OBSTINATE COUGHS.

"My daughter being afflicted with an obstinate cough which resisted the curative effects of almost all the advertised cough remedies, and having placed an order for 3 doz. of Chase's Linseed and Turpentine in W. W. Carter's Drug Store, of which I am manager, I was induced to try a bottle. A few doses gave relief and the one bottle effected a cure. I can highly recommend it as being pleasant to take and efficacious." E. PRINGLE.

FASHIONS OF NEW YORK.

Handsome Designs In Corded Tailor Gowns.

Bustles In Use-Pretty Tea Gowns-Evening Costumes.

Copyright, 1897, by American Press Asso-

One of the handsomest designs in tailor dressmaking is where the entire skirt and the full blouse walst are corded at regular intervals all over the surface in a round and round pattern. No color save the tan of the fine broadcloth was seen on one costume, but these little ridges, with stiff cord sewed in, seemed to give it all it needed to make a most elegant finish. No

one but a postgraduate in the art of dressmaking should make an attempt at cording a tailor gown. The preferred colors for fine cloth and venetian and also whipcord tailor suits are stone gray, tan, mode, biscuit and dark heliotrope. Some imperial and endet blues are also seen. The est and thinnest of dancing dresses for dark, however, does not show up well young ladies. Naturally the colors are when made, and the light is very delicate and soils quickly.

Overskirts and draped tunics are among the latest additions to the decoration tailor costumes. These overskirts are precisely like those in vogue 10 and 11 years ago, the sole difference being in the braiding now put upon them instead of the Persian bands of old and the bordering of velvet or silk. These now are in shawl shape, in draped tablier and in long tunic form, caught up on one side in rich, heavy folds. A few are in the shape of a peplum and are left open at the sides or in front and fastened across with some arrangesums, at low rates of interest, on City ment or other to match the trimming on

Just now the plaid dress goods are seen in unusually large numbers, but the clan

of the design made of black velvet. This gives an unusually rich effect, and this peplum absolutely require a little artificial draped without it. Draped skirts are sure-

I the core. - Yours truly, Elector. should have said that the front was of china crape of a pink so faint that it was almost white. This was a superb gown. velvet plaid is no dearer than that with satin stripes.

Velvet as a material for street dresses, wraps and coats-incidentally blouses too -and for coremonious evening requirements and hats and bonnets is unusually popular this winter and will be more so. A new use for it has been found in making portions or entire waists to the flimsicarefully chosen, and the velvet is applied in such way as not to interfere with the tionting flutliness of the gown. Swiss belts, draped sides and bodice points, leaving the upper parts to be swathed with the lighter stuff, in form of berthas or fancy yokes and collars, are all made of the velvet. Yellow velvet waists with tulle, lisse, silk mull or fish net in the same shade are bonutiful and make the wearer look like a new kind of camary bird. Pink, blue and green are also seen. Not very much velet is needed, but it certainly is effective

when well arranged Nearly all the gowns now made look better for a slight distension in the back, and almost every handsome skirt has at least a tiny horsehair cushion set in the back at the belt Many have regulation bustles

CO. RECEIPTS OF THE FACTORY. STATEMENT SHOWS INCREASE

> A Very Large Market Death of W. N. Maltory-Thieves Take a Lib-ral Supply of Butter, Turkeys and Grain. NAPANEE, Dec. 20 -On Saturday last the market was one of the largest since the thankegiving season. Fowl of all kinds were in abundance and found a ready sale at very fair prices. Turkeys ranged from 75c. to \$1.25 each; chickens from 35c. to 50c per pair; ducks, 60c to 75c. per pair,

> and geese, 75c. to \$1 each. On Saturday last death claimed one of the most respected residents of Adolphustown in the person of W. N. Mallory. Deceased had been in very poor health for some time, and for several months past it was known that there could be no cure to his malady-diabetes. Deceased was a brother of Mrs Elizabeth Green, Napanee, and was in his fifty-ninth year. The funeral takes place to day at ten o'clock to Allison's yault.

Our merchants did a profitable business

paying the patrons the remainder of their cheese money for this season. The following is a statement of the effairs of the factory for the season of 1897: Total number of pounds of milk, 2.171.889; total number of pounds of cheere, 215,441; re-7 ceipts for the year, \$18,786 43; manufacturing and general expenses, \$3,770 18; paid patrons, \$15,016 92; balance due treasurer, sixty seven cents. This statement shows an increase over 1896 of over \$5,000, and to show the increase in the cheese industry in the last ten years we will give the make of that season. 1887, total number of pounds of cheero made. 69 015, and the receipts c were \$6,919.55, showing in ten years an increase in receipts of 511 666 88 This certainly shows a wonderful increase in the cheese industry in this factory, and we presume this might be taken as a fair criterion of the growth of the cheese business in this section of the country at least. There was no mistaking the fact that yesterday was a typical winter's day. The thermomoter registered several degrees below zero in the early morning. Gerow, of the palace road butter factory,

reports that he had 150 pounds of butter stolen on Friday night. He is certain that there were two thioves, and one of them wore square total boots, and the other pointed-toed. A farmer nearby also lost three turkeys the same night, and another farmer reports several bags of grain stolen. Sydenham High School-December Exams. Algebra-G Smith, B Rielly, M. Kennedy, T.
