SPAIN'S ANSWER RECEIVED.

President Refuses to Make it Public-Not WASHINGTON, Oct. 28.—The event of

the day at the state department was the receipt of the long expected cablegram from United States minister Woodford at Madrid, transmitting the answer of the Spanish government to his representations in the interest of peace in Cuba. This message began to come in by instalments at two o'clock yesterday morning, and it was nearly noon before it was put in hand at the state department that day. It was not the length of message that occupied the wires all of that time, but the fact that it was all in groups of figures and that it was probably being tyled in small batches as it was turned into the complicated state department cipher in Madrid. All of this work had to be undone at the state department and the message translated from the cipher back again into good English. This occupied nearly all the day so that it was 3:30 o'clock before the first fair copy of the message was turned out. The first copy was taken at

After due opportunity had been allowed the president to read the message an apolication was made for a statement of secretary Porter and it was said that under has resulted it was evident that in neither language nor subject matter is the communication likely to be taken as offensive by the United States government.

Grief-The Duchess of York Was Pres-

ent at Her Mother's Death. RICHMOND, Eng., Oct. 28.—The duchess of Teck, who died early yesterday morning, was attacked with very severe pains on Tuesday, but she bore her sufferings with the greatest fortitude and showed the same heroic spirit after her return to consciousness. She took nourishment and conversed a little with her husband, with the duchess of York and prince Alexander of Teck. After the operation, during which the husband and children were torn with anxiety, they were permitted to enter her room, as it was hoped that all danger was past. The duchess with smiles and tears, showed that she recognized them, but after a time the look of recognition slowly faded away and she relapsed into

The action of the heart becoming increasingly difficult, they realized that all hope had gone. The end came quickly and peacefully, death leaving a characteristic of amiability upon her lips. funeral has been provisionally fixed for Saturday, the arrangement being entrusted to his royal highness the duke of York. The duke of Teck is so overcome with grief that he is unable to see anyone. The population of Richmond. especially the poor people, to whom the duchess had endeared herself by many kindnesses, is giving touching evidences of sorrow.

The death of the duchess of Teck has caused a sensation throughout England as it was supposed that she had entirely recovered from a previous complaint which caused her considerable suffering. During several days past active preparations have been on foot for the opening of the charity bazzar at Richmond, the duchess having promised to be present at the ceremony. The streets have been process of decoration, and the bazaar itself was approaching completion. Every thing possible was being done to make the bazaar a memorable event and to do honor in every way possible to her royal highness. The duke of Teck is prostrated with grief

at the death of his wife. The duchees of York was the only other member of the family sent at the death of the duchess. Later in the day an official statement was issued that the duchess of Took died of cardiac failure two hours after the operation was performed. The funeral will probably take place at Windsor.

Flage are half masted over all public buildings throughout Great as a mark of sympathy with the royal family in the loss sustained by the death of the duchess of Teck. The distress of queen Victoria when she heard the news of the death of the duchess of Teck was vary great.

The prince of Wales was at Newmarket when he was informed of the death of the duchess and immediately left for London.

OPENING OF PARLIAMENT

May be in January... A Subsidy For Direct Communication. OTTAWA, Oct. 28.—The date of meeting of the Dominion parliament has not yet been fixed, but it is expected that the

opening will take place about the middle of January. Sir Wilfrid Laurier assured a deputation from Montreal yesterday that if direct communication were established between Canada and France, in compliance with the terms proposed, the subsidy of \$50,000

a year will be granted. There is an impression in Ottawa that Sir Oliver Mowat will not assume the office of lieutenant-governor of Ontario until the

Sir Wilfrid Laurier will likely go to Washington with Sir Louis Davies, when the latter goes to attend the conference of experts in regard to seal life in Behring Sea. The date of the conference has not yet been fixed.

Prof. Saunders and his assistants have finished their test of cattle on the experimental farm to-day, and the result is that twenty-six animals have in all been found to be affected. It now turns out that when the late government purchased the cattle they never used the tuberculin test to see that they were free of disease.

