A WORD ABOUT "CARVER."

The Toronto Sporting Paper Upon the Recent Exhibition of the Trotter.

Canadian Sportsman.

We do not often have the pleasure of looking over so good a youngster as "Doc Carver," winner of the Woodbine driving club's three year old stake and the handsome gold medal. The young stallion is a trotter of the proper stamp. He stands 15·1 now and is a well-made, breedy looking colt, with a grand free way of going that should insure him a very fast mark as a four year old. Looking at him as he flew down the stretch in the final heat he was very near the ideal trotter, and unless our judgment is sadly at fault if no accident happens to him he will trot away down when a trifle older. A three year old that can put in three heats over a slow track in 48, 47½ and 44¾ is not to be treated lightly, and it must be borne in mind that "Carver" was not by any means in good shape for the race. In fact he was footsore, and really scored his fine performance on two well pins. In colour he is a beautiful dark bay, and there is not a flaw in him from the ground up.

He was purchased by his present owner, Mr. F. A. Folger, of Kingston, from Kellar Thomas, of Locust Grove stock farm, Paris, Ky., as a two year old and cost about $3,000. He made a record of 2 40 in a two year old event at Falmouth, Ky., flagging his field the first heat and doing the last half in 1.15, a .30 clip. He is by New York "Dictator," he by "New York," out of "Ida T," by "Dictator," etc., and his dam is "Kitty Morgan" (dam of "Nanny Talbot," four year old record 2 29); second dam a thoroughbred mare. Comment upon such breeding is useless. "Carver" comes of a combination of fast and reliable blood, and there is no doubt of his ability to uphold his illustrious breeding. His owner will place him in the stud next season, and then he will be conditioned for fast work and sent for a five year old record. The beautiful gold medal captured by the young horse is a valuable proof of his ability to go the clip, and friend Folger will doubtless treasure it carefully. We wish this enterprising horseman and his grand young stallion all possible success.

HOW THE CAMPAIGN GOES.

The Politicians Warmed up—The Tidal Waves That Come And Go.

NEW YORK, Aug. 29.—Henry George is organizing his party for the solid support of Cleveland, and he says he will reverse a large vote thrown for Blaine four years ago. He is a frequent visitor at headquarters, and is not entirely satisfied with the way the campaign is conducted. Says he: "From all parts of the country, and especially from the doubtful states, where the hard battle must be fought, there have been complaints, first of apathy and then of treachery in the democratic national committee. Cleveland has, in the official lead of his fight, men who are against him upon the issue on which he must either win or lose. How he came to consent to the appointment of a protectionist like Barnum to the chairmanship of the national committee, passes comprehension. But there Barnum is, and democratic protectionists seem to have control of the executive committee." But New York's chairman says the republican tidal wave has passed, and a democratic wave will sweep the country when the president's letter of acceptance is given out to mark the real program of the campaign. Betting on the result has fallen off very much. A Wall street broker has wagered $1,000 even that Harrison would carry this state. A coffee broker bet $500 to $700 that Harrison would carry New Jersey. The betting on the general result is about even, although some republicans give slight odds in favor of Harrison.

MAY CONTINUE ANOTHER YEAR.

The St. Croix Mill not in the Combine This Year as Was Expected.

Ald. James Minnes and W. Wilson, of the Kingston cotton company, are in Montreal attending a meeting of the cotton combine. The gathering was called to discuss things in general connected with the association, but especially those connected with its continuance another year. It was expected that the various elements would have been brought into harmony, but it has been found impossible to reconcile the St. Croix cotton company to continue for another year, notwithstanding that various promises had been made to that effect. Consequently it is not unlikely that the "coloured" section will remain outside the combination for the present at least. It is not unlikely that all the other sections, as one of the results of the present meeting, will continue as heretofore. All the mills, with the exception of the St. Croix and Gibson, are represented.

THE PITH OF THE NEWS.

The Spice of the Morning Papers and the Very Latest Telegrams.

Ex-Senator Warner Miller is the republican nominee in New York state for governor, and for lieutenant-governor Colonel Cruger.

The *Empire* devotes nearly three columns of space to an interview with J. Gordon Mowat, secretary of the Liberal temperance union, on Scott act matters. Mr. Mowat expects all remaining Scott act counties to repeal the act, to be followed by "a prohibition agitation of three or four years, ending, unless properly resisted, in a wave similar to the Scott act wave, but more dangerous."

