DEPOT BRANCH OF THE STREET RAILWAY TO BE BUILT.

The Street Railway Company to Have the Right to Double Track a Portion of Princess Street After 1900-It Is Hoped That Princess Street Will Be Paved By That Time. The board of works met in the city en-

gineer's office yesterday afternoon to transat its last session. There were present Chairman Carson; aldermen Mooers, Minnes, C. Robinson and Johns.

D. Garvin appeared before the board with reference to his petition, re water flowing into his premises from Montreal street. He was promised that the matter would be attended to.

Upon reading the minutes of the last regular meeting the clause referring to the extension of the harbor line was struck out, the chairman saying that Capt. Gaskin would appear before the board with reference to the matter.

B. W. Folger and Hugh Nickle were present, with reference to the double track-HALF OF THE FLAT OVER THE BIBBY ing of Princess street, from between King Wellington to Bagot street. Mr Folger was willing to abide by the conditions of alderman Elliott's resolution, to the effect that if the street was paved within two years the street railway company could be kept, was a much desired necescould put in a double track, the company sity. They pressed upon the committee CLOSEBURN, FORMERLY THE BESIto pay one fifth of the cost. If the road is
dence of Hon. G. A. Kirkpatrick, beautinot paved within two years the street railfully situated, opposite Macdonald Park. Apway company will be required to large place to the unemployed, and to those requiring help. way company will be permitted to lay a double track upon the present road-bed. Meanwhile the company will merely use a switch from the Bagot to the Princess

Alderman Johns did not want to oppose Mr. Folger's scheme, but he would like to M. C.A. and mechanics' institute were doknow the feeling of the merchants on the question. He thought that perhaps they the requirements of the workingman, as would prefer to have the road paved at this scheme surely would. Expenses stores.) I Union Street, near Division Street, lately once and the double track put in. Mr. Folger was of opinion that all the merchants were satisfied that the track should be built. No complaints had been made. Alderman Johns considered Mr. Folger's offer, to pay one fifth the cost of paving Princess street, a most generous one.

Alderman Minnes thought that, if the city as a whole would not stand a porpresent system the road cost double that MILESTON LAUIOS CONTORO, present system the road cost double that of paving. So much stone is put on one year and scraped off the next. Capt. Gaskin had told him that it would be far cheaper to pave all the streets. The last mentioned person said that for a city of population of 20,000 persons, better roads than those of Kingston could not be found. It was admitted that the streets of Kings-

ton were in very good condition. Mr. Folger held the opinion that the company was making all the concession. It should not be asked to contribute \$2,000 towards an expenditure of \$10,000 for paving. If the city did not want to the company the double tracking that portion of Princess street, it was at liberty to do so. The company would then pull up the rails already laid on the depot branch and would stand to lose over \$500. The rails could be utilized elsewhere. Alderman Minnes did not like to bind the city to any such peas for Richardson & Sons. agreement as proposed by Mr. Felger. If, at the expiration of two years the city is not in a position to pave Princess street, wheat consigned to Richardson & Sons. Mr. Folger could go ahead in spite of the

council and lay a double track on Princess

City engineer Bolger informed the board company.

The barge Fannie yesterday loaded

The barge fannie yesterday loaded Folger said that Toronto's wooden paved cleared for Montreal. constructed if the street railway company insisted on using "T" rails. Mr. Folger was willing to leave the style of rail to be used to the discretion of the city engineer. He did not want to use flanged rails, but if Mr. Bolger said so the company would comply. Mr. Bolger asked if the company OPENS OCTOBER 18th. would agree to pay one-fifth of the cost of Affiliated to Queen's University for degree | keeping an asphalt road in repair, Mr. 8 acre park. THE NOBLE CAME OF RUGBY.

TO A SCIENTIFIC GAME.

Different Phases of the Game-How the Men were Formerly and Are Now Placed on the Field-Queen's Team a Leader in All the Improved Tactics.

Footballicitie is as prevalent in the autumn as influenza, but decidedly more contagious. It affects all classes, old, young, middle aged, good, bad and indifferent. There is not a school boy in the city that does not know more about the rules and fine points of rugby than he does of his school lessons, and even serene and stately business men forget the worry and cares of commerce in their animated discussions of the great game and of the qualities of their respective individual favorite players, or the latest tactics adopted booms in the autumn just as naturally as chrysanthemums bloom, hence it is not to be wondered at that there is an affiliation between the two; the footballist modeling his growth of hair after the peculiar style of his favorite variety of

chrysanthemum. With the approach of the formal opening of the Canadian football season it is interesting to look back and observe the evolution through which the game of rug. In doubt, a personal letter to Professor lar, being a member of several clubs, and by football has progressed during the past will be answered, with free medical adten years. Like every other game, it has | vice for any disease. progressed from a crude pastime to one of fine art. From a means of furnishing out-An imperial order has been received at | door exercise for young men of sedentary pursuits, it has resolved itself into a ecientific game, contested by well-trained, sturdy athletes. The evolution has wrought celebration in London. By this order, the the country much good, inasmuch as it has trained young men in feats of strength and endurance, has schooled them in fearless. ness and in many cases has made fine types

of manhood of mere weaklings. The memory of many now playing football easily carries them back to the time when a goal, whether from the field or from a try, was a desideratum of the players, and counted more than all the rouges, touches in goal and safety-touches the opposite side could put together. Failing a goal by either side, the match was declared a draw in favor of the side which had scored the greatest number of points. Some time between 1886 and 1888, how-

ever, a change was introduced, and scoring by points was inaugurated. The im-Thursday afternoon chief Horsey re- portance of a goal, whether from a drop mage, making an enormous and unwieldy REAL ESTATE DOWN, DOWN! each extreme of the scrimmage, only two Lot between Johnston and Earl on Gordon half backs and a full back. WANT HIM TO STAY.

Ottawa Journal. Rev. James Elliott, B.A., of McLeod street church, will, in all probability, be asked to remain another year by the concough, are losing flesh, if gregation of his present church. Mr. El. liott has received an invitation to Queen weak and pale, if consump- street Methodist church, Kingston, but it speaking on behalf of the Canada Congretion stares you in the face, church will allow him to go if the conference will permit him to stay.

Although Mr. Elliott has already exceed-ed the usual term of three years, and by K. W. Snider's Photo Parlors June next will have completed a four years' term, the conference occasionally extends the term to five years. It is hoped by many of his congregation as well as out siders that this will be done in Mr. Elliott's case. There will be general regret at Mr.
