GLENBURNIE GLEANINGS.

GLENBURNIE, Sept. 11.—The dry wea-

ther is telling on the root and corn crop. Some have the latter cut and cured, very early for that crop. Richard Joyner is making the dust fly with his steam thresher and expects to finish all the threshing in this part by the latter part of the week. The farmers are well pleased with the yield. We are proud of the position our farmers took at the Midland Central fair, The carriage team exhibited by Wm. Craig, for which he got first prize and gold medal, was a fine pecimen of their class and worthy of admiration, as was also the stock and horticultural products exhibited by Messrs. Daly, Hay and Blacklock. Patrick Fowler showed some nice work in the green race with young Palm Leaf. Daniel Spooner, the young man killed at Mrs. Fowler's, was a smart, amiable youth and had lived with the family from his childhood and will be much missed. He took a prize at the ploughing match in the glen last fall. The people here have learned with regret of the death of John Reid, who died recently at Watertown, as he had lived here for a number of years, but left last fall. He was a member of the patron order and took a lively interest in the debates. We tender our sincere regrets to his widowed mother, who lives at the head of the lake. The patron debaters struck a snag when they went over to Keplar and were defeated, not by number of points, but by weight of arguments. J. A. Wilmot acted as judge. Capt. Horning and T. A. Keenan were the leaders. Victory was easily seen when the captain declared that he had a heart as big as a pumpkin, chucked full of love. Mrs. C. Hay, Donald Hay and Miss Grand, of Toronto, started from here on Saturday to drive to Prescott, intending to visit friends at Lyn, and other points en route. Mrs. Wm. Blacklock, Miss F. McLeod, Chicago, J. M. Fair and others left on Menday for Toronto. They intend to take in the Falls before returning. George Rowe is labouring under a severe attack of asthma. Mrs. John Mc-Grath, Chicago, and Miss S. Carrens, Kingston, are visiting friends here.

### COLLIDED ON THE ROAD.

A Lively Accident on the Way to Stella-Two Boys Got Away Quick.

STELLA, Sept. 11.—Accidents seem to prevail here lately. On Monday a little son of Alexander McKee had a finger nearly cut off with a straw cutter. Dr. Northmcre dressed the wound. On Thursday evening, last week, a collision took place on Stella bridge, caused by B. Stevenson's horse running away and colliding with H. Brown's horse and buggy. Brown's buggy was completely smashed. Two lads standing on the bridge soon made steps when they saw fire fly. One got some skin off his face, the other got struck in his side with a wheel, but no further damage

R. Caughey is home for a visit. Rev. Mr. Hill, visiting friends here lately, preached three times in the Methodist church during his stay. He had large audiences every time and was much beloved by those who had the pleasure of forming his acquaintance. Dr. Clingtor, visiting Rev. Mr. Cumberland, has return ed to Toronto. Miss McLane, Kingston, is visiting Mr. Moutray; Miss A. Davis, Sydenham, paid a visit to Mrs. Chown; Mrs. Pringle, Collins Bay, is visiting her parents; also Mrs. McMorris. Clinton, at Mr. Polley's; Mr. and Mrs. Hinton are on a visit to Kingston, also H. Finley; D. McCabb has removed to village this week. J. Clement has removed to R. Henderson's farm.

A party of youths assembled one even ing last week and then proceeded with bells and musical instruments to the home of Daniel McTaggart, married not long since. McTaggart met the boys with liberal hand.

## Sharpton Sayings.

SHARPTON, Sept. 11.- The grain, especially the oat crop, is turning out ahead of all expectation. | The crop is fully twenty-five per cent. above an average. There is a splendid crop of hill and fodder, corn and potatoes are fair. The weather is extremely dry. The majority are short of water. A daily raid is made on the inexhaustible supply of Mud lake, and it is the roads every hour of the day. The dry weather has parched the pastures, and taking this in connection with the extreme scarcity of water and the annoying Texas fly, cows have gone down in their milk. The cheapness of the price of cheese does not impreve the aspect of the situation.

