SHE HAS OCCUPIED THE THRONE LONGER THAN ANY OF ITS SOVEREIGNS.

Sixty Years Upon a Throne-Graphic De Courtship, On September 23 Queen Victoria wil

have completed 60 years of her reign the longest on record of the British crown. Her grandfather, George III. reigned within a few months of 60 years, but her Majesty seems likely to greatly surpass this in spite of her feebleness and the constant talk of her abdi cating in favor of her son. The Queen is now 77 years of age, but a fairly well preserved old lady in spite of the alarming reports which have been circulated about her health. Besides George IIL only two other English sovereigns have enjoyed notably long reigns. These were Henry III., 56 years, and Edward III., 50 years.

The Queen goes but little to State functions now, and on the occasion of her attendance at Princess Mand's wedding she said that it would be . the last time she would visit London. But for all her avoidance of great State functions her

Majesty maintains her royal household as in years past, for she is ceremonious to a point and demands the utmost state in her different residences outside of London. Her establishment costs her a large sum in addition to the provision made

Physician's Prescription for Cure of Weakness in Men.

When a man has suffered for many years with a weakness that blights his life and robs him of all that really makes life worth living; when, after years of doctoring with all sorts of patent medicines and alleged specialties, he discovers a remedy that brings back to him the power and physical energy that seemed to him lost forever, he naturally feels generous. He wants his fellow men to know about it. He feels that his mission on earth is to lift out of bondage men who are to-day battling with a shattered nervous system, just as he did; men, who, by their own secret follies, are suffering a mental torture that words cannot adequately describe. words cannot adequately describe. words cannot adequately describe.

The world has come to look at such sufferers in different light from former days. It now regards them as unfortunate, not criminal. They lacked moral courage. They may be victims of inherited passion, or they have acquired secret habits from evil associates. But, whatever may have been the incentive that caused a man to degrade his being and isolate himself from society, he needs a friend. He needs the right hand of fellowship and good cheer. It is wrong to denounce him for his folly, and it is equally useless to give him advice. He must have the hungry man's bread, not a stone offered him. This is why I send the prescription that made me a man among men, free to any one who writes for it. I know the aversion that suffering men have to the least semblance of publicity, and I, therefore, send a prescription securely I, therefore, send a prescription securely sealed in a plain envelope without marks to show where it came from. Thousands of men have written me, to say how glad they where to get this prescription, and every mail brings encouraging report of severe cases of physical debility cured and emaciated parts restored to natural strength Now, my friend, do not sit and wonder how I can afford to give away this valuable re-tipe, but write for it to-day. It is free to all, J. E. Nol and I want every man to have it. Address in the fullest confidence. THOMAS SLATER,

I have been a victim of rheumatism for seven years, being confined to bed for months at a time, unable to turn myself. I have been treated by many physicians in this part of the country none of whom benefited me. I had no faith in rheumatism cures advertised, but my wife induced me to get a bottle of South American Rheumatic Cure from Mr. Taylor, drug gist of Owen Sound. At the time I was suffering agonizing pain, but inside of twelve hours after I took the first dose the pain left me. I continued until I took three bottles, and I considered I am com pletely cured.
