### A Human Phenomena.

Among the guests at the City hotel yesterday was E. Lewis, a Polander, who possesses a musical heart. By placing the ear in the region of his heart harmonious sounds are distinctly heard, keeping time with the beating of the heart. This curious case has been examined by scientists and medical men all over the continent, and the heart considered a marvel. Yesterday Mr. Lewis was viewed by Dr. Taird, Dr. Kilborn, Dr. Sullivan, Dr. Connell and others, who examined the heart with interest. Mr. Lewis is an exile from his native land and escaped from Siberia. He has a book of credentials from professional men, and of press criticisms, which he delights in showing to his visitors. He left for Toronto to-day.
