The Loving Tie.

In this issue is aunounced from Mable. ton. P.Q., the marriage of Mr. Ambrose Albert B. Averst, of East Angus, to Miss Jeanette Cote. The church was crowd ed to overflowing. After the ceremony the happy couple.accompanied by numerous friends, sat down to a fine repast at the residence of the bride's father. The happy pair, with their attendants, a few bours later went by the Quebec Central RR. to their home at East Angus, which village was all alive and illuminated with Chinese lanterns. They were met by the East Angus Chemical Putp Works (of which Mr. Ambrose Ayerst is fcreman) and many others escorted to the residence of Mr. Alfred Ayerst, Superintendent of the works, where a sumptuous entertainment was given. The happy buide was the recipient of many valuable presents, one being from the employees of the Pulp Works consisting of a silver card basket, cruet stand, silver pitcher and tray. Frontenac friends of the popular groom extend hearty congratulations.

He Got No Takers.

A smart discussion took place at the

meeting of the Kingston cheese board on Saturday. Several members talked about the prizes awarded to cheesemen by the judges at the Central Fair, and one of them said be had heard it stated the man who took two first prizes, Mr. Daff, would get first prize if he only exhibited a squash. "Yes," said another, "I have heard that same thing said time and agair." Mr. Duff, who was present did not speak until all had passed their opinions. Then he put his hand into his pocket, pulled out a wad of bills (\$1,000) tied with blue ribbon. This he threw into the centre of the table, and remarked; "I am willing to stake that pile that my cheese merited the prizes they received. Any gentleman, who is desirous of covering the bills can do so," Everybody viewed the wad, and a great calm followed. Mr. Duff, receiving no takers, replaced the money in his pocket.

Notes from the City Hall.

THE DAIRY MARKETS.

What the Week has Produced in this Line's hat is Worth Reporting.

Kingston, Oct. 3.—The Kingston cheese market on Saturday was poorly attended and very dull. Liverpool was quoted at but the buyers did not seem to be eager to made. One cheese buyer said he had advised by a telegram from the old country that the market was much easier. He would have paid more for cheese on Thursday than at this meeting. The only sale made was that of Glenvale factory. It sold its August and September make, 300 boxes, at 8c and 9c. The following factories registered:

Lake View 50

Mr. J. Hay sold 174 boxes of cheese to M Derbyshire some weeks ago, and the result is that that gentleman is anxious to get more

Mr. Hudson, salesman, Battersea cheese factory, has received netice from Messrs. Bledgett, James & Branth, produce merchants, Liverpool, that the consignment of cheese from Battersea sold for one shilling higher than the Sunbury and several other factories in that vicinity. All the cheeses were sold on the same day and at the same Mr. Hudson, Battersea, has contracted

his September and October cheese for 9c and 10c per lb, with Ayer & Co., Montreal Kingston, Oct. 7.-The following sales were made at the Kingston cheese board on

Saturday last: Duff, 482 boxes, at 9c for September, 94c for October ; Railton, 225 boxes, at 91c for September, 91c for Octo ber; Forest, 228 boxes, at 9tc for September, 94c for October.

Montreal, Sept. 30 -Cheese was higher by another quarter of a cent, 81 being paid for finest August goods, 'v hich buyers would not pay 8c for a week ago. The situation has assumed a more healthy appearance, which has placed it more in sellers' favor than at any time since the last boom. In the country a large business has been done in actual goods and contracts on the basis of 8c, oc and 10c, and a large proportion of the remainder of the make has passed out of the control of first hands. Liverpool was 1s higher, from which it is argued that the boom is on. We quote. Fine to finest September, olc @ olc, fine to finest August, 8c a 84c, fine to finest July, 74c to 8c; and lower grades at 51c @ 71c.

Woodstock, Sept. 30.-Twenty-three fac tories offered 13 000 boxes of cheese. Sales. 2,120 boxes August at 84c.

Gananoque, Oct. 2.-1,000 boxes were offered. Sales were expected at 9c, the offer for first half of September make. Fac tories contracted for balance of season's make, at 8c for August, 9c for September and 10c for October.

Peterboro, Oct. 2.-6,913 boxes were offered. Highest bids made were 8c for August, 9c for September, and 10c for October. August was bought for 81c. Brockville, Oct. 2.-10,000 boxes were represented. Buyers offered 8c, 9c and 10c for August, September and October respec-

Watertown, Oct. 5.- The attendance on the board was quite large. Those having only September cheese showed no disposition to sell, while the buyers did not appear to care for August make, and in fact refused it. One lot of about 100 boxes of September was sold for 8%c, and some later make was contracted for at 9d. The salesmen, however, were satisfied, as they confidently expect a steady rise in the market for a week

Canton, Oct 4.-Some 6,000 boxes of cheese were offered; and 1,000 boxes of August cheese were sold at 92c.

