THE ATLANTA BOODLER THINKS HE WAS CRAZY TO STEAL.

The True Circumstances of His Arrest-He Has Been a Very Sick Man and Suffered from Insomnia... Hinde Agrees to Take Half the Reward Offered,

CFC. Nelson, the Atlanta boodler, was to pear to day before the Trenton magistrate little, and in consequence Chief Hinde him placed in comfortable quarters where he was well watched. Nelson is fine lookag and very gentlemanly. He is of a very and disposition. He says he has never seated a man in his life and has given housands away in charity. He claims that he had been sick for a year past; that the illness affected his brain, and he must have been crazy when he left Atlanta. He delares that he will make everything right gain. He most positively denies that he isappeared with a widow. There is not a word of truth in that statement.

Chief Hinde says that there has been lot of nonsense told about the arrest of Nelson. It was accomplished without any A mutual friend to whom he showed the circulars about Nelson's departure said there was a strange acting man at Campbellford some days, needonsly, but I Loxpon July 26.—King Milan of Service that he could not tell whether he was there I is a most despicable creature. SCORE BY INNINGS.

This was the style of a game that the publie witnessed yesterday afternoon. There was plenty of fun and \$10 will be divided between the house of providence and the house of industry as a result. The old timers -men who have played ball since childhood and who were enthusiastic when the Old St. Lawrence team was the champions of Canada-marched out into the fields dressed in cast off garments of the Kingstons, "Willie" Carson had a new section, of a different colour, added trast made many smile.

David Mills was umpire, those chosen not appearing. Tim Doolan said the ball was taken-unawares, and, if his decisions were at times not justifiable, yet the hurry he was in was a sufficient excuse. As the game proceeded it was developed that Mr. Carson was a good man. If he couldn't catch a ball he was wide enough to stop its progress. Dolan was also eminently skilful on second base. He could touch a man out with his hands, but the umpire in sisted on his having the ball in them and he generally succeeded in not having it. Captain McCammon then whispered to the baseman to run away and he did so gladly. Holder and Harkness could do a little running, but they were not practised up in catching.

But Eilbeck was a hustler-if his legs could be considered the major part of his anatomy in a baseball contest. He tried first base but the bag wouldn't slide around where he wanted it so he asked Mr. Morgan to cover it. He tried short-stop, got only one ball but grievously erred in stop ping and throwing it to first. The audience appreciated his work and asked him if it wasn't hard to make an error. But there was some great work done. It

was appalling. A double play was catch ing Carson on a fly and McCammon's cut off at second. Little and Hewer did the work. In the fifth Dolan made a base hit and went to second on a pass ball. He got home on balls that went from the pitcher to centre to third to pitcher to catcher and yet he was safe. The boys loudly cheered. Then four runs were quickly scored on pass balls; Osterhout could not hold Gloster. the seventh Hewer went behind the bat and lob balls were thrown. These when struck went into the air and were caught. In the seventh Carson went behind the bat and the boys cried out: "Hello! Whiting." Willie had the pad put on and when the belt was pulled about him he looked like a a twirler, he'd learned the art in the city council, and he did well. The side was chicagoed on his work. It was in the innings before that Young struck at three

Accident at the Ball Field.

At the baseball match yesterday an accident occurred by which a lad named Williams was badly hurt. He and other boys were sitting on the top of the fence, a high one, on the west side of the field. The board on which they were sitting broke from its fastenings and the boys fell to the ground beneath, a distance of eight or nine feet. Williams and McGill were supposed to be hurt, but when Officer Burnett walked towards them McGill ran away. The officer found Williams badly injured. Drs. Fee and Allen examined him and found that his shoulder blade had been fractured. He is the son of a widow woman living on Arch St. He was driven home.

Osterhout At the Bat.

No stranger in the crowd could doubt 'twas Ostey at the bat. Nine hundred eyes were on him as he rubbed his hands with dirt ; . Three hundred tongues applauded when he wiped them on his shirt; Then while the writhing pitcher ground the

Like the beating of the storm waves on a stern and distant shore. "Kill him! Kill the umpire!" shouted some one on the stand; And it's likely they'd have killed him had not Ostey raised his hand.

With a smile of Christian charity great Ostey's visage shone: He stilled the rising tumult, he bade the game He signalled to the pitcher, and once more the But Ostey still ignored it, and the umpire

said, "Strike two."

"Fraud!" cried the maddened people, and echo answered "Fraud!" But one scornful look from Ostey and the audience was awed; They saw his face grow stern and cold, they saw his muscles strain, And knew the batter wouldn't let that ball go by again.

The sneer is gone from Ostey's lip, his teeth are clinched in hate : He pounds with cruel violence his bat upon the And now the pitcher holls the ball, and now he lets it go. And now the air is shattered by the force of Ostey's blow.
