

BACKACHE

makes the young feel old, and the old feel that life is not worth the living. It's a danger signal of Kidney Disease—the unmistakable evidence of weak, inactive and sore Kidneys.

Any person cured of Kidney weakness will tell you that when the back ceased to ache, all troubles ended. Neither liniments, nor plasters, nor electricity can cure it. The seat of the trouble is not in the skin, flesh or muscles. It's in the Kidneys.

It can be CURED

I was troubled for years with pain in my back, particularly when I lifted anything heavy. I was advised to try your Sparagus Kidney Pills. I purchased a box at Knickerbocker drug store. Since taking the pills I have never been troubled with the pain in my back, although I have done all kinds of heavy lifting since. JAMES BELLINGHAM, Division St., Port Huron, Mich.

GOL. BENSON'S BODY FOUND.

A Resident Who Wandered Away—His Body Found in the Woods.

Col. Benson, Oct. 16.—Col. Benson, an English gentleman, who had been boarding in the town and vicinity during the past ten years, left his boarding house early on the morning of Sept. 14th without alarming the inmates. Not returning some hours were entertained that he had committed suicide and search was made for him in the surrounding woods and country, but no trace of him could be found. A couple of days ago some children, who were out gathering beach nuts, discovered a peculiar odor issuing from a certain portion of the woods, and notified their parents, who at once began a search. This morning the body of Col. Benson was found in a marsh on the lake shore, about three miles from the village. The body was in such a decomposed state that it is impossible to ascertain the cause of death.

Col. Benson, who was over sixty years of age, was an eccentric gentleman, who had but few intimate friends, and his life here was shrouded in mystery. He was not known to have any relatives or near friends in this country. The town is greatly excited over the affair.

Comes Up Next Saturday.

SHERRIDGE, Oct. 16.—The preliminary trial of John Hamilton, owner of the hotel, Thomas Gallagher, Hamilton's bookkeeper, Adam Louison and James Samson, farmers of Melancton, charged with having committed perjury at the assize here last week was adjourned this morning at the request of the crown until next Saturday. What the developments in the case will be are being kept secret by the crown, the only sign being their evidence in the complete. Provincial detective Greer arrived here last evening.

THE 4 P. M. EDITION.

WON BY THE GRANITES; They Beat the Cadets and Go into the Second Round.

The ground was in good condition for the cadets and Granites match, which was begun at 1:30 o'clock. Granites kicked with the wind. Dr. Moffat refereed, and J. Gunn umpired the event. The teams, as they lined up, were thus composed: Cadets—Back, Kingsmill; halves, Harvey, Caldwell, Rogers; quarter, Baker; scrum, Wilson, Oiler, Weston; wings, Harris, Binyay, McConkey, Rathburn, Brigstock, Hunter, Sherwood.

Granites—Back, Reynier; halves, McCaj, Hamilton, Gates; quarter, Dalton; scrum, Moore, Milo, Asselstine, Debaney; wings, Rankin, Straubense, Clark, Low, Lawless, Tyrer, Squire.

For the first fifteen minutes play was well up in the cadets' grounds, the Granites pressing the cadets hard. Hamilton went over for a touch which he converted. Score, Granites, 6; cadets, 0.

For five minutes matters were evenly divided, the play being pretty much in the Granites' territory. Harvey kicked behind the goal, but Reynier relieved beautifully. Two minutes later Harvey went over for a touch, which Caldwell converted. Score, 6 to 6.

Play was next pretty well up in cadets' line, but Harvey sprinted and gained fifty yards. Squire laid off, receiving a sore kick in the ankle. McConkey went off to even up. Sherwood received a bump on the head, cutting it open, and McConkey went on to even up.

Hamilton kicked over and Harvey rounded. Score, Granites, 7; cadets, 6. (Gates kicked into touch-in-goal, giving the Granites one more point. Just at half-time Hamilton on a penalty kick scored a goal. Score: Granites 10; Cadets 6.

For fifteen minutes in the second half the ball was in the Granites' ground. Baker spurred fifty yards but was overhauled and brought down by Hamilton. Kingsmill carried the ball into touch-in-goal. Score, Granites 10; Cadets 7.

The cadets are playing much stronger this half. After thirty minutes play Hamilton kicked into touch-in-goal, giving the Granites one point more. Score, Granites, 11; Cadets, 7.

With four minutes to play Dalton went over for a touch, Hamilton failing to convert. Score, Granites, 15; Cadets, 7. Game ended without any more scoring. Granites 15, Cadets 8, in the round.

