GERMANY TAKES REVENGE. Forces China to Evacuates Fort-The Situ-

ation Critical. LONDON, Nov. 15 .- A special despatch from Shanghai says that the commander of the German cruiser, Division, admiral Von l'iedrich, landed troops at Kiao Chau (not Kiaochan) on Monday morning, Nov. 15th. The three forts were held by 1,500 Chinese and their guns commanded the fleet. Admiral Von Diedrich placed his four cruisers immediately opposite, ready to fire, and sent an ultimatum ordering an evacuation of the fort within three hours. Six hundred German troops and six guns werethen landed, and began to march forward. The Chinese hesitated for a few moments and then the whole 1,500 bolted, helter skelter, across the hills beyond the forts.

The Germans quietly entered the fortifications, hauled down the Chinese flag, and hoisted the German standard, which the warships saluted immediately. The Chinese general, who had his family with him, did not flee, but claimed German protection. The forts are now held by the Germans, who, it is believed at Shanghai, intend to remain permanently. In official Chinese circles Germany is considered to have committed an act of war, but it is regarded as improbable that China, on account of her weakness, will take action upon it as

American and British warships have been ordered to Kiao Chau to watch developments. The greatest interest is felt as to the result of Germany's action, because the region is immensely rich in minerals and the harbor the bost along the coast. It is now asserted that the murder of the two German missionatios near Yet Chu Fu (Yeng Tu) was not the work of bandits, as originally understood, but was deliberately planned by Li Hung Hing, governor of the province, prior to his departure for Seet Chouan, of which he has been appointed
