Five Young Men Have An Exciting Time But. Escape Injury. GANANOQUE, Sept. 22.—Chester Steacey an employee of the Gananoque electric light company, had a narrow escape from serious injury, yesterday, while at work wiring into A. Lalonde's residence, King street west. It seems that he was on the branch of a tree when the limb broke letting him fall to the ground, a distance of about ten feet. He was picked up and taken to his home, where he is being attended by Dr. Bird. No bones were broken

Five young men who were out sailing, Sunday, had an exciting trip, which they covered that they had more canvas than for home by the head of Grindstone island but when a little over a mile above Calumet island their yacht swamped in the heavy sea running. They managed to get the yacht righted and bailed out, and island, the home of Charles F. Emery, where they were entertained for a few round the foot of the island. All went well until they reached the five mile light on the Canadian side, when they were again confronted by a gale. Diligent efforts were made to work up to the town against the wind but all to ne avail as their craft was tossed about like a straw and they, as a last resort, made for the near est point on the main shore, which was the Glen house, owned by Wallace Shipman. Here arrangements were made to drive to Gananoque and they arrived here about one o'clock, a sadder and wiser party than ticipants in this exciting cruise on the and Charles Johnston, of this burg. Needless to say their relatives were overjoyed at their safe return. Several other parties were also caught out in the storm and had to remain out all night, some of them with-

On The School Question.

Efforts are being made in the conservavinces to discredit Mr. Laurier by making out that Abbe Proulx, of St. Lin, has gone to Rome at the premier's request to secure refer a domestic political question to an Italian, even as eminent as his holinesa. Mr. Laurier is an exponent of the British parliamentary system, and such a reference could only be made by a man who was not

an adherent of that system. The best answer to the slander, however, is that the basis of settlement of the Manitoba school question has already been agreed to and settled upon. Why then, has Abbe Proulx been invested with a mission to Rome by Mr. Laurier? For the purpose, not of securing religious manction to s political settlement, but of preventing in the future religious interference in the political affairs of Canada. Mark the difference. Mr. Laurier does believe that the Manitoba school tion is a religious question. Recall his language on a very recent occasion, the debate on the address on Aug. 24, 1896. Speaking of the appeal of the Roman Catholic minority, he said : "The appeal is given, by the constitution, to the federal government and parliament. It is not. therefore, a judicial, but a political appeal and as such is to be exercised not only for the benefit of the minority, but for the good and welfare of the Canadian people as a whole. This is the true interpretanot, then, asking the pope to interpret our constitution, or concern himself about the weltare of the Canadian people as a whole. He is dealing with the Manitoba government, who represent the people most in terested. Abbe Proulx has gone to Rome

the late election. This is a purely ecclesiastical matter, concerning chiefly the Roman Catholic liberals of the province of Quebec, of whom Mr. Laurier is one. Any movement to keep the bishops out of the elections will be endorsed by the Canadian people as a whole. The Accident Record.

> Russia Takes Japan Into Camp. LONDON, Sept. 22.—The Times declared that Russia and Japan have agreed to joint protectorate in Corea, Russia virtualy taking the position there that Chine held before the war. The king of Corea will quit the Russian legation, where he has been since the assassination of the pro-Japanese ministers, and will return in triumph to the palace. This arrangement will be carried out simultaneous with Japan's evacuation of Corea. The Times regards the arrangements as a great diplomatic victory for Russia, which obtains a virtual ascendancy in Corean affairs, leaving Japan only a nominal share saving appearance and gaining time for a solution in the future. Japan has missed one of the main objects of her ambition b impatience and by an incapacity to deal with the situation.