Queen's Gets The Wind. There was a big attendance at the Queen's-Osgoode game this afternoon. Queen's got the wind in its favor in the first half.

Game In Montreal. MONTREAL, Oct. 16.—Montreal and McGill met to-day: Montreal 4; McGill 0.

The Oldest Old Maid. Everywhere outside the Klondyke region there are old maids and the majority of them are proud that they have never dabbled in the lottery called marriage. Many of the newspapers of the land are running down these old maids in an endeavor to locate the oldest old maid that lives. Philadelphia at present claims the honor of being the home of the most ancient specimen of the interesting species. Her name is Mary Ann Crothers and she has seen 101 winters and a like number of summers. The bible says it is not well for man to be alone but it is silent in respect to women. The way the old maids flourish would refute any assertion that husbands are at all necessary to enable women to live long and prosper.

Hammer Worked by Sea-Power. A great hammer at the works of Messrs. Krupp, at Essen, Germany, weighs fifty tons, the anvil on which it strikes weighs eighty tons, and the block on which the anvil is placed weighs 120 tons. A Swiss, known as Professor Schumann, who has devoted much of his life to the training of fleas at Berne, in Switzerland, recently visited Essen, and was shown this mighty hammer. On his return to Berne, he began making a model of the great hammer, but on such a tiny scale that it could be worked by sea power instead of the mighty engine which works the one at Essen. In its completed state this marvelous little miniature frame hammer, pulley, anvil, block, and all weighs but half a grain. The hammer and anvil are of solid gold, and the framework of platinum. A flea trained by Professor Schumann, at the word of command, hoists the hammer to the top of the frame, where it is automatically set free, in precisely the same manner as the monster after which it is modelled.

A Gold Spoon Discovered. A curious story is told by Lady Middleton of how one of Queen Victoria's smallest gold spoons was lost and found. A lady attended a state ball in a dress the skirt of which was arranged in perpendicular pleats in front, stitched across at intervals, and, unknown to her, a gold spoon got lodged under one of these receptacles. Of course, there was one missing after the ball, and it caused great perturbation to the official in charge of the gold plate. The next spring the lady who had been the innocent cause of the loss went to a drawing room in the identical dress she had worn at the state ball, and as she bent low before her majesty the pleats of her skirt expanded, and the gold spoon fell at the queen's feet.

The Programme Arranged. The presentation of a gold medal to Sir W. Newman, who courageously entered a building at the Grove Inn fire and rescued therefrom Mrs. J. A. Newman and Mrs. Perry, will take place in the city hall at four o'clock Monday afternoon. Mayor Skinner will preside, Alderman Minnie will introduce Sir W. Newman and principal guests will make the presentation. Mrs. J. A. Newman pinning on the medal. Addresses will be made by Mr. M. Britton, Q.C., M.P., and John McIntrye. Chief Youlden will reply in behalf of Sir W. Newman. The entire fire brigade will turn out.

Divorce Sentences In Halifax. HALIFAX, Oct. 16.—Mrs. Arnold, wife of Major Arnold, a prominent officer in this garrison is suing her husband for divorce. She has lodged a petition with Registrar Bares, asking for a divorce and alimony. Among other things Mrs. Arnold charges drunkenness and desertion. The case will cause a sensation in society circles, but the sensation is not as great as that which may follow if Major Arnold lodges a counter petition, as it is said he intends doing.

CAME ACROSS THE OCEAN.

EDWARD LANGTRY DIED IN AN INSANE HOSPITAL. The Revolt of Lord Londonderry and Followers Has Caused An Unhappy Feeling—The Engineers' Contest Cannot Be Arranged—Other Notes.

LONDON, Oct. 16.—The cabinet has abundant subjects for discussion, chief among them the revolt of Lord Londonderry and his followers. The conservative split with the unionists. There is an uneasy feeling that Lord Londonderry voices a widespread opinion among the supporters of the government that the policy of "going the radicals one better" is being pushed too far, and that the recent bye elections are an ominous warning.

The engineering struggle is in a state of complete dead-lock. All attempts at reconciliation seem hopeless. The matter will come before the cabinet to-day.

The Daily Graphic hears that the reported illness of the Hon. Cecil Rhodes at Inyanaga was due to shock from injuries received at the hands of hostile natives beyond Salisbury. Mr. Rhodes lost his way and had a narrow escape.

