### TELEGRAPH BRIEFS.

A Budget of Interesting Items From All Parts of the World by Electricity.

Chicago, Sept. 19.—Watson Butler, aged 18, cabin boy on the schr. Cuba, from Montreal, was found to be suffering from small-pox. He was sent to the hospital and the crew of the schooner vaccinated.

London, Sept. 21.—The Stead-Armstrong trial is costing £400 a day, and he cannot rely on Gen. Booth to defray the whole expense he will not be surprised if every stick of his own is sold off. This is doubtful, however, as the moral tide is setting in strongly.

Montreal, Sept. 21.—Mr. George Stephens has sailed for England. He goes across the Atlantic to make arrangements for proceeding with the Short Line railway to the Atlantic, the Smith's Falls branch of the Canadian Pacific, and the construction of the Lac-chaîne Bridge.

Montreal, Sept. 21.—A fire broke out in the stables near Clendinning's stove factory at midnight. Eleven horses were in the stables five were got out safely, four were got out badly burned, and two were burned to cinch. The damage now is about \$2,000.

London, Sept. 19.—Earl Granville, Mr. Gladstone's Minister for Foreign Affairs, has returned from his Channel cruise with his deafness so materially increased that he is unable to any longer transact ordinary business. It will be impossible for him to re-enter public life.

Rome, Sept. 21.—In the cholera panic at Palermo many inhabitants fled to the interior of the island, where there have been, in many villages, riots over the new arrivals. The people are running in many places to escape the cholera to prevent Palermo travellers from coming. At Trapani a mob of fishermen and artisans burned the railway station yesterday.

New Orleans, Sept. 21.—It has been raining here almost incessantly since Friday. Many of the streets and sidewalks are overflowed. Telegrams from Yazoo, Quachita, Red and Mississippi River valleys report excessive rains and much damage to the cotton crop. The rice crop throughout Louisiana is more or less damaged.

Toronto Sept. 19.—A few days ago forgeries were committed by a book-keeper of Mr. Wm. Kyle & Co., wholesale grocers. Kyle was arrested at the instance of the Merchants' Bank, which was victimized by the forgeries. Kyle is a prominent citizen and a very active opponent of the Scott Act and achieved some notoriety by the readiness with which he has many times made offers of marriage to young ladies of good families.

Bismarck, Dak., Sept. 21.—The devastation by prairie fires, from Fargo to Bismarck, far surpasses the destruction of any previous year. Hundreds of wheat stacks were swept out of existence. The amount of wheat burned in north Dakota during the past week is immense. It is estimated that the entire crops of 100 farms have been destroyed.

Madrid, Sept. 21.—Disastrous rains have prevailed during the past twenty-four hours in the southeastern part of Spain. The rain came down in torrents, and soon the rivers overflowed their banks, causing an immense destruction of property and loss of many lives.

Ottawa, Sept. 20.—The special corps, organized in the North-West Territories during the insurrection, have all been released with the exception of Lt.-Col. Scott's battery, Winnipeg, and Lt.-Col. Smith's detachment of "A" and "B" batteries, and "C" company of infantry, at present in the North-West Territories, will, it is understood, be detained until the mounted police are in a position to take over the duties at the posts which they hold.

Montreal, Sept. 19.—A sensation has been created here by rumors that a young married woman, daughter of a minister and not long married, has compromised herself badly by an intrigue with a young doctor whom she met at Murray Bay during the summer, and has, since returning home, absconded to the States lest she should be arrested for trying to poison her husband by introducing ground glass into his food.

The reports require confirmation, although the names are published. The husband's family is respectable and well off, but has had trouble heretofore arising out of one of the sisters of the young man being married to Robinson, the absconder of St. John, N.B., who robbed the Bank of Montreal by forging notes that were discounted for nearly forty thousand dollars.

### THE VOLUNTEER CAMP.

Inspection of the Artillery—A Wild Night in Camp—Notes.

The horse shot at the butts on Saturday will probably be paid for by the Government.

The Belleville *Intelligencer* says the military camp at Kingston "is well situated."

Capt. J. R. Anderson, of the Amelia-berg Coy. pany, 16th Battalion, is the biggest man on the ground.

The Kingston Field Battery has all the guns well manned, and the ranks filled with fifty good men.

The 40th Battalion carries the colours given it by the ladies of Cobourg in 1866. The flags are very handsome and cost \$200. They will be unfurled on the march out.

Adjutant Bailie, of the 47th Battalion, is popularly regarded. He looks kindly after the interests of the men. His tent is always a rendezvous of the citizens who visit the camp. Quarter-masters George Thompson is his companion, and by such a jolly party everybody is made to feel at home.

Thursday is the field day, when a sham battle occurs, the capture of Fort Henry being the climax of the programme. The 46th Batt., with a company of the 14th, will defend the fort against the advancing host.

