At the request of Dr. Ryckman, I have

read over the editorial in your paper of the 18th inst. It appears to be a synopsis of Rev. Dr. Penticost's views, who seems to deprecate, in a sermon delivered at Utica, the insufficiency of giving; also lack of life, zeal or devotedness of the church to-day which characterized Mosaic, and early christian movements. There are some things which have escaped the doctor's notice. Under the Mosaic economy the church and state were united Consequently all monies passed through was only one-tenth (for church and state field, yet, as it all passed through their hands, it no doubt seemed a large sum and they were satisfied. I am aware of another tenth used for socialistic purposes, and still every three years another tenth, for socialistic purposes.