Wm. Guess, clock cleaner, has been doing jobs through here. Mr. and Mrs. Garvin, Belleville, N.Y., have returned after visiting her brother, D. Karin. D. Karin and wife visited her sister, Mrs. Manion, Yarker. J. McKeown, Erinsville, was a visitor. Miss Sharp, recently of Ireland, is visiting her uncle, A. Sharp. Buckwheat will probably average a poor erop. Mr. Burnside, stock buyer for W. Reid, city, has been through here. One steam thresher, Alport & McDonald's, is working through here. It is said there is money in the business this fall. J. Taylor visited Newburg yesterday. Harry Walker is working for J. McCormick, and J. Genge for D. Kairn. Farmers are preparing for the township shows. Fortunately there will be plenty of fodder for stock with few exceptions. Some are selling old hay to the presser for \$10 per

A Couple Married.

Selby, Sept. 10.—Selby is improving slowly but surely. Leslie Ballance has erected a beautiful iron fence around his house. Mrs. L. Ballance, has gone to Kingston to the hospital. Miss Sarah Tomblin, of Centreton, was visiting her friend, Mrs. Atkinson, at the rectory last week. Crops are turning out well and potatoes and corn are excellent. On Tuesday last, Sept. 10th, a quiet ceremony took place in St. John's church, Selby, when the rector, Rev. Robt. Atkinson, united in holy matrimony Wm. S. Provins, Deseronto, and Miss S. Jennie Doyle, Kingsford. W. H. Doyle and Miss Mattie Provins, both of Deseronto, assisted. Miss Doyle is a very estimable young lady, being a great church worker at St. Jude's, Kingsford, and a general favorite with all who know her. The bride was fastefully attired in a travelling suit of brown with hat to match. The many friends of Mr. and Mrs. Provins, both in this county and in Deseronto, unite in wishing them long life and prosperity. Mrs. Hintzelman, of Watertown, spent a few weeks here visiting friends. Her mother, Mrs. Ballance, returned with her. Mrs. Robert Sampson, of Kingsford, for. but as yet there is an immense amount of merly a resident of this place, is very feeble, being totally blind.

# GIVES VENT TO FEELINGS.

AN OLD VETERAN DWELLS ON THE REBELLION.

The Men Kicking Against Them Are the Ones Who Are Reaping the Benefits of Their Fatigues and Hardships - One Over Sixty Need Not Apply.

WOLFE ISLAND, Sept. 3. - (To the Editor): I would appreciate a small space to give vent to my feelings. It makes my blood boil to see how little the government of Canada, as well as the home government, thinks of the services of the old volunteers.

The governor-general was sent out to Canada to govern it. When the rebellion broke out he called for volunteers. He said that he would give each volunteer one hundred acres of government land in the most convenient place, that it could be drawn. This promise of the government was printed and fully understood. Now had the government right to do so or not, or what is their plea? We had a good backer for a short time, a Mr. Merrill, but he was too discouraged to attempt to say more in favor of the veterans. There is no law but what would give us what we are asking for, and it is these men who are reaping the benefits of our fatigues and hardships, that are kicking against us now. When we turned out to defend our country there were no railroads, telegraphs or telephones. Despatches had to be carried on foot or on horseback, by sleigh or waggon. We turned out with a firm resolution to defend our country and our flag and did so through thick and thin, without a blemish or a stain, and held it a credit and an ornament to our government buildings or wherever it is hoisted. Look at the good old flag they talk so much about, stained and blemished in such a way, that it never can be washed out, so long as wood grows or water runs by men drawing big government salaries, I think that those who fought and defended their country have a right to get a publie situation in preference to others without claims:

After leaving the rebellion I joined the

old Frontenac militia, went into the ranks, was promoted step by step, till 1 got to be captain. Then I served nine years as captain. Shortly after I was promoted there was an order that all officers should appear on parade in full uniform. I, with many others, paid about ninety dollars for our regimental outfits out of our own pockets. A few years ago I spoke to our member to get a lighthouse to attend or something else I could do. I did not get it. Three or four years after that there was a vacancy in in the customs house on the island. thought that I would try for that. I went to our member again and received the usual, "Yes, anything I can do for you I will be glad to do." I got it, but it was a note saying that the government would not take on anyone over sixty. I did not take that pill just as our member intended that I should. Now men are running for members over sixty years. Onethird of the government officials are over sixty years, drawing big salaries-still a little lighthouse keeper, or a deputy custom officer over sixty years cannot get a billet. Our member did not say what would quality a man under sixty. That would depend on who he was, I am a long ways over sixty. I can do a good day's work with the most of men, and in the evening show them how the highland fling should be danced, which is more than some under sixty, holding offices, can say. I am in hopes yet to see the old boodlers out of office. There is no doubt that if we got a change of government the. old veterans would get some remuneration or employment as far as they are able to fill places. Look at the men to-day, drawing big salaries for years, now superannuated, while old veterans cannot secure position or draw pay in any form. This is unfair and a great wrong.