Nothing to Beat Them.

Our 15th consignment of new goods, direct from the European markets, has arrived, consisting of new dress goods, carpets, oil cloths, curtain materials, hosiery, gloves, knitted wool goods, umbrellas, muslins, etc. We have placed them on our counters and are prepared to state that for value and lowness of price nothing heretofore shown can equal them. Ladies, consult your own interests by buying your new fall goods from R. McFaul.

WHISKY AND WATER

THE IRON CHANCELLOR'S ONLY DRINK AT PRESENT.

Bismarck Said to be Suffering Also in Mind—What Labouchere Has to Say About Balfour and Dillon.

LONDON, Aug. 30.—Prince Bismarck has been seriously out of health for the last two months. He was much tried by Emperor William's death and by the conflicts which incessantly prevailed during the reign of his successor. He has lately suffered from insomnia, and has been well dosed with bromide of ammonia draughts. He walks very little and has quite lost his appetite. Some time ago the Prince ceased to observe the regimen prescribed by Dr. Schweninger. He commenced to smoke incessantly and drank ten or twelve tumblers of beer every day. These irregularities strongly upset his digestive organs, and he became fearfully irritable, the result being that Dr. Schweninger is again in command at Friedrichsruhe, and that his patient is confined to a nourishing, but very simple diet. The only drink allowed is a little weak whisky and water.

I hear, moreover, from a well-informed correspondent in Germany that Prince Bismarck is suffering severely in mind as well as in body. The young and headstrong Emperor has completely emancipated himself from the Chancellor's control, for the hasty journey to Russia was undertaken against Bismarck's wishes, and he strongly disapproves of the impending expedition to Rome. What, however, has most deeply wounded and enraged Prince Bismarck is the retirement of Count von Moltke, which in reality took place in consequence of a hint that such a step would be highly acceptable to the Emperor, who desired to promote his friend, Gen. Count Waldersee. The latter is an object of Bismarck's deep aversion, for not only is he a consummate soldier, but also a shrewd and active politician. Both he and his clever wife exercise great influence over the Emperor and Empress, and the Count, who is the most prominent member of the war party, is known to differ from the Chancellor on many points.

It really looks as if Mr. Balfour was going to carry out his promise, or understanding, or whatever you may choose to call it, with Wilfred Blunt, and kill Dillon. Dillon is losing weight at the rate of half a pound a week in Dundalk jail. I am afraid that at this rate Dillion will not last long. He has not many half pounds to lose. His mind—assuredly a great and generous mind, if ever there was one—has at the best of times been, as Sydney Smith would have said, "almost indecently exposed by his frail and delicate body." Now the question is: "Does Balfour mean to kill Dillon?" Balfour told Blunt that he thought if Dillon were to be put into jail he would probably die. He was put into jail and he is probably dying. My own opinion is that Dillon will die out of jail like Mandeville, and that when he is dead, some Dr. Barr will be forthcoming to say that it was "the comforts of home" and his family doctor that killed him. If Dillon dies in jail or of "home comforts just after his release, he will die deliberately slaughtered by Balfour just as indubitably as if Balfour were to go to Dundalk and stick a knife into him. If he does die, the verdict will be one of wilful murder against Balfour—the only verdict which a conscientious coroner's jury can by any possibility return.

The great deer forests of Glenstrathfarar, in Invernesshire, belonging to Lord Lovat, which was leased for several years by Winans, who lately has been engaged in litigation with his landlord, in which he was signally worsted, has now been divided. Glenstrathfarar was left to Mr. Winans at £5,750 a year, and he enjoyed the distinction of possessing the highest rented shooting in Scotland.

I am sorry to see that the Duchess of Teck not only patronized "Professor" Baldwin's performance last week, but aggravated the offence by taking her children with her. A lady in her position ought to know the risks of the entertainment and ought to feel that when an unfortunate man is dashed to pieces, as in the ordinary course of things he must be sooner or later, the guilt of his death will rest upon the spectators who have aided and abetted him in risking his life.

