at a million, a small part of which was It is as certain as the sun shines sold at such a price that more than that if the mines in British Columbia and other favored parts of the Dominion prove one-quarter part as good as experts and mining engineers report them to be that we shall see one of the greatest booms in mining properties this country has ever seen: Good, bad and indifferent will advance, but if the investor will be a little conservative and look into the scheme that is presented to him, studying its possibilities of profit, and going in at the beginning, he may rest assured that profits surely await him. A thousand

per cent. profit over the actual cost is only a fair return in mining. Already the original shareholders of the COLORADO GOLD MINING AND DEVELOPMENT COMPANY are deriving an income at the rate of 60 per cent. per annum. That company expects to double its present rate of dividends early in the new year and when the improvements, now under

way, are completed, it will be four times the present amount. We believe the KOOTENAY EX. two or three feet of solid sulphides.