Instructions have been issued to the departments to expedite the preparations of their annual reports, in anticipation of the meeting of parliament early in the year. Amongst other legislation which find a place in the government programme will be a bill to amend the supreme court act. This bill will provide for an adequate retiring allowance for judges. The present allowance to a retiring supreme court judge is two-fifths of salary ; the proposed allowance will be four-fifths.

THINK SHE WILL GET FREE. Working On Florence Maybrick's Case-A

CHICAGO, Oct. 28. - Dr. Helen Densmore, of London, arrived at the Auditorium annex hotel with her husband yesterday.
She has been actively engaged in Mrs.
Florence Maybrick's case for four years,
and for the first time she expresses hope

that the unfortunate woman will soon be at liberty. In addition to the statement given by Mrs. Densmore, John S. Melings, of Australia, who has been London for two years, says that it will be but two months until Mrs. Maybrick is a free woman. "At present I would rather not talk about the famous Maybrick case," said Mrs. Densmore, "but I will say that it is but a matter of weeks until this poor woman is free. Lord Russell has again taken up the case and he is using all his influence in behalf of Mrs. Maybrick The petition, signed by 100,000 persons, had no influence on the English courts at all, but now we have not only the leading citizens, but the main officials on our side feel sure that she will soon be free." Dr. Densmore and her husband will leave for California to day and return to England in about six weeks.

FAMINE IN IRELAND.

Government Urged to Start Relief Work Before Suffering Commences.

Dublin, Oct. 28.—There are two sides to the question of the famine in Ireland. One side is that of the government, which claims the famine is exploited by politi cians as an argument against the adminis tration of Ireland. The other side, held by many of the clergymen, politicians and people, is that it is certain there will be great distress throughout large sections o

A meeting of Roman Catholic prelates was held at Maynooth this week, and those present adopted resolutions that the archbishops and bishops of Ireland deem it their duty to submit to the government a statement of their conviction formed on the personal knowledge of seven members of that body, that the failure of the potato and cereal crops in many districts, par ticularly on the southern and western coasts, must lead to great distress, and unless speedy measures of relief are adopted to disastrous consequences. Meetings are being held, the parish priests presiding, urging the government to start relief works before the people are actually suffer-

The government officials insist on keeping themselves fully informed regarding the conditions prevailing and will be able to cope with the distress, but they are un able to announce at this time what districts or how many people will be affected.

"OLD SALT" ALVORD DEAD.

The Former Lieutenant-Governor Passes Away-Old Age His Only Allment, SYRACUSE, N.Y., Oct. 28. - Thomas Gold Alvord died Tuesday morning of old age. He had been confined to his bed more than a fortnight, gradually failing.

He is survived by two sons, Elisha Alvord, by his first wife, now living in LaJunta, Col., and Thomas G. Alvord, of Washington, assistant congressional librarian, and stepson of Prof. William Clark, of Trinity Mrs. James A. Cheney, of this city, both by his second wife. Thomas Gold Alvord was born at Onon-

daga Hollow December 20th, 1810. Mr. Alvord was one of the first persons to discover the beauty of the Thousand Islands as a summer resort. He built a handsome cottage on a fine island opposite Clayton and he named the place "Gov ernor's Island." There he entertained his friends in royal style every summer.

This is the Demand Made on the French

Paris, Oct. 28 -It is understood that the fundamental basis of the difficulty be tween Great Britain and France in West Africa is that France declines to recognize the treaties concluded with native rulers by officers of the British Niger company until the text of such treaties has been officially communicated to France by the British government. The French government claims that many treaties made with African potentates in behalf of France take precedence over the treaties negotiated in behalf of the British Niger com

Paris, Oct. 28.—The colonial group, in the chamber of deputies, a small but energetic party exercising great pressure upon the government, met yesterday and passed a resolution calling upon M. Hanotaux, the foreign minister to uphold French rights in north Dahomey, especially at Nikki and Boussa, and to re-occupy Bajibo on the Niger, which the French abandoned two years ago because unable to prove their title. The Republique Français, in an evidently inspired article that represents the general teeling of the French press, ascribes the conciliatory attitude of Great Britain to Lord Salisbury and blames Mr. Chamberlain, the colonial secretary, for the whole agitation. It also indicates that the preliminary discussion of the grounds to be covered by the Anglo-French conference in West African interests in dispute is likely to be very protracted.