With reference to the persistent misstatements respecting Adelina Patti's success in South America, I may say that I have before me a certificate, signed by Mr. Meyer and bearing the official stamp of Messrs. Abbey and Grau, showing that the gross receipts of Patti's season of the twenty-four performances at Buenos' Ayres amounted to $370,863, or about £75,000.

Sir Wilford and Lady Brett have left Esher for a tour through the United States and Canada. They will not return home till the middle of March.

HENRY LABOUCHERE.

Married the Groomsman.

GUELPH, Aug. 30.—Society round Durham and Hanover is excited over the change of front of a young lady named Miss McDonald, an orphan child with considerable property. A marriage had been arranged between the lady and E. Bryan, of Varney. He visited Durham to get a license and a clergyman, but reached his home two hours after the minister. Meantime the bride-to-be, annoyed by his delay, had gone off and married the groomsman.

Afraid of the Debt Collector.

BROCKVILLE, Aug. 30.—George Whitworth, professional bad debt collector, called at the house of Mr. Casselman and was told by Mrs. Casselman that "Mike" was out. Whitworth took a chair and said he would wait. After waiting a while he heard something drop outside, and one of the children came running in with the remark, "Oh, ma, pa has jumped from the upstairs window." Casselman got away before Whitworth could levy on him.

Yellow Fever in Florida.

JACKSONVILLE, Florida, Aug. 30.—For the 24 hours ending at 6 p.m. yesterday there were thirty-four new cases of yellow fever and four deaths. The weather is hot and murky and it is thought the number of cases will increase daily.

Killed by the Footpads.

CHICAGO, Aug. 30.—Shortly after one o'clock this morning Fred. Schuenman, well known in Chicago, and employed by the Philip Best brewing company, was shot and killed by footpads at the corner of Ada and Randolph streets.

Movements of Steamships Affected.

MELBOURNE, Aug. 30. — The colliers' strike is seriously interferring with the movements of steamships.

THE CROPS OF EUROPE.

What is Expected of the United States and Canada—The Shortages Elsewhere.

NEW YORK, Aug. 30.—The *Times'* London says it now seems to be a fact that the old world needs from 70,000,000 to 80,000,000 bushels of wheat more than the harvests of the year will produce; to put it in another way, the countries which always have to buy wheat must this year buy some 370,000,000 bushels, while the countries raising more than they consume will have about 295,000,000 to sell. England will have to import at least 170,000,000 bushels. France, which next to the United States is the greatest wheat producer in the world, has one of the worst crops ever reaped. A week ago it was estimated that she would need to import 68,000,000 bushels. Now since the last storm, and the discovery by the first threshings of the bad quality of the grain, the shortage is put at from 80,000,000 to 96,000,000. Very little it may or may not, as the case may be, where the grasshoppers have decimated the crops. Germany, Italy and the Netherlands must buy more wheat than usual this year. Of the great exporting countries the United States and Canada can be counted on to supply about 103,000,000 bushels, Russia 90,000,000 and India 35,000,000, but in these latter countries there is much more uncertainty than in the former. The northern work house authorities have their hands full with an army of Irish laborers, who are accustomed to come to England for the harvest. This year they find no work for them to do, and the laborers have no means with which to get home. The potatoe crop in many parts of England and all along the west coast of Ireland is also a failure.

The *Times* says, editorially: "Judging from our special reports from the wheat producing states, published this morning, the United States will not be in a position to furnish very much of the 70,000,000 or 80,000,000 bushels of wheat, which will be required to meet the deficiency caused by poor crops in the old world. The weather has been unfavorable here as in Europe to large harvests of the principal food cereal, but so far as can be learned we shall have ample wheat for home consumption, with possibly some, if not a great deal, to spare to supply a portion of the demand across the ocean. Indiana and Wisconsin appear to be the only states in which the yield is above the average, and can be considered really a great one. In Ohio the crop is reported to be not over 60 per cent. of the average, and of inferior quality. In Illinois the quality is not high, though the quantity harvested is satisfactory. In Kansas the loss of fully one-third has been sustained by the negligence of the farmers in protecting what promised to be a fine wheat crop. With the suffering expected in England, and the rise in the price of bread already made there on account of the failure of the wheat crop, and in anticipation of the certain scarcity of that cereal in the immediate future, the United States is to be congratulated upon the amount of wheat already harvested in this country. If we cannot feed the world it is pleasant to know that we can feed ourselves."

