TUESDAY, NOV. 16. settled in the interest of particular districts. We may be able to secure arrangements which will add millions to our na tional export trade and yet it might be defeated by a combination of a few minor local interests, not amounting to a million. Yet reciprocity means mutual concession. Without this nothing can be accomplished. We must give a market if we require one -not necessarily a free market, but an accessible market. Take coal for an illustration. By giving access to the New England coast we might gain access (perhaps control) in the coal market of all central Canada, with mutual advantages by reason of geographical and transport conditions. Would it be wise for coal producers to antagonize these natural conditions? It is the same with other articles of commerce, where the long water trans-
