ings Lighted-Address of Welcome-Premier's Appreciation of Political Opponents-Canada Freer than Ever Be-

OTTAWA, Sept. 2 .- The arrival of Sir Wilfrid Laurier last night was the close of his triumphal progress from Quebec, and when he and Ludy Laurier stepped off the train at the railway station, a tremenreceived by mayor Bingham, the members a handsome bouquet by Miss Bingham. The distinguished party then drove to to the house.

An address of welcome was read by the mayor to the premier. Sir Wilfrid Laurier, in reply, said that it was gratifying to know that the receptions given to him friends alone, but by all citizens, irrespecpeople of Ottawa for their hearty welliberals, or the prime minister, but to the Canadians, who, having been entrusted done his best to discharge the mission without any discredit to the Canadian people. He was proud of Canada when he left, but prouder still when he returned. Not in London nor Paris, not even in Rome, were there legislative building which surpassed the noble pile behind him. is appreciated to-day as never before, not only in Britain, but all through the European continent. Thanks to the efforts of the Canadian government, the German and Belgian treaties were denounced, and a thrill went through Europe that a new nation had been born on the American continent. We are freer to day than ever before, and the legislative independence of more attached to Britain, for the more freedom we have the greater our attachment to the motherland. Sir Wilfrid again thanked the mayor and the great assembly for their welcome, after which he address-

ed a few words in French to the people. Sir Richard Cartwright also spoke, and welcomed the premier home again. The procession re-formed and proceeded to the day or two and then proceed to Athabaska-

Engineer Killed And Brakesman Injured-

Particulars of Accident. STRATHROY, Ont., Sept. 2.—An accident occurred on the G.T.R. two and a half miles west of here, about 3:30 o'clock this start she was run into by a heavy freight, which struck the rear pullman, wrecking the engine of the freight and killing the engineer, John J. O. Hogan. The fireman jumped and escaped with a few scratches. The brakeman of the freight, named Fountain, had his leg broken and was badly bruised. The engine was driven some distance into the rear of the pullman. The passengers were more or less shaken up but escaped any serious injury. Nine or ten cars of the treight train were wrecked. Two auxiliary trains, one from London and