Edward Langtry, the husband of Lily Langtry, the actress, died last night in the asylum for the insane at Chester. It is supposed that Mr. Langtry was suffering from concussion of the brain, due to falling down the gangway of the steamer on which he was travelling from Dublin to Holyhead.

Prince Esterhazy, said to be engaged to Mrs. Langtry, has asked the Times to deny that he is engaged to anyone.

The corporation of London is going to have an art gallery, the nucleus of which was presented to the corporation on Thursday last by David Sellar, who informed the lord mayor that he proposed to hand over 200 old Dutch, Italian and English pictures.

Sir A. Sullivan is not, as has been stated, setting "The Vicar of Wakefield" to music, but is composing a comic opera, the libretto of which is in the hands of Pinero and Compas Carr.

SAVE MUCH MONEY. The Discoloration of Lobsters—The Dead Tralalame.

OTTAWA, Oct. 16.—The time for receiving tenders for the British mail service was up yesterday. Notice will be arrived at until the matter is laid before the cabinet.

A year ago last spring Dr. A. McPhail professor of pathology in Bishop's college, Montreal, was commissioned by the minister of marine and fisheries to investigate the causes of discoloration of canned lobsters. The importance of the lobster canning industry (the export in 1896 amounting to two and a half million dollars) warranted such an investigation, and in the report which has just been issued by the department of marine and fisheries the subject is thoroughly treated. Dr. McPhail found the discoloration to be due to bacteria, and after elaborate experiments proved that the bacteria could only be destroyed by the application of heat to the filled cans of the question. The process is simple enough and when adopted will save hundreds of thousands of dollars yearly to the Canadian canners.

The funeral of the late Fabien Larondeau, engineer of the express, killed at Ste-Anneville, took place this morning. The funeral of Robert Peden takes place this afternoon. The remains of John Kearney were conveyed to Canada. The funeral general takes place to-day. The remains of brakeman Hasteley were conveyed to Carleton Place and the funeral takes place there this afternoon.

Thomas B. McQuarrie, of Mabon, Inverness, N.S., to be a sub-collector in her majesty's customs; William T. Urquhart, Brantford, Ont., to be a permanent officer in her majesty's customs; James R. Macdonald, Sherbrooke, N.S., to be a sub-collector in her majesty's customs.

Further Living Burials. OREGON, Oct. 16.—Further cases of living burials by members of the fanatical religious sect known as the Raskoiniki have been discovered in the trans-Ural region. A serious of small mounds excited the curiosity of the authorities, and an investigation of them was ordered. When the mounds were opened it was discovered that they contained corpses of persons who had apparently been buried alive. In some instances the mound had been provided with air passages, which prevented the suffocation of the victims, who had met a lingering death from starvation. The commission of enquiry found that a fifteen-year-old girl, who had consented to be buried, had broken out of her sepulchre under the pangs of hunger.

Meeting Of Seal Experts. LONDON, Oct. 16.—The British foreign office to-day intimated to United States ambassador Hay that a meeting of sealing experts of Great Britain, Canada and United States will occur as agreed upon by the marquis of Salisbury. Prof. D'Arcy Thompson, the seal expert of the British foreign office, will start for the United States immediately. The Review of Reviews says the editor W. T. Stead, while in Washington recently, discovered that unless the sealing question is speedily settled the United States government will order the destruction next season of the entire herd on Pribiloff island.

Will Likely Grant Independence. NEW YORK, Oct. 16.—The Herald prints a long article on the Cuban situation, in which it says it has come into possession of important facts which tend to show that Spain will eventually grant independence to Cuba on the payment of an indemnity of \$100,000,000. The information comes from diplomatic circles. Spain would gladly hold on to Cuba if she could, but her desperate financial condition has left her to see the inevitable, and after a certain season of delay in deference to public opinion, will yield to Cuba all that she asks.

Won a Decisive Victory. BRUSSELS, Oct. 16.—The Congo troops under Lieut. Hendricks have won a decisive victory over the bands of mutinous Manyema soldiers who revolted in February last and murdered their officers, and who have since been raiding the country. Lieut. Hendricks encountered the rebels near Lake Albert Edward Nyansa on July 15th, and killed 400 of them. The survivors fled to the mountains where they are starving.

The Provincial Elections. TORONTO, Oct. 16.—The World says it is in a position to announce that the Ontario legislature will be called together about the first February next and that the general provincial election will be held in the following June or July. These two assertions are based on statements made by the Hon. A. S. Hardy.

