THE STYLES OF WRITING.

FLETCHER. He Is Not Opposed to Vertical Writing But Teaches It-He Has to Abandon

Finger Movement and Introduce a Muscular System to Secure Rapid and Lasting Work. With a desire to inform the public concerning the recent controversy carried on in the Whig as to the merits of two sys- speedily paid. Such is the final decision tems of vertical writing, taught in the of the committee. public schools by writing master New-

lands and in the collegiate institute by W. H. Fletcher, a Whig representative visited the collegiate vesterday and saw at writing with that taught in the public Princess street. A. Abernethy. "What style of writing do you teach

n your classes?" Mr. Fletcher was asked "As to slant of letters I do not think there is much choice between a slight slant in either direction and a vertical position. Pupils are allowed to use the style preiously acquired, unless it is an extreme

"Which style of writing do you prefer?" "Many years before vertical writing was taught in Kingston schools I had adopted it and still continue to use it. Last year in my classes here, without a sugge tion from any one, I taught the public school system of vertical writing. This year from the outset I have taught vertical penmanship, but have required pupils to modify "What objections have you to the public school system that you require pupils 5 a.m. or 5 p.m., in connection with this Saviour's sufferings. to change their mode of writing ?'

"While the system has several objectionable features, our chief grievance is that lor car space and full information apply and the ministerial and sanctifying gifts. in place and there is also provision made all public school pupils come to us with a to Fred A. Folger, city ticket agent, R.W. No necessity now exists for the exercise of for a bowling alley. There are rows of finger movement, that is, the fingers are & O RR. almost exclusively used in producing their writing. No one who knows what a 'finger movement' means will defend use by pupils as old as those of my classes, or even by pupils several years younger, so we feel in duty bound to teach them to acquire greater freedom in the use of the

statement of the public school writing) seven inches from its foundation. master that he has at no time taught or encouraged a 'finger movement'?" "Yes, I have read his statement to tha effect, and have been much perplexed know why his pupils all use a movemen he has not taught them. I have the bes possible opportunity of knowing how his pupils write, and invariably I find them use a finger movement. That you may have no doubts on this matter I shall have

The class was called to order and asked to write in copy books a verse which Mr Fletcher wrote on the blackboard. pils were asked to write as taught before entering the collegiate institute. All but five used a finger movement almost oxclusively. Three used a combined muscular and finger movement, and two a purely muscular movement. Three out of the five came from schools outside the city. The pupils were next desired to write the system taught by Mr. Fletcher. The dif ference in the two systems was at once apform certain loop letters and for increasing speed in the matter of making long letters, such as "ls," "fs," etc. For forming the every stroke of the pen, but only when re-

smallers letters the muscular movement was used. The fingers did not move at same city, will serve three years for theft, quired to reach out to make a long letter | ed the city bringing with him George or to round one.