INSPECTING THE ARTILLERY. On Tuesday forenoon Lieut. Col. Cotton, Assistant Inspector of Artillery, made an inspection of the field batteries, and was accompanied by Lieut. Col. Villiers, D.A.G. and Capt. Brennan, A.D.C. The batteries were called out and their guns and accoutrements examined. The brigaded batteries then went by on the walk, the trot, and by "rank file." The officers were examined as to their capabilities and their knowledge as to their duties. Before the inspection was over rain fell and the batteries were dismissed, but like true soldiers, though only clad in tunics, the inspecting officers stood outside and met the storm unflinchingly. The brigading of the infantry corps had to be dispensed with owing to the weather.

This afternoon the cavalrymen gave a reception and before the camp closes on Saturday Lieut. Col. Kirkpatrick and officers of the 47th Battalion will entertain their friends. The officers in all the branches of the service deliberate together very happily. They visit each other's quarters, enjoy each other's hospitality, and while the time away by relating anecdotes of a military character. The dinners at the various messes are also enjoyed, and if the old saw, "Laugh and grow fat," holds good there is hope for many of the thinner officers in camp.

A WILD NIGHT IN CAMP. The soldiers had a terrible night of it. Shortly after 6 o'clock the rain abated, but a cold north-west gale arose. It fairly howled as it swept across the waters. The camp ground was very wet and soggy. Pools of water were to be seen all over the field. As the wind dried it the canvas flopped daintily and many times men had to rush out and tighten up the ropes to prevent the collapse of tents. Some were blown down after all. Two tents of the 16th Batt., owing to the rush of waters, had to be removed. A whole company in the 40th Batt. had to repeat their camp as the reason for the same reason. An offer was made to transfer 180 or 200 men to the fort for the night, but the men preferred to remain on the ground. Everybody was good-natured, and throughout the night those who could not sleep sang to their heart's content.

The 47th Battalion lives luxuriously. It has eighteen cooks and twenty-five servants.

Two men of the 16th Battalion were arrested for firing their guns in camp, but they were let off by the D.A.G.

Capt. Byrne says the shooting by the 47th at the butts was excellent. The cavalry corps did well. The cavalry sergeant-major was elaborately decorated, and Bird catered most satisfactorily. The affair was very interesting and for several hours the time was spent pleasantly in singing and toasting.

### AN AGRARIAN OUTRAGE.

Dublin, Sept. 21.—An agrarian outrage is reported from Waterford, a country that has been heretofore comparatively free from this form of terrorism. William Barron, a bailiff on the estate of Mr. Henry Winston, at Ballynacarta, near Dungarvan, recently took a farm from which the former tenant had been evicted, and Geraldus Hourigan, a farmer, was negotiating for another. Both this farm and the one denounced at a National League meeting, held last Sunday, and on Friday night shots were fired into Barron's bedroom and the door of Hourigan's house was riddled. Both men were absent from their houses, so the firing was only what would be termed a "gentle reminder."

### Marysville Events.

On Tuesday, 19th, an orderly and attractive crowd assembled on the grounds known as the Old Mill Point, about a mile from the village, it being the event of a picnic given in aid of Trinity Church fund. During the afternoon games and amusements of all kinds were participated in. A spacious platform was erected on which the ladies and lasses feasted in the revelries of a dance. Music, which was of a high order, was furnished by Messrs. McLaren & McDonald. Towards the evening a few showers of rain dispersed the small flies that filled the air, also the large crowd that attended the picnic.

### Zane-ville Notes.

The air is very moist; it rains near every day.—The captain addressed a large audience on Sunday at the new school-house.—Mrs. Oliver is about moving to the States.—A. Brown is doing a lively business in his grocery.—The boys who went away to make a purse full in harvest work have all returned home again.

### THE DAIRY MARKETS.

What the Week has Produced in this Line That is Worth Reporting.

Kingston Cheese Board. Kingston, Sept. 19.—Very little activity was manifested by buyers or sellers at the meeting of the Kingston cheese board on Saturday. Mr. Duff was the only speaker. He disposed of 200 boxes of August makes at 7 1/2c. The cable, which has stood at 39c for two weeks, was still unchanged. Little Falls was quoted at from 7 1/2 to 7 3/4; Brockville, 8c; Peterboro, 8c. The following factories registered:

Cold Springs, G. Brewer, Aug. w. ....	100
Hailton, T. D. McAuley, Aug. c. w. ....	140
Forest, J. Monland, Aug. w. ....	200
Glennville, G. Bennington, Aug. w. and c.	250
Oregon, T. Keenan, Aug. w. ....	350
Olenburnie, J. Hay, Aug. and Sept. c.	420
Duff's, W. Duff, July and Aug. w. ....	675
Pious Hollow, T. Fowler, Aug. w. ....	120
Live and Let Live, W. Rutledge, Aug. and Sept. w. ....	150
Cataraqui, T. Olyde, E. Fuley, Aug. w.	150

London, Ont., Sept. 15.—At the cheese market thirty-eight factories of 17,730 boxes of July balance August sales, 350 July at 7 3/4; 470 at 8c; 350 August at 8c; 470 at 8 1/2c; 500 July and August on private terms, market quiet.

