CARD OF THANKS.

R. W. VANDEWATER, ESQ., General Agent Mercantile Fire Ins. Co.

THE SENATE MUST GO.

The Institution Useless, Obstructive and Costly—The Liberal Policy Truly Exemplified.

The Editor, British Whig.

Sir,—At the late Reform meeting in this city I was very much pleased that a resolution was moved and adopted, proposing that the abolition of the Senate should be a plank in the future Liberal platform.

More than that, should I have said it a hundred times, the House of Commons is a more aristocratic body than the House of Lords. The fact is a great peer would be a greater man now in the House of Commons than in the House of Lords.

The above was written in 1841, and even before that time the late Mr. O'Connell undertook a crusade against the House of Lords. Among other things, he wrote a series of letters to the late Mr. Edward Baines, then editor of the Leeds Mercury.

It would be a grand thing if the people of Canada would show that a nation could be governed by one chamber. It is not the first time that the British people have been influenced by and that they have followed the example of their colonies.

The Liberal party are tainted with having no policy. They have a policy and a very necessary one, and that is economy in the administration. The Senate costs the country a great many thousands annually without being of any use whatever.

More than that, should I have said it a hundred times, the House of Commons is a more aristocratic body than the House of Lords. The fact is a great peer would be a greater man now in the House of Commons than in the House of Lords.

Yours Truly, JESOME ESTER, Sept. 8th, '85.

THE DAIRY MARKETS.

What the Week has Produced in this Line That is Worth Reporting.

Kingston Cheese Board.

Kingston, Sept. 7.—There was a small attendance at the meeting of the county of Frontenac cheese board on Saturday. The salesmen looked gloomy when a telegram was read from Liverpool stating that cheese was quoted there at 3/6, a decrease of 1/4d since last Saturday.

Mr. McFarlane sold 100 cheese, August make, to Mr. Whitten, of Belleville, for 8c. The following cheese were registered: Duff—200 July, 100 August, w. 7c. Glenburnie—100 August, c. Cold Springs—70 August, c. Oregon—100 August, w. Glenvale—275 August, c. and w. Forest—290 August, w.

At the cheese market two factories sold 700 boxes at 6 1/2 to 7 1/2, and two other factories sold on contract the balance of this season's make. Campbell sold for 100 boxes of July make, and 1,000 of August. No offer was made for the July cheese, and the highest offer for August was 7 1/2, which was refused.

Montreal, Sept. 3.—Business was very quiet, with little disposition to operate from the country. At London, Ont., the market was active, with sales of 11,000 boxes at 7 1/2 to 8 1/2. Montreal dealers have renewed their offers to contract the balance of the season on the basis of 8, 9, and 10c. The Gazette says the general market is rather unsettled, and that the cable advices show no improvement, the cable remaining at 40s. and the New York market to-day was dull.

Canalogue, Sept. 4.—Members gloomy. 1,000 boxes registered, and 500 expected. Brockville, Sept. 3.—5,000 cheese offered, none sold. Buyers offered 8c, some sellers offered contract at 8 1/2 and 1c for the next September and October. Holburn Bros. has contracted with Cherry Ridge and Clear Lake union factories for their August, September and October makes at 8 1/2 and 1c respectively. The sellers are, as a rule, holding for higher figures.

Little Falls, N.Y., Sept. 3.—This market responds promptly to the demand. New York prices here are 7 1/2 higher than last week ago, and a lively trade was realized. There are fears that the boom has been carried too far, and that a reaction may follow, but there is a stronger belief that it is all right. At any rate all are feeling good over the advance. Sales were 173 boxes at 7 1/2 to 7 3/4 for July and 7 1/2 for the first half of August. Six buyers present.

Montreal, Sept. 4.—No actual change. Business very quiet, although transactions were made at over 8c. The Liverpool market has failed to respond fully and orders are not coming freely. Liverpool 4 1/2. Here fine to finest August 7 1/2 to 7 3/4. Last week at this date the stock here was 10,000 boxes with cheese quoted at 6 to 7 1/2, and the cable at 5 1/2.

Waterbury, Sept. 5.—Saturday was a cold day for salesmen. They came here with the idea of getting eight cents for their cheese. The buyers refused to offer more than 7 1/2. The salesmen hung on, but had to go home without selling. The Montreal advices were that the market was very tame and nominal. The receipts were 4,000 August cheese brought 8c and July 7c. As the salesmen and buyers would not agree, no cheese was sold on the board.

Waterbury, Sept. 5.—Saturday was a cold day for salesmen. They came here with the idea of getting eight cents for their cheese. The buyers refused to offer more than 7 1/2. The salesmen hung on, but had to go home without selling.

Canadian Cheese.

A Canadian cheese dealer who has travelled extensively states what he believes to be the true ground for the preference in England of Canadian cheese. It is invariably made of new milk containing all the cream, and is therefore rich and nutritious as well as finely flavored.

