The European Nations After Chinese Territory.

MAY GO TO ARBITRATION.

BRITAIN MAY BE CEDED A STRIP OF TERRITORY.

Then John Bull Will Fortify the Isles and Ready For any Emergency—Germany's Action in View of the Occupation of Kiao Chou Bay To Be Opposed—Japan Wants Her War Indemnities.

LONDON, Dec. 2.—The morning papers assert that China has practically agreed to cede to Britain a strip of territory near Hong Kong and all the surrounding islands, in order to enable Britain to fortify them securely and to increase the garrison. It is expected that a convention covering the agreement will soon be signed.

LONDON, Dec. 2.—A special despatch from Shanghai says that the Japanese newspapers are discussing the probability of war between Germany and China, as the result of the occupation of Kiao Chou and Kiao Chou bay by the Germans and assert that the German minister to China, baron Von Hoyking, is preparing to leave Peking.

It is reported in well-informed circles that the views of the Russian government have undergone a change as to the situation at Kiao Chou bay. Seeing the large forces that Germany is assembling there Russia is inclined with France to oppose German action.

A special despatch from Shanghai says that nine men have been arrested for assisting in the murder of German missionaries. It is currently reported here that France, Germany and Russia have entered into a compact for acquisition of Chinese territory. Germany taking Shau Tung, Russia taking Corea and France taking Fu Kien and Formosa.

The movements of the British and Japanese fleets are supposed to indicate suspicion as to the conduct of the other powers. Japan objects to a German occupation of Kiao Chou until China has paid the war indemnity.

It is understood at Shanghai that China will propose to refer the whole matter to the powers for arbitration.

BERLIN, Dec. 2.—All sorts of wild rumors are current here and at Kiel, probably based, in the main, upon the speech of emperor William at the opening of the reischtag, as to the relations between Germany and China. But most of these are discredited. The National Zeitung has confirmed the statement of the emperor that Germany's only object in the occupation at Kiao Chou is to protect German missionaries in China, and the alarmists' stories are now taken with a liberal allowance of salt.

A sensation was caused to-day by a report that the Chinese had massed 200 German sailors belonging to the German cruiser Division, in Kiao Chou Bay, but there has been no confirmation of this, while the latest despatches from admiral Von Diederich, commander of the Division, which were dated the afternoon of Nov. 28th, make no reference to fighting at Kiao Chou. The Berliner Tageblatt is responsible for the statement that two additional cruisers are going to Kiao Chou, bringing the force there up to ten ships with 4,000 men and 140 guns. The same journal says also that a force of marines, including the crew of the imperial yacht Hohenzollern, is going to Kiao Chou, and there is no official confirmation of these assertions, although they are held to indicate that a permanent occupation is intended, especially as it is understood that China does not insist upon evacuation.

MRS. NACK IS WORRIED.

She Does Not Know What Will Become of Her.
NEW YORK, Dec. 2.—A guard is kept in the cell with Martin Thorn constantly, while another guard sits outside the cell door. The convicted man will be sentenced on Friday morning, and will at once be removed to Sing Sing.

Mrs. Nack is evidently much affected by the conviction of Thorn. When she first heard of the verdict she wept and expressed sorrow for her former lover. She is more inclined to forgive Thorn for trying to swear her life away than he is disposed to forgive her for confessing that he committed the crime. Thorn has an impression that if Mrs. Nack had kept quiet the state would not have been able to make out such a strong case against him.

Mrs. Nack is now very anxious about her own case. District attorney Weller has not announced just what he proposes to do, but says he will take no action regarding Mrs. Nack until after Thorn is sentenced. It is understood she will be arraigned in court next week, when her counsel will enter pleas of guilty of manslaughter in the second degree, and the district attorney will accept this. In doing this, Mr. Young will recognize Mrs. Nack's action in turning state evidence at the first trial. Mrs. Nack may be sentenced to twenty years' imprisonment.

Stole The Collection.

WICHITA, Kan., Dec. 2.—George Silliman, a ten-year-old boy, is under arrest on the charge of robbing a contribution box of the Baptist Sunday school at Baumhagen, near Wichita. For more than six months Mrs. Silliman has been missing, and action was taken to arrest the treasurer of the school, Miss Ella Kammann, from the church and have her expelled for embezzlement as she could not account for the missing money, nearly \$100. When arrested, the boy said that his father had whipped him and compelled him to steal. Silliman is a wealthy farmer and a deacon in the church. The testimony is supported by the boy's mother. The older Silliman has been arrested.

IS UNDER MARTIAL LAW

"Down With the Germans"— "Down With the Jews."

RIOTERS DO GREAT DAMAGE.

PEOPLE DO NOT DARE TO SPEAK THE GERMAN TONGUE.

Prague is in an Excited State—German Citizens Injured Amount to Over 300—Their Property Was Destroyed—Mobs Burned the Costly Furniture in the Streets—Germans Have Received Another Insult to Her Feelings.

PRAGUE, Dec. 2.—As a result of the riots and disorders of the last twenty-four hours, the authorities have proclaimed the city under martial law. The chief of police, who is a Czech, has discovered encouraging rioters, and has been suspended from office. It is now known that the number of injured Germans reached 300; they are being cared for at various hospitals.

The disturbances have amounted almost to a rebellion. Thousands of Czech miners streamed into Prague from the surrounding villages to assist the rioters. The scientific instruments in the German university and high school have been destroyed and valuable archives preserved for a long time at the Kinsky palace, the largest in the Altstadt, have been burned.

Two special sufferers from the riots are baron Von Achenthal, representative of the German land owners in the reichsrath, and count Von Salm. The mob smashed the windows and tore out the window frames on the ground floor of the former's palace. Similar outrages were committed at count Von Salm's palace, which is the editorial office of the German paper, Bohemia. During the night the Archbishops' palace was boarded up, but the rioters soon removed the planks and threw large stones into the luxuriously furnished rooms, smashing valuable objects of art and costly furniture. Damage to the amount of many thousands of florins has been done to German firms, clubs and other institutions having German proprietors or patrons.

The constant cry of the rioters was: "Down with the Germans," "down with the Jews." Ladies venturing on the streets were obliged to wear the Slav tricolor in order to avoid being attacked. German sign boards are being hastily removed by their owners and replaced with Czech inscriptions. Nobody dares to utter a word in German. The Kinsky palace was plundered of its furniture, which was thrown through the windows, heaped in the street and set on fire, the mob preventing the fire brigades from approaching.
