How the Kidneys Talk.

The kidneys cannot talk and the only way they have of letting us know when they are sick is by making our backs ache. If it is only a little ache, the kidneys

are only a little sick.

If it is a big peace destroying, nerveracking ache, the kidneys are more than a little sick. In either case it must be attended to at Doan's Kidney Pills act directly on the

kidneys, make them strong and healthy and stop aching backs in every case. Here is a sample case Frederick J. Wade, 8 Vine street, Ringston, speaking to our representative, gave the following history of his case :

"I have had serious trouble with my right kidney for three years, with great pain in the small of my back, and exeruciating neuralgic pains in the back of my head, so bad that at times I was almost was greatly troubled also with an eruption on my face and the whites of my

eyes were quite yellow. The least hard work aggravated the pain in my back, and made me feel generally miserable. "Some two months ago I procured a box of Donn's Kidney Pills at McLeod's drug store and have taken them with marked results for good. They have removed the pain in my back, the neuralgic pains have disappeared and strange to say the crup tion on my face which I had not previous ly attributed to kidney trouble, but now believe was caused by the disordered condition of my kidneys, has been completely removed, and my skin is perfectly clearand the whites of my eves are as clear as

"In fact, Doan's Kidney Pills have cured me of all pain and every ailment from which I suffered, and I recommend them to anyone having any form of kidney trouble, also as a quick relief for rheumatism.