Gouverneur. Oct 4.-Only two factories registered cheese yesterday, and no sales were made; 9c were offered for Septembers. Liverpool. Oct. 6,-Since the rise from 40s 6d on Sept. 30th cheese has remained

Utica, Oct. 5,-There was a good attendance of salesmen on the board of trade today. The advance reported last week was encouraging no doubt, and there was good the whole bridge in repair and refused, reason to believe that prices would be fully as good to-day. The ruling price, or the price at which the greatest number of cheese sold was reported, was given at 83c, being an advance of Ic. The transactions aggregated 12,814 boxes. The sales were to boxes, at 81c; 26 lots, 5 778 boxes, at 81c 4 lots, 540 boxes, at Ngc . '25 lots. 2,523 hoxes, at 9c. 4 lots, 375 boxes, at 9tc. 11 lots, 1,122 boxes, at 9tc, 1 lot, 100 boxes, at

ofc. 12 lots, 1,186 boxes, on commission. Little Falls, Oct. 5 -The cheese market to day has been quite firm, but the transactions are small. The figures show an advance of tc, and many salesmen firmly believe that prices must go higher. The transactions to-day were. 6 lots, at 84c. 18 lots, at 83c. 3) lots, at 90; 3 lots, at 91c. and 9 lots, on commission, total 4.812 boxes. There were also sales of 685 farm-

dairy cheese at 84c a roc bulk 94c. Montreal, Oct. 6 - Buyers in the country are said to have been shy on Monday, and some factory men who have been hanging out for higher prices have made offers at headquarters which three days ago they refused. The fact is the boom is all on this side, and this is being recognized as time goes on, and the orders do not dome in as they should at this season. The basis of all the contracting, comparatively speaking, that has been done this year is purely speculative, and it may be that the contracting firms are getting a little tired. The quantity of cheese that will go over this week will probably be quite large, as the effect of last week's rise. New York quotations of olc for September fancy are spoken of as nominal, and the market tone as being the halt after too sharp a rise. There is little movement on this market, which is undisguisedly dull. We quote prices: Fine to fancy August, 71c to 81c; fine to finest July, 61c to 71c; other qualities, 5c to 6c.

Canadian Barley Grades.

Toronto, Oct. 3 - The Dominion Board of Examiners, at a meeting held here, fixed the grades of barley as follows : No. 1 shall be plump, bright, sound, clean and free from other grain.

No. 2 shall be reasonably clean and sound, but not bright and plump enough to be graded as No. 1, and shall be reasonably free from other grain, and weight not less than forty-eight pounds to the bushel.

No. 3 extra shall be in all respects the same as No. 2 barley, except in color, weighing not less than forty-five pounds to the

No 3 shall include shrunken or otherwise slightly damaged barley, weighing not less than forty-five pounds to the bushel. No. 4 shall include all barley not equal to No. 3, weighing not less than forty-five

pounds to the busnel. All barley which is damp, musty, or from any cause badly damaged or largely mixed with other grain, shall be graded as rejected.

Oswego Barley Report,

Oswego, Oct.' 3 .- Gaylord, Downey & Co. say the comparative receipts of barley to date are: 1883, 43.700 bushels; 1884, 122,000 bushels; 1885, 96,000 bushels. The weather has been so warm all the week that maltsters have not thought so much about starting their houses as they would had it been cool. There has consequently been but meagre transactions in barley. The sales made have mostly been of No. 2, at 740 @ 750. The new grades will be established early next week and sent out without delay.

Kingston, Oct. 2 .- The majority of the cheese. Some have contracted with buyers for the latter part of the July make, and likewise the August and September makes. Others have sold, in lots, their products for July and August. They have still September cheese for sale. The following sales were made on Saturday: N. Duff, all his August and part of July, 600 boxes, at 72c for July and 8c for August; J. Hay, Glenburnie, 175 boxes of August, at 8c; T. Keenan, "Oregon," 95 boxes of August, at 8c. The Railton and Forest factories have also sold there August make. A meeting of the cheese board will probably be held to-mor-row afternoon, at which the cheese men expect to sell all the stock they have on hand. It they are successful the board will not

The Montreal Bu:ter Market. It is said that creamery butter men are weakening, but they will have to give a good deal to do anything with the market in its present state. Two typical western creameries are holding 1,500 packages, and two township establishments 800 each. If these are fair samples it is likely there will be some bad butter in Canada next spring. Despite the dullness, however, prices still hold for the jobbing trade. Creamery, 194c @ 214c; Eastern Townships 14c @ 18c; Morrisburg and Brockville, 13c @ 16c; Western, 12c @ 14c; poor to medium Western, 7c @ 9c; old butter, 3c to 4c.
