### A RIOT IN MONTREAL.

THE ANTI-VACCINATIONISTS MAKE A SER-IOUS DISTURBANCE-THEY ARE WELL ORGANIZED AND NOISY, BUT NOT DAMAGING - THOUSANDS OF THEM

Montreal, Sept. 28.—This evening a most disgraceful anti-vaccination riot broke out among the French Canadian population. For some past there have been mutterings against the stringent measures enforced by the Board of Health, and this afternoon at the meeting of the city council the grant for vaccination was cut down from \$5,000 to \$2,000. Three French Canadian aldermen announced that the city was on the eve of a riot. This proved only too true, for about 7 o'clock a howling mob surrounded the east end branch health office and completely wrecked the building. The police on duty were powerless, and the mob gathering strength from this marched upon the central office in the city hall. By this time, however, daughter of J. J. Whitehead, of this city. the riot alarm had been sounded and a strong force of constables were gathered inside the building, but for some time the constables were like dumb driven sheep, as there was not one to command them. After the mob smasled the central office, they turned their attention to the central police station and soon had all the windows there reduced to atoms. SHOTS WERE FREELY FIRED.

> at the police, and to scare the people the officers fired over their heads, only to be received with jeers and laughter. Things now looked so bad that the men were armed with rifles and fixed bayonets, but happily it was not deemed necessary to use them. The constables charged the mob, clubbing right and left and succeeded in dispersing them, but not before they had managed to wreck the greater portion of the court house windows, which are opposite the city hall. The mob broke up into different bodies and proceeded to wreck the windows of the Herald office. After the rioters left the Herald office they proceeded against the east end of the city. The rioters set fire to the residence of Dr. Laporte, one of the public vaccinators, on Piessis street, but the fire was extinguished before any material damage was done. The house, however, was

> > BADLY WRECKED BY THE STONES

fired by the mob. Dr. Laberge, medical officer, and Ald. Grenier, chairman of the finance committee, also had their houses damaged. Another attack was made on the east end health office, the policeman on guard being overpowered and the chief, who went in to protect the building, being kicked and clubbed Mr. R. Montgomery, Jr., of Toronto, badly about the face. They cleared out all the placards and disinfectants in the office and did other damage. They also tore down the placards marking the vaccipation stations in several places. While the chief of police was at the health office he noticed a man trying to knock down a stove to set fire to the place. When he gave the fire alarm and when the firemen came to put out the fire, some men came up with axes and threatened to cut the hose as soon as water was turned on. The chief of police was rescued and taken home. Batons were used with vigor, and many of the rioters were badly cut about the head and face. Several arrests have been made, including the ringleader of Montreal, Sept. 29.—The excitement

to-day over the anti-vaccination riot last night is intense, and many declare that the time has come to proclaim martial law. As there is danger of another riot to-night the mayor has asked that 600 men of the 5th military district be placed under arms. He has also ordered the detectives to scour the city and find the ringleaders of the riot. The rioters last night were well organized and were headed by three men in a carriage, who directed their movements. Chief Paradis, who was clubbed and stoned at the corner of Hubert and Ontario streets, received some very painful wounds, but fortunately no serious results are anticinated. Mayor Beaugrand rose from his sick-bed and came down town to take measures to quell the riot. His energetic measures are commended by all. He says that if the aldermen will not assist him in this matter he will protect the lives and property of the citizens on his own responsibility. Col. Kennely had a guard of Montreal engineers on duty at Bonsecours market all night. While the riot was in full progress at the city hall Sergeant Beauchemin and Sub - Constable Bureau arrested a man named Alphonse Moreau, a shoemaker, whilst in the act of throwing stones at the windows. Sergeant Kehoe and Sub-Constable Prevost also arrested an individual named William Black, a barber, for a similar offense. They were brought before the magistrate this morning and their trial postponed until to-morrow. A woman, the health office at the time the attack, was hit with a stone and wounded. Amougst the incidents of the riot a prominent memof the city council expected that his house was to be attacked. His tients. duties demanded that he should come down town, and his wife and the coachman took their positions inside, at the door, one with a shot gun and the other with a revolver, prepared for the first ruffian who attempted to enter the house. CAUSING THE TROUBLE. Montreal, Sept 30.-It appears that a row started at the east end office vesterday as a result of a placar i being put up on the house of a Mrs. Chaput, who had torn previous notices down on several occasions. tion and the crowd dispersed. ANOTHER QUIET DAY. Montreal, Sept. 30.—Everything quiet to-day and no danger is at present feared, but some of Monday night's rioters have expressed their determination to keep quiet while the volunteers remain under arms and to renew attack as soon as there is any laxity ir the present precautions. A large number of special constables will likely be sworn in. Returns to-day show that there were 42 deaths from small pox in the city yesterday, 6 in St. Jean Baptiste village, 6 in St. Cunegoude, 2 in Cote St. Louis and 1 in St. Henri. Yesterday 313 people were vaccinated, 7 houses disinfected, 28 placards posted and 9 yards cleaned, and the police are searching every place for small pox pa-

## HAPPY HARVEST HOME.

VERY PLEASANT AND SUCCESSFUL

GATHERING AT MATAWATCHAN. A Harvest Home, held at Matawatchan in connection with the Presbyterian Church, was a decided success. Although a steady rain had fallen the day previous the weather proved propitious. for harvesting operations being stayed the people were liberated from their farm duties, and turned out en masse to enjoy the festivities. The morning dawned bright and beautiful. Early in the morning the grove near the church resonned with the voices of youthful expectants of a good time. Preparations were extensively made for the reception and pleasure of all who should attend. Two long tables, with a platform for the choir and speakers, were crected, together with seats for the pic-nickers. A camp-fire told where provision was being made for the Irishman's tavorite "'taties," and the Scotchman's indispensible "cup o' guid tea." Large crowds of people poured in from a distance and the surrounding vicinity until a large, respectable and intelligent party had congregated, after which Mr. McFayden gave an "Address of Welcome." After a violin selection by Mr. McPherson, Mr. Bebee made a very excellent address. The "Harvest Home Oration" was then called for, but as the Rev. F. McCuaig was unavoidably absent his place was creditably filled by J. A. Red den, student of Queen's, who has been laboring during the summer in that field. ### A VERY MEAN MAN.

