HEART OF THE VILLAGE.

WAS CONSUMED BY FLAMES ON FRIDAY NIGHT

Tamworth Suffered From Mighty Contlagration-Many Business Places, Hotels and Residences Were Burned to the Ground -Heavy Losses.

BOUT twelve o'clock Friday night fire was discovered in an alley between the residence of Jas. Aylaworth, division court clerk, and the Albion hotel. Alarm was instantly given but the lack of fire appliances gave the fire fiend a five minute start and both of these buildings became hopelessly involved. The night was calm, but the fire had started in the heart of a clus ter of frame build

ings and in two hours and a half all the buildings on the street leading from Main street to the bridge over the Salmon river, on the Enterprise road, were reduced to the ground.

The Salmon river checked the progress of the fire southward and saved the Presbyterian church and a half dozen dwellings which lay across the river. The sheet iron building occupied by J. Floyd, jeweller, checked the progress of the fire northward toward Main street and alone saved the village from complete destruction.

that the heart of the village was doomed and the villagers occupied themselves in removing household effects which were afterwards burned on the streets or in yards which had appeared secure at the start.

In one instance a new piano was being carried from the Douglas' hotel, but as soon as the men reached the door with their burden the heat from without was so intense that it had to be abandoned, and was burned on the very street.

From a community of upwards of thirty buildings, including eleven places of business and eight residences, only five hundred dollars worth of property was saved, and this for the most part was from the livery stable.

Mr. Clancy, proprietor of the Douglass house, is a very heavy loser. He had but lately taken possession and completed improvements and new furnishings to make his house first class throughout. The entire loss to the village is estimated at between \$55,000 and \$75,000, upon which there is about \$18,-000 insurance.

From what your correspondent could learn the low percentage of insurance to the total loss is explained by the fact that the rate of insurance is between three-and a half and four per cent., too heavy a tax to be popular

Some of the families have lost their entire belongings and for them a relief fund has already been started. The places destroyed are:

Albion hotel; Douglass hotel, W. Clancy, proprietor; Coxall's general store; Shield's general store; Floyd's jewellery store; Caswell's livery stables; Richardson's photograph gallery; Mouck's blacksmith shop; Mckim's blacksmith and carriage works; Richardson's barber shop; town hall; weigh scales; Woods' machinery hall, stored with farming implements made by Sylvester Bros., Lind. say; W. Garrett's, J. Frizzell's, C. G. Coxall's, Geo. Hinch's, James Aylesworth's, Geo. Kennedy's, Geo. Dawson's, Mrs. Gibb's, residences.

These living on the south side of Salmon river watched the progress of the fire with a great deal of anxiety, fearing that possibly the flames would jump the river to their property. This did not occur, however. Everyone in the place helped to stay the progress of the fire but their efforts did not amount to very much because of the lack of proper fire appliances. There was neither a hand engine nor hose to work with, and men had to carry water from the river to the flames in buckets which was an ineffectual way of battling with a large conflagration.

A Detailed Account.

TAMWORTH, April 20 .- This village was visited by a disastrous conflagration at twelve o'clock last night. The fire was caused by a defective flue in Murphy's hotel. It rapidly spread to the adjoining buildings of James Aylesworth on the west and Henry Douglas on the east Both sides of the main street from Rose's corner, east to Charles Shields' house, on the one side, and Edward Dawson's blacksmith shop on the other, entirely consuming the following buildings: John Lloyd, jaweller, total loss on building, \$1,200; insurance, \$700; stock saved. W. Garrett, loss on contents, \$300; no insurance. J. Aylesworth, on building \$1,500, insurance, \$800; on contents \$2,000, insurance \$1,000. Elias McKim, hotel building, loss \$2,000; insurance \$500. John Murphy, contents, loss \$700; insurance \$300. Harry Douglas, store and dwelling, loss \$800. Geo. S. Hinch, loss on contents \$306; no insurance. Charles G. Coxall. general -store, loss on stock \$10,-000; insurance, \$5,800; loss on store building. \$1,000, covered by insurance; loss on dwelling and contents, \$2,000; insurance, \$1,000; also dwelling and barn. loss \$600; insurance, \$300. The magnetic motor, invented by a man named Brentnel, of Toronto, has proved a success. Three men, worth \$1,000,000 each, have consented to take stock in the company to be organized to manufacture the motors. Kingston capitalists, who have interest in the matter, have refused to sell out and they will be members of the new company. These motors will drive a street car or propel a boat at a great deal less expense than by electric, compressed air or steam power.

Annual Examination.

The probationers and candidates for the ministry of the Methodist church have been under annual examination in Sydenham street church, with Rev. A. C. Courtice and Rev. David Winter in charge. The probationers are: Second year, A. F. Knapp, Elginburg; first year, J. H. Miller, Sharbot Lake; W. Williamson, Verona; W. H. Easton, Cataraqui; candilates for the ministry F. T. Phillips, Kingston; Lawson and Lidstone, Sydenham, and J. Laundraville, Pittsburg.

