SUNDAY BALL PLAYING.

A Fight Occurs at the Close of the Match-Two Men Murdered.

CHICAGO, July 30. - August Delfall, a Bohemian, last evening shot and killed John Phillips and "Skip" Lonkins. The shooting took place in the Bohemian portion of the southwestern part of the city. The dead man belonged to one of two picked nines, who had been playing baseball during the afternoon, and after its finish had started with a number of other players for home. 43, an employe at Goldie & McCulloch's safe | They were passing the house of John Gendraw, where a dance was in progress, and which was attended by about fifty Bohemians, when they met Gendraw and two others, who were returning from a saloon with a pitcher of beer. They were accosted by the ball players with a decidedly rough request for some beer. One of the Bohemians picked up a stick, when Lonkins and his friends began to prepare for an assault upon the party. At this moment Delfall appeared with a revolver with which he soon began firing upon the opponents of his friends. The first bullet struck Phillips over the left eye, killing him instantly, and before Lonkins could retire his left lung was perforated near the heart and, too, fell dead. The murderer was arrested.

Friendty Relation, with his mandinavian Bucca-The Laiser Will Not Go to Rome. The Political Situation. Berlin, July 28, -The movements of

Emperor William and his party after their visit to Copenhagen are time i so that they will arrive at Kiel on Monday next. On Tuesday His Majesty will hold a naval review, the leading feature of the maneuvers being a test of the powers of torpedo boats.

The interview between Emperor William and King Christian of Denmark has a special importance as associated with the settlement of a family question, connected with the Bulgarian throne. The Czar appears to have given his assent to the creation of a Bulgarian monarchy, with either Prince Waldemar, the youngest son of King Christian or the Duke of Cumborland on some the curone. The Duke of Cumberland has decisively rejected the offer, which was made to him through Prince Bismarck. In his note refusing to accept the Crown he declares that the proposal is an insult to him as the legitimate King of Hanover, and expresses the hope that he is destined to see the King of Prussia reduced to his proper level. King Christian of Denmark advises Prince Waldemar to accept the throne of Bulgaria if the entente between the European powers is perfect. King George of Greece, the brother of Prince Waldemar, opposes his candidature. Important events are certain to take place if Greece and Bulgaria come into conflict.

The National Zeitung, in a semi-official article, declares that the Imperial visit to Stockholm and Copenhagen is a pledge for the re-establishment of friendly relations by Germany with the Scandinavian races.

With reference to Prince Ferdinand, it has been decided that he shall be assisted to maintain his position in Bulgaria. Last evening's Svoboda, the official organ of the Sofia government, declares that the abdication of Prince Ferdinand does not depend upon the will of any power whatever: that nation and will remain as long as he preserves the affection and confidence of the

The Russian Government distrusts more than ever Prince Bismarck's diplomacy with reference to Bulgaria. The Moscow Gazette and The Svet are no longer content with demun ling the deposition of Prince Ferdinand from the throne of Bulgaria as a guarantee of many's good faith, but demand that Prince Dismarck be first dismissed. It is noted to as illustrating how little the effect of the Emperor William's visit to St. Petersburn modified the anti-German hostility see in the articles of the Pan-Slavist press. The protest of the Vatican against the visit of Emperor William at Rome has proved electual. The jury in the inquest on the body of Mr. Mandeville discussed for some time the question of returning a verdict of murder against Dr. Barr, and had the Parnellite members of the body pressed their arguments in favor of such a verdict it would undoubtedly have been rendered. The leaders of the Home Rule element of the jury however decided that a verdict of general censure of the jail officials together with the suicide of Dr. Ridley would be sufficiently strong object lessons to the British electorate to accomplish the needed reforms and establish the brutality of the treatment to

which Irish political prisoners are subjected. Miss Lucy Rostron, daughter of a Liverpool merchant and heiress to £20,000, eloped on Thursday with a stable groom named Aspin who is married and the father of five children. The father and brothers of the girl started in pursuit and overtook the couple on board of the steamship Bothnia at Queenstown yesterday as they were about to sail for America. The girl when confronted with the gloomy prospect of living from hand to mouth in a strange country repented and returned home. The groom was allowed to go his way.
