LETTERS TO THE EDITOR.

Not Seeking Employment

KINGSTON, Dec. 2 .- (To the Editor) noticed a paragraph in your paper stating that I was an applicant for the position of chief engineer of Montreal police department. I was not aware before that police appliances required engineering skill. Statements that I have been negotiating for the purchase of an hotel or that I applied for the position of engineer in the police or any other department in Montreal is false. To those who seem so interested in my movements I may say that am not at present seeking employment .-JAMES DEVLIN.

Reviving An Old Custom. The duchess of Fife has followed the example of her mother and invested in a pinning wheel. It is a very pretty one of black walnut, mounted with brass, and although a hundred years old, still in excellent condition. With this wheel the duchess spine her yarn, which she afterwards knits into golf stockings for her husband. Preference Given To Kingstonians. Last evening chairman Donnelly, of the special elevator committee, stated a halfdezen or more citizens had complained to him that the M. T. company was violating the terms of its agreement with the city by engaging workmen from outside points in preference to Kingstonians. Chairman Donnelly went to Capt. Gaskin and informed him of the complaints. That person denied the accusation, and called in super intendent Jamieson, who bore out Capt. Gaskin's denial. It was proved to the satisfaction of chairman Donnelly that the company was, in every instance, giving preference to Kingston workmen. Such were the orders given to superintendent Jamieson and he was faithfully carrying

With deepest regret is chronicled the death of Thomas P. Nolan, at the early age of thirty-two, in his home in Camden, NY., on Nov. 23rd. He was of a genial, noble and kind bearted disposition, which won many friends, who were shocked at his early demise. Besides a father he leaves two sisters bereft of a kind and affec tionate brother. His remains arrived in Kingston by Cape boat on Friday, were met by a large circle of sorrowing friends and relatives, and conveyed to St. Barnaby's cemetery, Brewer's Mills, for interment beside the remains of his mother.

THE BERLIN MURDER TRIAL.

THE "MISSING LINK" OF THE CROWN'S EVIDENCE FOUND.

Blake, Solicitor For the Defence, Asked That the Case Be Dismissed Because of Insufficient Evidence-His Lordship Demurred-Several Witnesses Examined-The Boy Kinsman Gives Important Evi-

BERLIN, Ont., Dec 3,-Not as much interest was manifested in the Orr murder case to day as there was yesterday. All the evidence will probably be in to-day, and the verdict of the jury may be given to night. W. Dickson, F. B. Stewart and J. Brandon, G.T.R. employees, were heard, but gave no startling evidence. The crown used these witnesses to show

that a gun was fired. Trevellyan's evidence concerning the gun conflicted with the story of Allison. A. L. Kay, the constable who arrested the prisoner, said that Allison told him of meeting a man with a red moustache in the lane on the night of the murder. Robert Stalker, sworn, said prisoner recognized him as the man he met in the lane Mrs. J. J. Smith, sworn, said that Stalker had worked the entire day at her residence. Arthur Kinsman, a young conduct, testified that on the day of the murder he and Allison had a conversation in which the latter told him of the unchastity of Mrs. Ocr. While in jail the witness had a conversation with the prisoner in which the latter told him to keep his mouth shut about what he had told him of Mrs. Ocr. This no doubt is the "missing link," whereby the crown considers a motive has been shown. Seve-

ral other witnesses were heard. J. Blake, for the defence, then arose and asked for the dismissal of the accused on the ground of insufficient evidence. His At the police court this morning the ad- lordship demurred and evidence for the de-

A Huge Industry, Indeed.

A movement is on foot to form a company with the object of purchasing the locomotive works for the manufacture of steel barges and lake going steamers, also for the construction of heavy machinery of all kinds, locomotives included. The formation of the company is in the hands of Montreal parties, but it is said that Herr Krupp, the famous German gun manufac turer, two American capitalists, Sir Geo A. Kirkpatrick and J. B. Carruthers will form the company, although nothing definite can be learned, as those interested say the scheme has not fully matured. Negotiations have been under way for some time and may be closed at any moment. There is felt to be an opening for the manufacture of such machinery, etc , as it is proposed to put on the market.

After the customary opening exercises and reading of the minutes, Mrs. G. Parker gave an admirable address on "Why mother's meetings were of the greatest importance in W.C T.U. work, and the best means of conducting them so as to prove a real benefit to those mothers whose aim is to have their chilmanhood and womanhood." Mrs. Parker was thoroughly at home with her subject, and made a deep impression on the hearts of her audience. It was decided to hold mother's meetings in connection with the union, and it is to be hoped that very many of the mothers in the city will avail themselves of the oportunity of reasoning together as to the best means of training their little ones to form habits of goodness and purity, which will not only prepare the way to greater happiness here, but will prepare them for that future endless happiness which none can enjoy but those whose robes have been washed by "the blood of

Several items of unfinished business were discussed and acted upon. Mrs. (Rev.) Hammond then gave a very concise report of the provincial convention held at Brantford, which showed her rare ability of condensation. So much was described in so few words and at the same time was so thoroughly interesting, that although it was getting late none were willing to leave until she got to the end. Two meetings have been held since the convention and only the provincial has been reported as yet. We have yet to hear from our delegates of the dominion and world's conventions.