A Prosperous Court.

The election of officers in connection with St. Joseph's court, No. 363, C.O.F., took place on Wolfe Island on Tuesday evening. The officers are: D. J. Dawson, C.R.; J. S. Baker, V.C.R.; Ed. White, recording secretary; Ed. Briceland, financial secretary; J. McCallister, treasurer; Dr. Spankie, medical examiner; Rev. Fr. Spratt, chaplain; M. Doyle, T. O'Connell, Ed. Griffin, trustees. R. J. Spoor was elected delegate to the convention to be held in Ottawa on May 30th. J. S. Baker was elected alternate. The court is prospering.

The Fishing Season.

As the law now stands close season for fishing extends from May 15th to July 1st, while the Yankee law only calls for a close season from May 15th to June 15th. American anglers consequently have the start of Canadian sports by two weeks. While the Americans can fish on the southern shore of the St. Lawrence they cannot cross the boundary line and fish on this side. A great many local sports think the Canadian law should be made the same as the United States' regulations. Visitors all prefer fishing on our side, and as it now is we lose two weeks of their patronage,

Transfers Made.

Up to date the presidents of the Methodist conference concerned have consented to the following transfers; and the transfer committee in each case has effeeted the the transfer as follows: W. The Lad's Reply.

Rev. Richard Whiting was questioning the scholars of Queen street Methodist church about the advent of Easter and heasked, "Why doesn't it come onthe same day every year?" A lad replied. "Because April 14th don't come on Sunday every year." Mr. Whiting said it was a good try and then told at story about the B'akes. Hon. Edward visited Hon. S. H's school and spoke. He asked a question. "What have you got that I have not?' He was astounded to get the year.

medicine so popular as Dr. Williams' Pink Pills. This condition of things is hardly to be wondered at when it is known that there are here scores of people who owe the excellent health they enjoy to this great life saving medicine. Mrs. R. M. Easton, a well known and estimable resident of the village, is among those who speak in the highest terms of Dr. Williams' Pink Pills. Recently this lady related her experience to your correspondent as follows: "In the fall of 1893 I contracted a severe cold which resulted in congestion of the lungs. This threw me into bed, where I lay for over three months all the while suffering a great deal, and apparently constantly growing weaker. I expectorated a great deal of blood, and at one time it was thought that nothing could save my life. But again I rallied and lay for a long time between life and death. I had suffered for some time before being taken down with a severe pain in my head and left side, and sharp, twinging pains between my shoulders. The pain in my side and head continued to trouble me all through my illness. The doctor gave up all hopes and my friends made up their minds that I could not live. It was at this juncture that a friend strongly urged me to try Dr. Williams' Pink Pills and I sent and procured a couple of boxes. I began their use and soon felt an improvement in my condition, and by the time the two boxes were gone I could sit up in bed and take considerable nourishment. I gladly continued the use of the Pink Pills and soon found the pain in my left side and head had gone and I began to feel like a new person. By the time I had taken six boxes I was able to be up and around the house and could do some light work. I still continued using Pink Pills and constantly gained in strength until I was soon as strong as ever I had been in my life. Last tall I caught cold and the pairs to which I have referred returned in a light degree. but I had now found a cure for them and taking a couple more boxes of pills I was as well as ever. I never had better health than at present and feel such confidence in the merits of Dr. Williams' Pink Pills that I always keep a box in the house, and I confidently believe that but for them I would have been in the grave to-day and my little ones motherless. I cannot say too much in their praise, and hope my experience may be the means of inducing some other sufferer Dr. Williams Pink Pills give new life

Methodists In China.

Rev. Dr. Sutherland, secretary of the Methodist mission board, has received a long and interesting letter from Rev. George E. Hartwell, of the Methodist mission in the province of Sz-Chuan. The central mission station of the province is in the city of Chen-Tu, from where the letter was written. Mr. Hartwell says the Chinese officials were very regularly and fairly accurately informed of the progress of the war. The governor of the province called regularly on Mr. Hartwell with news of the campaign. The only danger the missionaries feared was an organized raid by the many bands of robbers infesting parts of the pro-

The day schools, conducted by the missions in all parts of China, are breaking down the prejudices previously existing against the British. At the Chen Tu school there are from forty to fifty scholars in attendance, thirty-four of whom attended a Christmas party in the mission residence. When the American stoves were erected in the schools the story got abroad that the missionaries boiled Chinese babies therein, and as a result all the scholars stayed away one day, except one little fellow, who came crying to the teacher, and pleading not to be boiled. The teachers then proceeded to the residence of the parents and induced the latter to inspect the stoves. After this inspection the scholars came back.