Montreal, Sept. 17.—Buyers fail to operate, although the enquiry was, perhaps, a little more earnest. Cable unchanged at 39c. Accounts of factory men are firm, and there are rumors that no more contracting has been indulged in. Fine to finest, 7 1/2 to 8c; fine to finest July 7 to 7 1/4; medium to fair grades, 5 to 6 1/4c.

Woodstock, Sept. 17.—Sixteen factories offered 14,325 boxes cheese; 13,300 boxes of July; balance August make. Market dull; sales reported.

Montreal, Sept. 18.—Want of life still continues in cheese, all the business energy being apparently expended in the country markets.—The cable remains unchanged at 39c, and in the absence of business we continue to quote 7 1/2 to 7 3/4 for August, but these are rumors that no more contracting has been indulged in. Fine to finest, 7 1/2 to 8c; fine to finest July 7 to 7 1/4; medium to fair grades, 5 to 6 1/4c.

Waterbury, Sept. 17.—The sales were on board to quote 7 1/2 to 7 3/4 for August, but there are lots of cheese throughout this district, but no recent transactions are heard of. Sellers want 8c for first half of August, but buyers are not willing to give that price.

Gananoque, Sept. 19.—A large number of boxes were offered, and several buyers were present, but no transactions had taken place up to a late hour.

Waterbury, Sept. 18.—The cheese association of this place shipped 125 cheese on Saturday to England.

Gananoque, S. Pt. 18.—At the board on Friday 2,000 boxes were offered. Ruling price 7 1/2c. Buyers wanted to contract for August and 9c for September and October.

Waterbury, Sept. 20.—At the cheese market fourteen lots, representing about 2,500 cheese were sold. The prices ranged from 7 1/2 to 7 3/4, the ruling being 7 1/2c. A few boxes went at 7 3/4.

Gananoque, Sept. 20.—Twenty-four hundred cheese were sold from 7 1/2 to 8c.

Montreal, Sept. 21.—Cheese dull and lifeless. The trade feel tired and discouraged by the prolonged dullness, the unsatisfactory state of the British market and the continued firmness exhibited by factories.

Waterbury, Sept. 21.—The offerings of cheese were 3 1/2c and the ruling price was 7 1/2c. Thus about \$15,000 worth of jelliferous cheese goes forward this week, leaving the shelves of the factories clean from the 18th August to the 1st Sept. The corresponding week a year ago there were 1,125 cheese sold at prices ranging from 10 1/2 to 11 1/2, ruling 11c.

Montreal dealers for buying at high prices that the market will not justify to cut one another out, and 8 1/2c has been paid this week. From all accounts there is a heavy supply held in the country. Liverpool advice continues dull and private letters state that no great improvement is looked for this year. The situation is perplexing. "Reclamations have been made by Liverpool exporters against shippers here, who shipped July goods at August and have been discovered. Liverpool was called unchanged at 39c, and we quote nominally fine to finest August 7 1/2 to 8c, fine to finest July 7c to 7 1/4, and medium to fair grades 5 to 6 1/4c. Last year at this date August was quoted at 10 to 10 1/2, July at 9 1/2 to 9 3/4, the cable at 2 1/2 to 3, and the stock in Liverpool, Glasgow, London and Bristol estimated at 50,000 boxes.

### Liverpool Provision Market.

Hodgson Brothers' Circular, Sept. 21. CHEESE.—The trade is dull and without animation. Some holders of stock, costing considerably over present values, continue to show firmness, preferring to hold rather than accept present or lower rates, but the market holders are free sellers and would meet buyers if they were disposed to operate. The demand the last few weeks has not been equal to the receipts, and there is some accumulation of stocks. Occasional lots of fancy, cool, rich, clean cheese sell in retail up to 48c, but the average run of best American and Canadian offers at about 38c to 38 1/2c, while parcels heated in flavor or condition sell slowly at 30c to 35c. There is a fair enquiry for 15c to 25c grades, but no much stock offered at the figures.

BUTTER.—The market is firm for choice and good conditioned lots of creamery, and the price is tending upward. We quote 92c to 97c for such. Medium grades at 60c to 75c sell slowly.

### The Butter Market.

Montreal, Sept. 18.—There is no change in the market for butter. We quote. Creamery, finest August, 21 to 21 1/2c; do. finest July, 19 to 20c; do. inferior goods, 15 to 18 1/2c; Brockville and Morrisburg, finest fresh made, 15 to 19c.

### Cheese shipments.

17th.—Mr. Hodgson shipped per G.T.R. to Montreal 600 boxes of cheese manufactured by the Iron Junction, Batesford & Sunbury factories. The cheese realized 8c.

### The Hop Market.

The hop market continues quiet. Offerings are but buyers make no effort to purchase beyond what is required for present use. In New York the market shows a little more life. Prices unchanged, New, 11 to 12c for best; 9 to 10c for under grades; 8c for best old; 5 to 7c for the lower qualities, and 3 to 7c for California.