PONTON LOOKING WELL. A Letter From Frank Jackson—Ponton Was Not His Name.

NAPANEE, Oct. 16.—This morning when Ponton took the witness stand, he was looking fresh and strong and made a much better witness than he did yesterday. The long discussions for seven days and close confinement for ten days are commencing to show on him.

Witness related some of his small betting deals at the Woodbine races. Mr. Madden produced a list of various race horses, which had evidently been found among Ponton's effects when his room was searched. Then Mr. Madden produced a letter, which he read to the jury, and had no date on it, and was written upon the back of a blank cheque of the Dundas and Queen street branch of the Dominion bank Toronto. It read:

"Dear Jud,—If you have anything good up your sleeve to-day put Ponton on to it. I was in to see you several times at the Wanderers but you were out. Ponton is no talker so you can count on him being strictly O.K. He's doing a little on the side for me. Will try and see you Tuesday. (Signed.) Frank Jackson."

Ponton said he did not use the letter, and was not doing anything on the side for Jackson.

HAMILTON MAN GOES WRONG. Deserts His Wife And is Said to Have Left With Another Man's Bred Girl.

HAMILTON, Oct. 16.—The latest stroller from the paths of fidelity is Thomas Foster, an employee of the radial railway. He formerly resided with his wife and child at 135 East avenue north. Foster disappeared from his home some time ago and came rumor coupled with his name, in his fight, that of a young woman who was employed as a domestic at the residence of a prominent citizen on Hughson street. The pair had been enamoured of each other for some time, and are said to have left the city together, their whereabouts at the present time being unknown.

Mrs. Foster, who was a Miss Mary Flood, of Waterford, and a niece of John Ira Flatt, M. P. P., took the desertion of her husband very much to heart at first, but now considers she is well rid of him, and has decided to engage in business in order to support herself and child.

Total Abstinence—Roy's Speech. Perhaps you think a little boy can hardly understand all that. The message that the temperance folks would send through all the land.

But this I know—that want and woe in drunkards' homes are found; And places where they buy their drinks Are open all around.

For liquor and tobacco, too, More money goes, they say, Than all the people in the land For bread and meat now pay.

Some think a little does no harm. It makes them feel so nice; But, ah! it is more dangerous Than skating on the ice.

A little makes you soon want more; And more and more you crave; At to alcoholic drinks You find yourself a slave.

The chains begin to bind your soul, When first you take a drop, Before you take a single drink, That is the time to stop.

All Of Irish Birth In an article recently contributed to the Belfast News-Letter it is pointed out that with two exceptions (governors Chapleau and Dawdney), all the present provincial lieutenant-governors of Canada are Irish by birth or descent—Ontario, Sir George Kirkpatrick, son of the late Thomas Kirkpatrick, Q.C., was born in Ireland. Governor Kirkpatrick is a graduate of Trinity college, Dublin, B. A. and LL.D., Nova Scotia, Hon. M. B. Daly, son of the late Sir Dominic Daly, a Galway man; New Brunswick, Hon. A. R. McClean, descended from a Londonderry family; Manitoba, Hon. J. C. Patterson, a native of Armagh, Prince Edward Island, Hon. George W. Howland, a native of Waterford. Governor Mackintosh, of the north-west territories, is the son of the late Capt. William Mackintosh, a native of Wicklow. Governors Chapleau, Daly and Howland are Roman Catholics, and all, with the exception of the lieutenant-governor of New Brunswick, are conservative.

Why She Disappointed Them. The president of the women's advancement society was visibly agitated. So was the secretary. "Mrs. Nimbelung, who was to deliver the address at to-day's meeting, cannot be present," said the former. "Why not?" asked the latter. "Her husband has been seriously ill for three or four days."

"But a woman of her strength of principle would neglect her work in the great cause to attend to the paltry needs of an individual—and a male individual at that!" "Certainly not, but he writes her speeches."

Seeking His Release. A petition addressed to the minister of justice at Ottawa, and signed by upwards of 450 citizens of Peterboro, is in circulation praying for the release of James H. Farley from the Kingston penitentiary, sentenced to life imprisonment for the murder of an Indian named Simon Elijah, on the market square, Peterboro, on June 24th, 1888.

A Thousand Dollars Granted. QUEBEC, Oct. 16.—At a meeting of the city council last evening the sum of \$1,000 was voted to be paid immediately to the sufferers of the Prescott fires.