An Evidence of Its Success.

The Royal military college has a plethora of successful competitors. The number authorized to be admitted each year is twenty four, that is two for each of the military districts. This year 39 were examined, of whom 27 passed, but only 24 who stood highest on the list were admitted as cadets, thus three of those who were qualified were not authorized to join. This is the first year that more cadets qualified for admission to the college have been forthcoming than can be admitted, and it is a good index of the growing popularity of the institution.

Band on the Wharf.

By kind permission of the commandant and officers the band of "A" battery, R. C. A., will play on the wharf this evening at 7:30 p.m. (weather permitting)

March—"Escort of the Color".....Rollinson
Overture—Il Barbien di Siviglia.....Rossini
Valse—Le Gitana.....Verdi
Selection—Ernani.....Vandervellen
Gavotte—Immer Weider.....Fahrbach
Polka—Dragoons.....Zikoff
Galop—Vivat.....
Vive La Canadienne. Regimental March, God Save the Queen.

T. C. CAREY, Bandmaster.

The Catch of Seal Skins.

SAN FRANCISCO, Aug. 30.—The Alaska Commercial company's steamer St. Paul arrived from Ounalaska yesterday with 100,000 sealskins, the season's catch on St. George and St. Paul Islands. She also had a number of other skins and furs, the value of the entire cargo being $2,000,000. No seizures have been made this season by the revenue cutters, though it is reported that several British schooners have been seen taking seals within the prescribed limit.

Result of a Collision.

SAN FRANCISCO, Aug. 30.—The British court of inquiry, which has been investigating the causes of the recent collision between the steamers Oceanic and City of Chester, by which 15 of the latter's passengers lost their lives, announced its decision yesterday. The court states the collision can only be attributed to the fact that the Chester was caught in a strong tide, which forced her across the Oceanic's bow.

High License in the West.

ST. PAUL, Aug. 30.—High license in Minnesota has proved all its friends claimed for it. There are in the state only 1,597 saloons now as against 2,806 when the law went into effect. Under the old system the average cost of a license was $300, and the total approximate income was $850,000; under high license the average cost of permission to sell is $600 and the total income about $1,100,000.

Prince Ferdinand Won't Surrender.

LONDON, Aug. 30.—A despatch from Sofia says Prince Ferdinand, in a recent interview, declared that he would never leave Bulgaria of his own accord. He refused to believe that his position would ever be threatened by the Bulgarians themselves, and he fully believed that his mission would be fulfilled and Bulgaria be made tranquil and prosperous.

Killing Off the Dervishes.

CAIRO, Aug. 30.—Five hundred Dervishes attacked an Egyptian fort near Wady Halfa and captured a portion of it. The Egyptians received reinforcements from Wady Halfa a mile away and succeeded in driving out the Dervishes, killing more than 100 of them. The Egyptian loss was sixteen killed and twenty seven wounded.

Prize Stock Burned Up.

INDIANAPOLIS, Aug. 30.—The barn on the Spring Valley stock farm was burned yesterday and eighteen head of fine horses perished. The stallion Brignali Wilkes perished.

TO DISCUSS RETALIATION.

A MEETING OF COUNCIL TO BE HELD ON SATURDAY.

All of Ministers Except Hon. Mr. Bowell To Be Present—United States Senator George at Washington Yesterday Makes The Judicious Grieve.

OTTAWA, Aug. 30.—The retaliation question will be discussed at a Cabinet meeting Saturday, when every member of the Government, with the exception of Hon. Mackenzie Bowell, will be present.

Sapient Senator George.

WASHINGTON, Aug. 29.—In the Senate after the discussion of an appropriation bill, Mr. George (Dem., Miss.) took the floor, saying that he desired to make some remarks on the fisheries question. After reviewing each of the twenty-seven treaties between Great Britain and the United States, he said that not one of them had proposed to settle all the points in controversy and that that had not been an objection to the ratification of any of them, he came down to the question of retaliation and asked whether the act of March 3, 1887, was a sufficient act of retaliation. The answer he gave was that it was not because it did not cover all the ground the United States had for retaliation. There were wrongs committed by Canada against the United States for which the act of 1887 could not be put in force and one of them was that mentioned by the President in regard to the inequality of tolls on the Canadian canals. There would have to be an additional act of Congress for that. The President's recommendation in that respect had to be adopted or else the claim for equality of tolls on the Canada canals had to be abandoned.

