Located at the capital and at direction, with the prestige of being established in 1811, and always the central organ of the Republican party, the field of The activity of Mr. Flickinger's peculiar genius. theories, it will be sufficient to say that since 1884 the paper has been twice enlarged, the last time to a standard size quarto, and has increased steadily in its influence and circulation at home and abroad. It is safe to say that no man in the state knows Ohio politics and politicians on both sides more intimately than Mr. Flickering. He is the very person fication of the "hale fellow well met," and will go to almost any length of personal inconvenience to serve his friends. Naturally the latter are very numerous, without regard to party affiliations, though he himself is an ardent Republican. Under his direction the editorial utterances of The State Journal have always been fair and inclined to conservatism, though never compromising its rigid Republicanism: the idea being that no personal partisanship should mar its usefulness as the organ of the whole party. In persons ppearance Mr. Flickinger is rather under the "standard" size, has a strong face, and is bachelor and gives but little attention social life, having apparently merged every other ambition in his journalistic impulses

The Great Mackenzie Basin.

Senator Schultz's committee, appointed to inquire into the resources of the Great Mackenzie basin, report that the extent of the region is 1,260,000 square miles; that its coast line on the Arctic ocean and Hudson's bay res 5,000 miles, over one-half of it being equally accessible to whaling and sealing craft; that the navigable coast lines of the larger lakes of the region extend for 4,000 miles; that river navigation is practicable for 2,750 miles; that within the region there is a possible area of 656,000 square miles fit for potato growing, 407,000 suitable for the cultivation of barley and 316,000 for that of wheat; that the pastoral area is equal to 800,000 square miles; that 150,000 square miles are auriferous, and that the evidence submitted to the committee points to the existence in the Athabasca and Mackenzie valleys of the most extensive petroleum field on the American continent, if not in the world,

The committee suggest that a bounded tract, 40,000 square miles in extent, be reserved from sale, and its value more accurately ascertained. They report that they have reason to believe that a comparison of the capabilities of this region shows that exceeds, in the extent of its navigable waters, in the area of arable and pastoral lands, in valuable fresh water fisheries, in its forests, and its capacity to support population, the countries of Norway, Sweden, Denmark, Germany, Austria, and part of France and Russia. The committee recommend protection for the whale fisheries of the Arctic ocean. The furbearing animals of the region are also reported on .- Ottawa Cor. London Telegraph.

Oscar Wilde's Æstheticism. Col. Vail, manager of Ragan's illustrated lectures, is the man who piloted Oscar Wilde through this country. The wonder is that he still lives. "Oscar Wilde was no fool, by any means," said the colonel. "He worked the United States 'for all there was in it.' He cleaned up \$40,000 net, not counting the \$5,000 he lost against Hungry Joe's bunco game in New York. Oscar was a genteel fakir. The 'Oscar Wilde' craze was his own invention. He worked the æsthetic craze for every dollar in sight. Dr. J. Collis Browne's Chlorodyne

THE ORIGINAL AND ONLY GENUINE.

ADVICE TO INVALIDS-If you wish to obtain quiet, refreshing sleep, free from headache relief from pain and anguish to calm and assuage the weary achings of protracted disease, in vigorating the nervous media, and regulate the circulating systems of the body, you will provide yourself with that marvellous remedy discovered by Dr. J. Collis Browne (late Army Medical Staff) to which he gave the name of CHLORODYNE, and which is admitted by the profession to be the most wonderful and valuable remedy ever discovered. CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis and Asth

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dy Palpitation and CHLORODYNE effectually cuts short all attacks of Epilepsy, Hyst CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache

Menngitis, &c. From Symnes & Co., Pharmaceutical Chemists, Medical Hall, Simla, Jan. 5, 1880. To J. T. Davenport, Esq., 33 Great Russell Street, Bloomsbury, London. Dear Sir,-We embrace this of portunity of congratulating you upon the wide-spread reputation this justly esteemed medicin Dr. J. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan, but all East. As a remedy of general utility we must question whether a better is imported country, and we shall be glad to hear of its finding a place in every Anglo-Indian home other brands, we are happy to say, are now relegated to the native bazaars, and judging from sale, we fancy tha ttheir sojourn there will be but evanescent. We could multiply infinitum" of the extraordinary efficacy of Dr. Collis Brownes Chlorodyne in Diarrhoea entery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, have occurred under our personal observation during many years. In Cholera, Diarrhoes, even in the more terrible forms of Cholera itself, we have witnessed its surprisingly control power. We have never used any other form of this medicine than or Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of the opinion that the substitution of of any other than Collis Browne's is a DELIBERATE BREACH OF FAITH ON THE PART OF THE CHEMIST, TO PRESCRIBER AND PATIENT ALIKE. We are, Sir, faithfully yours, Symes & Co., Members of the Pharmacy Society of Great Britain. His Excellency the Viceroy's Chemists

CAUTION-Vice Chancellor Sir Page Wood stated that Dr. J.