AN Ex-CONSTABLE MARRIES A WOMAN IN ORDER TO STEAL HER SAVINGS.

Montreal Star. Three years ago a respectable girl of this city, named Miss Carty, became acquainted with a young fellow named Sullivan, then a constable on the city police force. The wily blue cost, who is of very engaging appearance, suspecting that his fair acquaintance was possessed of considerable wealth, passionately declared his love and soon gained the affections of his unsuspecting dupe. For some reason or other, however, Sullivan delayed the marriage, and, severing his connection with the police force in April last, he took his departure for the United States. Proceeding first to New York, he remained in that city for a time, but finally settled in Philadelphia. During his absence from Montreal the ex-policeman was apparently true to his ladylove, and wrote her frequently. His various epistles were conched in language that even the dullest mind could understand, and often alluded to the happy occasion of his return to Canada. At the beginning of the present month Sullivan arrived in Montreal and sought out his fiancee, to whom he again repeated his gent and cultured citizens, holding up a love. London, Sept. 29.—The following are additional particulars of the recent cala mity at Stockholm. Mme. The women and children screamed, causing a panic. A horrrible scene ensued. ### REGIOPOLIS COLLEGE.

ADVANTAGES ON THE SIDE OF THE GOVERN-MENT-THE REASON FOR LEASING THE BUILDING AND FITTING IT UP-THE RESOLUTION PASSED BY THE ORANGE-MEN AND ITS INACCURACIES.

During the visit last week of the Hon. A. S. Hardy to our city a reporter of the Whis called upon him for the purpose of ascertaining some particulars relating to the fitting up and proposed occupation for government purposes of Regiopolis College in connection with Rockwood Asylum. The following is substantially what passed between Mr. Hardy and our reporter:

"Have you seen the resolution recently passed at a meeting of Orangemen in Kingston relating to the occupation of Regiopolis College as an asylum for luns ment was overthrown Gen. Nicoloff. tics of which the following is a portion?:

"It is, moreover, reported that the building is to be handed back at the end of five years free of charge, when the same amount expended on the asylum proper, would have given the needed accommodation, which looks to be nothing more nor less than a sop, handed over to the Roman hierarchy for their support | The sympathy of the masses is strongly at the coming election.

Mr. Hardy-"Yes, I have read the resolution. Those who adopted it appear to have laboured under some misapprehension. The facts are as follows: At the last session of parliament appropriations were made for the construction of a new idiot asvium at Orillia, also for beginning the construction of an additional cottage at the Hamilton Asylum | if it was true that the Czar seriously inand for extending the accommodation at Rockwood Asylum. A few months later it was found that none of these improvements could be completed during the present year, except the addition to Rockwood Asylum at Kingston, which would afford accommodation for about fifty patients. The asylum at Orillia and the cottage at Hamilton cancot probably be completed for occupancy before the year 1887. There were over 200 applicants for admission to the various asylums who could not be accommodated. A large number of these are at present in gaols; others of them are at large with great injury to themselves, and requested to ascertain whether any over the new aspect of affairs. large and appropriate building could be obtained in Hamilton, London or Kingston (the cities at which asylums are situated) which could be fitted up and

utilized for immediate occupation. After a careful examination it was found that the only eligible vacant building in close proximity to any of the main asylums was Regiopolis College. At first the Catholic corporation which controlled it was entirely averse to leasing it to the government for that purpose. In subsement negotiations, however, their obections were modified and the government were finally able to obtain it. The alleged expenditure of \$30,000 upon the building is imaginary. The ESTIMATED EXPENDITURE BY THE ARCHITECT Mr. Tully, for repairs and improvements, including heating, water supply and

Regiopolis will accommodate 150 patients conveniently, and is to be administered wholly from the present no superior officers. The only addition-

al officers to be appointed are a male and female chief attendant, (selected from the present staff of the asylum at Kingston), with a sufficient number of ordinary attendants, (perhaps two or three of each sex), who are appointed by the medical superintendent of the asylum, Dr. Clark."

BRINGING OUT THE FACTS. "Is there is no money rent payable for the use of the building?" asked the reporter.

"None whatever." "This resolution alleges in substance that the occupation of the building by the government was a sop to the Catholics and intended to secure their support at the coming elections?"

"You, yourself, know the character of His Lordship the Bishop quite as well as I do," replied Mr. Hardy, "and can form an opinion as to how much truth there is in that. Thus far the favor has As I have mentioned it was after some negotiation only that we could obtain his assent to a lease. With the government it was just a question whether the unfortunates who are confined in gaols and in the homes of the poor should be allowed to remain where they are or whether immediate accommodation should be found for them. Regiopolis presented the only available building fit for the purpose, and I consider we were occupy the chair of Ophthalmology and fortunate in being able to obtain it upon terms so favorable as those contained in compelled to await the construction of afternoon.