The Son Suspected. CAMDEN, N. J., Oct. 16.—Ed Shaw, son of one of the two women murdered here on Tuesday last, was arrested at four o'clock yesterday afternoon charged with having committed the crime. The finding by the police of a revolver secreted in the chimney of the young man's room led to the arrest. The weapon is said to belong to Shaw.

Joyville Jottings. JOYVILLE, Oct. 16.—Potato digging is keeping a number of school children busy. James Donaldson had a raising bee last week, which was one of the largest around here for years. Cheese are being made every o'ber day in Maple Leaf factory now. Mrs. McCammon, Kingston, is visiting her sister, Mrs. J. McFarlane.

A BIG OUTPUT OF COTTON. A CONCERN ASKS FOR EXTENSION OF EXEMPTION. Marries Off For England—A Lady who Hopes to Go to Dawson City next June—The Jolly Students Demonstrate Their Loyalty to the Queen. MONTREAL, Oct. 16.—Seventy blue jackets and marines whose terms have expired and who have been detached from H.M.S. Phoenix on the North Pacific station, arrived here from Victoria, B.C. last night, and sailed to-day for England on the S.S. California. Louis Simpson, manager of the Montreal cotton mills at Valleyfield, says the company has applied to the town, agreeing to construct an addition to its factory at a cost of \$100,000, if a further exemption of taxation of twenty-one years is granted. He also adds that the company's mills at Valleyfield have turned out during the past nine months 1,000,000 more yards than during the corresponding period of 1896. Mrs. Starnes, wife of inspector Courtland Starnes, who has gone to the Klondyke with a mounted police detachment has arrived here on a visit to her father, L. W. Sycott, clerk of the crown. She proposes to join her husband at Dawson City in June. E. T. D. Chambers, of Quebec, grand master for the province of Quebec, A.F. & A.M., has issued a proclamation against the lodge recently organized in Montreal by the Orient of France. The grand master declares that his jurisdiction has been invaded and that none of the members of that lodge can be recognized as masons. The lodge is known as what is called a "godless lodge." F. R. E. Jossy, a promising young advocate, and who opposed Mr. Laurivigne in Drummond, Athabasca, in June 1896, in the federal elections, and who ran last May in the provincial election in Maskinonge in the conservative interest, died yesterday at St. Bertholmy, Berthier county. He was thirty-four years old. At midnight after their annual concert the McGill students marched to the Royal Victoria college for women, the girls of the Strathcona, and formed around the large statue of the queen which was decorated by the Princess Louise and which was enveloped in tarpaulin. One of the boys climbed up and loosened the coverings and as the mass fell the students burst out with the national anthem. Before leaving the students decorated the royal sceptre with McGill colors and placed a marshal's collar around the royal neck. The liberals of Montreal under the auspices of James Cochrane, president of the liberal club, propose to build a permanent club house where members can meet socially. BULLETIN IN HER HEAD. Revolver Accidentally Went Off—To Aid the Sufferers. WINNIPEG, Oct. 16.—At a conference yesterday afternoon between representatives of the government and the relief committee it was announced on behalf of the government that aid would be extended to enable the sufferers by the recent bush and prairie fires to procure lumber for rebuilding their homes and fodder for all cattle. Mrs. Ellis, a lady staying at the Queen's hotel, was putting away a revolver when the weapon was discharged and the bullet struck her on the right temple, and, passing through the bone, lodged, it is supposed, in one of the cells of the head. Mrs. Ellis did not lose consciousness, though much dazed by the shock, and was found shortly after the occurrence sitting in a chair holding a towel over the wound, which had been bleeding copiously. Doctors have not yet been able to locate the bullet. Pope To President. LONDON, Oct. 16.—Pope Leo has forwarded to president McKinley a copy of a magnificent book, illustrating and describing the Borgheuse apartments in the Vatican. Copies of this luxurious work, of which only one hundred were printed, and in which every resource of the engraver's art, the printer's, and the bookbinder's art have been exhausted, have been sent to emperor Francis Joseph of Austria, queen Victoria and the queen regent of Spain. Collectors have offered big sums for it without avail. The Son Suspected. CAMDEN, N. J., Oct. 16.—Ed Shaw, son of one of the two women murdered here on Tuesday last, was arrested at four o'clock yesterday afternoon charged with having committed the crime. The finding by the police of a revolver secreted in the chimney of the young man's room led to the arrest. The weapon is said to belong to Shaw. Joyville Jottings.