From May 1st to Sept. 5th the exports from New York have fallen off 10,484,409 pounds, against a decrease of 3,239,700 pounds from Montreal. Compared with 1884 New York has decreased 13,026,688 pounds, while Montreal has increased 4,333,920 pounds. Compared with 1882 New York has decreased 7,954,021 pounds, and Montreal has increased 11,729,760 pounds.

The crop is above the average as a whole. In many localities spring wheat is a comparative failure owing to rust and weevil, but the crop of fall is very large, and its unusual yield will make up for the shortage in the spring sown. Our neighbors in the States have not fared so well. The shortage there is so great that if the export is only half as great as that of last year there will be no wheat left in the country at the beginning of the harvest in 1886.

Canadian hop growers are depressed over the season's prospect, for though the crop is large prices are low. The first consignment of the harvest in 1885, was 1,000 cwt. at Montreal on the 1st, five days later than the first bale last year, and was sold for 12 1/2c per pound. The hops showed excellent quality and flavor, as well as color. The first bale in 1884 was sold at 12c. The first bale in 1883 was received on Sept. 10th, and sold at 12c.

The first direct shipment of Great Britain of flour manufactured in Winnipeg was made yesterday, by the Ogilvie Milling Company to Leith, Scotland. The first shipment of wheat of this season's growth for England from the Canadian Northwest was made at Maple Creek, six hundred ninety bushels, on Sept. 2nd. The wheat is a good sample of the Red Fife variety, and was grown on the C.P.R. experimental farms at Maple Creek and vicinity.

London Times, Sept. 4.—Members gloomy. 1,000 boxes registered, and 500 expected. Brockville, Sept. 3.—5,000 cheese offered, none sold. Buyers offered 8c, some sellers offered contract at 8 1/2 and 1c for the next September and October.

Waterbury, Sept. 5.—Saturday was a cold day for salesmen. They came here with the idea of getting eight cents for their cheese. The buyers refused to offer more than 7 1/2. The salesmen hung on, but had to go home without selling.

DAVY'S EXCELSION. The Lightest, Cheapest, Best Fence in the World—Prof. Davy's Patent.

Prof. J. W. Davy, of Kingston, is attending the Industrial Exhibition, Toronto, with specimens of his iron fencing, for which he has obtained Canadian and United States patents. He offers, for farm and railway use, the only post that can get a firm footing anywhere, and without preparation for locating, shilling rock or digging post holes.

The new school-house at Odessa is a great credit to the village and township. It is commodious and imposing in appearance. Indeed the school trustees might with profit visit Odessa and see how fine a school can be erected for \$4,000. The contractors are: Masonry, Wm. Saul, Napanee; carpentry, S. Brown, Newburgh; painting, Robinson Bros., Kingston; tinsmithing, Robert Bannett, Odessa; architects, Power & Son.

Between Kingston and Napanee there are evidences on dozens of farms of rapid improvements in the way of residences, barns and fences. In several places also the front lawns are being highly cultivated. The mortgages are becoming ever apparently and more rapid improvement may be expected than ever before after the late good harvest.

These markets are the very latest up to the hour of going to press. They are carefully checked and specially compiled for the farmers of this and surrounding districts. WHEAT—Flour, per 100 lbs. \$2.00 to 2.25; wheat, spring, per bush, 97 1/2 to 98 1/2; wheat, fall, per bush, 90 to 92; barley, per bush, 50 to 55; oats, per bush, 32 to 35; rye, per bush, 60 to 65; hay, per ton, 6.00 to 8.00; dressed hog, per cwt, 9.00 to 10.00; butter, per lb, 18 to 20; apples, per bag, 10 to 12; corn, per bush, 40 to 45; goose, per doz, 9 to 10; best per cwt, \$5 to \$6; codfish, 2.00 to 2.50; herring, 30 to 40; potatoes, per bush, 4.50 to 5.00.

A GREAT SUIT SALE AND A GRAND SUCCESS. OUR EFFORTS CROWNED WITH GLORY!

The stock is rapidly diminishing and there is not the slightest doubt but that we are going to manage to get it down to the desired amount before moving. The prices for our September Suit Sale are 10 per cent. lower than they were for August, and from the rush we have had during last week it is quite evident that the people see it. What can be saved on a single suit will pay your railroad fare for 100 miles.

We want everybody to distinctly understand that in holding this Great Suit Sale our object is purely to get rid of the stuff before entering our new premises. The Prices have honestly been reduced. Just note the reductions we have made, which can be seen by calling:

Table with 2 columns: SUITS TO ORDER and READY-MADE SUITS. Prices listed for various suit types.

In our Boys' Department similar reductions have been made, but lack of space prevents us from giving quotations. When you come to the city and don't know where THE PEOPLE'S CLOTHING HOUSE is, just ask a policeman or anybody—the smallest child belonging to the city—can tell you where the Great Clothing House is.
