dazzling fortunes made in a year on the Yukon. John Wilkinson and William PARALLANDE Sloan, tired of coal mining, went to the

gold nuggets, displayed in a Nanaimo bank window to-day shows more vividly than words could express the profits of Mr. Wilkinson. Sloan has as much or more and they both have their claims, discovery this year and fifty above. Every men on each, and all the time. On the Eldorado there are forty good paying claims. Besides these creeks there are the many more in which the pay dirt is plentiful, so that there is room for thousands of miners for years to come."

Mr. Wilkinson does not belittle the hardships of the Yukon experience. He says he stood at the windlass on his claim when the temperature was sixty below zero, and it took his party three months to pack in their outfits, which weighed a ton to each Even with that supply their visions ran out, and both Sloan and Wi kinson believe that there will be suffering this winter from lack of food. They say man can take out half an ounce a scorn to work on such poor dirt.

Sloan exhibits a very large nugget, while Wilkinson has one nearly as large as man's hand. Sloan says that he could go out supplies, but he very much doubts whether the hundreds who are starting now intending to pack in their own outfits wil get through before the Yukon is frozen. Packing in with horses, he says, is next to impossible. Sometimes the horses have to be hauled up steep places with ropes, and food is scarce and hard to take along.

New York, July 28.—The management of the mining exchange of New York has suffered a change. All the old officers excepting the president, W. C. Domin, have retired. The changes include George A. Drake, made vice-president in place of Louis Ross; D. G. Dale, treasurer, in place of C. M. Stead; G. D. Hedian, secretary, in place of W. C. Domin, jr., and Bruce Chilton, chairman, in place of John Gray. The statement was made at the exchange to-day that most of the changes | Cassiar Central railway. represented the retirement of the so-called "tortoise element"in favor of the "hustlers," as the new management is pleased to term itself. It is expected by some of the eighty-two years of age. "hustlers" that the Klondike excitement will favorably affect the exchange and that some Klondike claims may be listed

Wall street has become greatly interested in the gold discoveries in the Klondike regions. Such men as James R. Keene, S. V. White and Washington E. Conner, are giving a great deal of thought to the matter and admit that they are seriously thinking of putting money into the Yukon mining ventures. A syndicate has bought a three months' option on the claim of miner Berry, who bought out over \$150,000 from the Klondike, and sent one of the younger members of the exchange to Alaska to investigate the mines. James Rice, formerly secretary of state of Colorado, has organized one company with a capital \$1,500,000 to help develop the Klondike region and to buy claims.

It is reported here to-day that the treasury will gain about \$700,000 in a day or two, by the deposit at Butte, Mont will be paid for in checks at the Chicago sub-treasury.

SAN FRANCISCO, July 28.—The latest rumor from Alaska is as to the wonderfully rich quartz in large quantities on the Steward river. Particulars are vague, and beyond the fact that the ledge is a large one and that the rock assays \$300, nothing can be learned. This, if true, will mean much for the Klondike district. Steward river runs into the Yukon not far above Dawson, and it is reasonable to suppose that the placer gold now being found below may have its origin in the mountains at the head of the Steward riverand neigh-

HAMILTON, July 28 -The project of alderman Miller and George Findlay to lead a party of six up to the Klondike district on Monday was nipped in the bud advising the adventurers that the country would be frozen solid by the time they could arrive. The expedition is now postponed till April.

Royalty To Be Imposed.

OTTAWA, July 28 .- At a cabinet council yesterday the subject of the Yukon was again under consideration, and it was decided that the royalty to be levied on the THE LIGHTOFTHE WORLD to Frank W. Phelan, of St. Louis, the gold taken out of that country would be noted labor leader on Friday night. With ten per cent, on all amounts taken out of noted labor leader on Friday night. With | ten per cent. on all amounts taken out of a razor in his sleeve, a carbolic acid vial in any one claim up to \$500 a week, and after his coat, a slung shot at his side, and a that twenty per cent. This ought to give tie Wadsworth into the saloon of Neely & in addition, it must be remembered that, Kelly at 103 North Clark street, cut her as already announced, every alternate throat from car to ear with a razor, fired claim is to be reserved by the government ing from three to twenty orders per day.
