My hands and feet would get stiff as though I was paralyzed. I had to quit work and tried doctors' medicine, but did not get any belp until I got Manley's Celery-Nerve Compound. "No, I'll stand, so's to be ready to start when I've finished. You see, last

headed my way, and as he went past me

I could see a short, stumpy, mottled

snake hanging to his leg at the ankle.

He flew around the barn, yelling at

every jump, and I took after him and caught him in a clump of woods about

200 yards from the barn, where he drop-

him the snake was gone, but the marks

of his teeth were on his leg, and I hus-

of liquor I keep for snake bites and other

household purposes, and soon had him

londed down to the guards. He was

sober by next morning and all right, and

left when I had no work for him, and I

tell you that in the four or five weeks I

had him that snake caught him the same

could never find the snake. Sometimes it

would nab him by the hand when he