Mr. Frye (Rep., Me.) inquired whether Canadian vessels could not be kept out of the Sault Ste. Marie canal.

Mr. George did not know of any reason to the contrary but such a little partial retaliation would amount to nothing. If retaliation were resorted to it should be made adequate and efficient.

"Are you aware," Mr. Frye persisted, "that Sir John Macdonald"—

"I do not," Mr. George broke in, "know anything about Sir John Macdonald."

"He is the head of the Canadian Government," Mr. Frye explained, "and he declares that there is no discrimination against us in the Canadian canals."

At this point Mr. George assented to the request of Mr. Allison to have a vote taken on the conference report on the Sundry Civil bill, and after this was disposed of Mr. George resumed the floor and proceeded with the discussion of the President's retaliation message. He said that under the act of March 3, 1887, the President could not deny the right of transit over American territory to goods going from foreign countries to Canada, or goods going from Canada through the United States intended for foreign countries, and he said in a message sent to Congress on Dec. 5, 1870, President Grant had recommended the very thing which President Cleveland now recommends.

Without concluding his speech Mr. George yielded the floor and the regular business was proceeded with.

Blaine on Cleveland's Flop.

CALAIS, Me., Aug. 30.—Hon. James G. Blaine addressed an audience of from 3000 to 5000 people in this city this afternoon. Commenting on President Cleveland's retaliatory message he asked why it might not be reasoned that as soon as the Senate defeats the Mills Bill the President will not make another summersault and change as radically in regard to tariffs as he has in regard to the fisheries. Mr. Blaine asked: "May not his letter of acceptance disclose such a radical but temporary change as will show him a protectionist up to the point of a prohibitory tariff? Would it be a whit more inconsistent than his sudden conversion on the fisheries?" We had nothing against Canada. They do as they have a right to do and he neither disputed their right nor envied their position.

"If they come with us they can have what we have, but it is a wrong against the rights of American citizens that millions of men who owe the United States no allegiance, who are not of us but choose to be foreign to us, shall have the same share in our markets and the same privileges of trade under our flag that we have."

The Job Was Too Large.

WASHINGTON, Aug. 30.—Representative Belmont has added Mr. Morrow and himself to the sub-committee on Foreign Affairs which has been charged with the duty of collecting information regarding the treaties concerning Canada and the United States.

A Negro Villian Lynched.

BELLEFONTAINE, Miss., Aug. 30.—On Saturday night a negro known as Pony Poe forced an entrance into the residence of Mrs. Blissett, a widow, and assaulted her and her young daughter and also the daughter of a neighbor aged 14. The next day the sheriff arrested him at a religious meeting where he was taking part in the services. While the sheriff's posse was en route to jail with the prisoner a mob overpowered them and took the wretch to the scene of his crime, where they hanged him. He confessed his guilt. He further stated that a few years ago he criminally assaulted a white woman in Mississippi, but made his escape. Poe was the leader of the negroes in Webster County, had taught school and was last year a candidate for the tax assessorship.

The Burns Statue at Albany.

ALBANY, N.Y., Aug. 30.—The bronze statue of Burns, by Charles Calverdi, was successfully placed on its Scotch and American granite pedestal in Washington Park yesterday. It will be unveiled with appropriate ceremonies to-day. It is the gift of Miss Mary McPherson, and costs $25,000. It is anticipated the event will bring together the largest number of Scotchmen ever gathered in America at one time.

The Haldimand Conservative Picnic.

HAGERSVILLE, Aug. 29.—About 5000 people assembled in Herkimer's Grove this afternoon to listen to the speeches at the demonstration in honor of Dr. Montague, M.P. for Haldimand. The speakers were Sir Hector Langevin and Sir John S. D. Thompson, Dr. Montague, Mr. Boyle, M.P. for Monck, and Mr. McCulla, M.P. for Peel.

Evictions on the Clanricarde Estate.

DUBLIN, Aug. 30.—Five families were evicted on the Clanricarde estate at Woodford yesterday. The work was done by a force of soldiers and police. An aged sick woman, who was evicted, was carried to a place of shelter by some English visitors. The sum of $100 has been subscribed to the Parnell fund at Waterford.