I trust the old volunteers will turn out and aid in retiring our boodle government with as firm a resolution as they did to defend the country. If they do, overboard they'll go. -D. J. KNAPP.

## Events At Harrowsmith.

HARROWSMITH, Sept. 10.—Quite a number of our villagers have gone to Toronto industrial exhibition. Among the number | John M. Ferguson, of this place, attended truly astonishing the barrel loads passing | are Mr. and Mrs. C. Stewart and Miss | the union camp meeting at Unionville. Jennie Stewart, Mr. and Mrs. John Stew art, Mr. and Mrs. John Bertrim, J. M. Cunningham, Miss Hattie Guess, Mrs. Wm. Buck and Mrs. John Charlton. A large amount of money was paid to the farmers to-day for hogs purchased by W. J. Sproule for R. F. Bicknell, Camden East, and shipped from this station last week. W. J. Sproule shipped a number of sheep for Mr. Bicknell. Mrs. Crane and daughter, Port Huron, are visiting at S. Stewart's, sr. Mrs. Ross and son, Hamilton, at T. W. Guess'; Mrs. Sims, wife of the Rev. Mr. Sims, and children have returned to Toronto after visiting her parents and other relatives in this vicinity. Mr. and Mrs. Inkerman Parkins and children will shortly return to Manitoba. His mother, Mrs. Parkins, and sister, Mrs. Dunham, spent a day with them at the residence of J. Moore, Sydenham. George Dennison, ex-M.P.P., very ill, is some bet-

A farewell supper was given Mr. Kidney by the Oddfellows and young men of the village before he left for England. We understand J. S. Gallagher has secured the services of another tailor in place of Mr. Kidney.

Taking Out Ore.

Donaldson's Mills, Sept. 9.—The last car load of timber has been shipped in and the shingle mill will probably close down in about ten days. The lumber saws will be kept running for several weeks yet. William Emery and Fred. Mullett, Sharbot Lake, will move their families up and become permanent residents of our town. Messrs. Toner and Richardson have a gang working in their mine. They took out more than a carload of ore with only two light shots. It has every indication of a very large deposit and the further down they go the better the outlook. Prospects for lumbering in this vicinity are not the best at present. It may brighten up as time speeds along if there is any demand, last year's stock not sold and this stands in the way of there being much done this winter. Several from here talk of taking in the Toronto fair this week.

There is a disruption in the conservative ranks in Brockville and several of Hon. J. F. Wood's warm friends are now heading a McCarthy boom.

VERY TALL CORN.

The Kind That Grows in Denbigh-Going

Back to Germany. DENDIGH, Sept. 7 .- We have had delightful harvest weather during last week and harvest work has been rushed along rapidly. Some of our farmers are about through and we will soon again hear the humming of the threshing machines. We have some very tall fields of ensilage corn around here, but Archie Rosenblath beats us all in raising Huron Dent corn. He less than 200 kernels of corn. With exception of some painting our new Lutheran parsonage is about completed. It will make the best and handsomest residence in the village. A new-window has been put in the front of the Lutheran church, which not only adds to the appearance of the edi-

fice but gives a much better light on the

gallery.

Herman Berndt, of Silesia, Germany, who has spent this summer visiting his brother, Erdman Berndt, of this place, started on, Wednesday last on his return | 20c. trip to his native home. He also considers it likely that he himself may, after a time, return and become a citizen of Ontario. Wm. Joerke, one of our old settlers, who has lately made his home with one of, his daughters in Grey county, has also returned to Denbigh, and will probably finish his remaining span of life with his daughters here, Mrs. E. The parties were proved guilty and fined \$25 and costs. Some of the Plevna people attended a picnic at Mallory Hill on Saturday. The picnic was a success, but some who took the new road complained of rheumatism the next day. Ackroyd & Hanson, photographers, left for Mississippi after doing a rushing business here.
