### DISTRIBUTING THE WEALTH.

The Way in Which the Estates of two Great Lumbermen are Divided.

PERTH, MUZ. 30, .... Ewo survey ..... have just been proved in the Surrogate court. The late Boyd Caldwell's personalty was sworn at \$400,000 and the realty at \$265,000, in all \$665,000.

The will gives to his widow the homestead dwelling and store in Lanark village, with the personalty of the homestead and \$30,000. To each of his three daughters \$20,000, and the residue to his two sons, William receiving the lumbering business, and Thomas the woolen manufacturing business. The valuable iron mining properties

are divided equally between the sons. The will of the late John Gillies, Carl ton Place, put the personalty at \$386,200 and the realty at \$141,200, making \$527,400. The will gives to his widow the homestead residence at Carleton Place with the personalty at the homestead at \$20,000. To his daughter, Mrs. Janet McEvoy, he gives the mill property at L'Orignal and \$25,000. To his daughters, Ellen and Elizabeth, \$30,000 each. To his niece, Catharine Bain, \$5,000. To his son George Gillies, the machine shop, machinery and plant at Gananoque. To his not the power to prohibit shipmont from five sons, James, William, John, David and | Canada to United States ports for exporta-George, he gives the money already advanc- tion. He argued that the Secretary of the ed to them. The residue of his estate is to Treasury had the power practically to probe converted into money and divided into hibit such transit by establishing such rules eight shares, one of which is given to each and regulations as would make it inconof his eight sons and daughters. The daughters' shares in the residue are to be invested by the executors and the income paid to | can vessels on Canadian canals, that diffithem during life, the principal to be paid as | culty, if it existed, might have been remethey shall respectively appoint by will, or | died by a remonstrance addressed to the in default catheir making any appointment British Government. It would be time the Cincinnati detective, was found lying at M. W. G. M.-N. C. Wallace, to their children. If any of them shall die enough when such remonstrance proved unwithout making appointment or leaving issue, then to be divided amongst those entitled, as in case of intestacy.

### MORE REASONABLE.

#### he St. P. M. & M. Make an Apparently Favorable Offer to Mr. Greenway.

WINNIPEG, Aug. 21.—The delegate from the St. Paul, Manitoba & Minneapolis railway has presented an offer to Mr. Greenway to lease the Red River Valley railway upon completion, paying interest at 5 per cent. per annum and maintaining the road. The obligation to ray rental is unconditional and regardless of the amount earned from the operation of the road. The government roll. ing stock would be taken at a just valuation payable in the company's first mortgage bonds. The railway would connect with the Manitoba road at Emerson via a bridge over the Red river and any other railway, including the Northern Pacific shall, with the ap proval of the government, enjoy running rights over the railway on equitable terms. As security the company will deposit \$50,000 in bonds. In lieu of extending the line from Morris to Brandon the Manitoba will extend the Botineau branch to Brandon, 25 miles of extensions to be built this year, half of the mileage by December 1, 1889, and the completion in December, 1890. All railways to have running rights over those branches. The company ask for exemption from taxation as provided in the Northern Pacific agreement. A maximum rate is guaranteed to St. Paul or Duluth, and the company offer to lease the portage link. The offer comes too late. The government will stand or fall by the Northern Pacific contract.

### INFIRMITIES OF AGE.

### Count Von Moltke Retired From a Posi-

tion He Couldn't Actively Fill. Berlin, Aug. 31.-The recent correspondence between the Emperor and Count Von Moltke is published. Replying to the count's request of Aug. 3rd, to be allowed to resign on account of his inability to mount his horse, the emperor wrote that it was extremely painful to himself and to the army to lose the services of a marshal who had led the German forces to the most marvellous victories that ever crowned the struggles of an army, and that while acceding to the request with a heavy heart he must beg the count, out of love for the sovereign, the country and the army, to accept the presidency of the defence commission so that they might know him to be still concerned with the weal or woe of the fatherland.

## ACCIDENT NEAR CLAYTON.

#### Train on a Switch Telescoped-Engine and Car Smashed-Two Injured,

CLAYTON, Aug. 31.—An accident occurred on the Rome, Watertown & Ogdensburg railroad yesterday about four o'clock, near Theresa Junction, a transfer station, twelve miles from Clayton, the terminus of this branch of the road. The fast express from New York by way of Utica, due in Clayton at 4:30, was reported thirty minutes late at the junction. The train for Ogdensburg was held on the side track. The flyer, in making a flying switch, telescoped the rear car of the Ogdensburg train, demolishing the engine and part of the car. One lady was injured about the head, and a gentleman received a broken arm.

### BISMARCK WANTS TO RESIGN.

### Why he Wants Release From Office-The

King Hard to Pull With. NEW YORK, Aug. 31.—The Herald's Berlin says: "It is reported that Prince Bismarck has tendered his resignation. Nobody, however, credits the statement. At the same time it is asserted that the chancellor's position, under the new emperor, is immensly more difficult than it was under William first or even under Emperor Frederick, owing to the young sovereign's resolute character and independant views. stances are cited of the emperor having simply announced to his first minister, as his will, certain important resolutions bearing on international policy respecting which he had not previously asked the chancellor's

U. S. SENATORS STILL DEBATING CLEVELAND'S MESSAGE.

### Mr. Interstate Cullom Deludes Binself With the Bellef That Canada is Pretty

Nearly Mine for Absorption. WASHINGTON, Aug. 31 .- In the Senate yesterday, replying to the assertion made by Mr. Edmunds in his speech last week that the President had a right to suspend the operation of Section 3000 of the revised statutes, which allows the transit between the United States and without the payment of duty, Miss.) (Dem., George that if the President were to undertake to suspend the operation of that section he would be assuming an autocratic power, such as is possessed only by some potentates not abrogate a solemn ent the Receitant could gress, absolute in its terms, without any

contingency whatever. Mr. Cultom (Rep., III.) addressed the Senate on the same subject. In his opening remarks he spoke of the United States being destined to dominate the American continent and expressed the opinion that in the not far distant future the Canadian provinces would become part of the United States. The rejection of the Fisheries Treaty by the Senate had met, he said, with the approval of a large majority of the people of the country. The retaliation message might fairly token as evidence that even the President has become satisfied that the treaty was a mistake. To retrieve what he had lost by that mistake, the President had launched out into a broader sea and would find himself in deeper water than before and with greater dangers. Mr. Cullom then addressed himself to the details of the subject, going extensively into the question as to whether the Secretary of the Treasury had

venient. As to the discrimination against Ameriavailing for the President to apply to Con-(Cullom) applied the message long delayed letter of acceptance, because it betrayed clearly his anxiety for another term of office and his fear that he would not be elected. His change of front on the fisheries question showed that Mr. Cleveland and his party were in desperate straits politically, they saw defeat staring them in the face and were seeking to divert attention. The whole mevement was a

political movement. Mr. Cullom offered a resolution which was laid over, desiring the Secretary of the Treasury to inform the Senate whether the transit in bond over or across the territory of the United States without payment of duties on goods, etc., coming from Cana-1818 and section 3 of the act of March 1, 1873, are said to have ceased to be in force, if so by what autho i y of law.

### THE RETALIATION BILL.

#### A Substitute Unanimously Adopted by the House Foreign Affairs Committee.

WASHINGTON, Aug. 30.-The Committee on Foreign Affairs to-day received the report of the sub-committee on the Retaliation Bill. The chairman, Mr. Belmont, said that in these questions the committee had always acted without regard to partisanship, and he hoped it would continue to do so. He referred to the fact that a bill introduced by himself two years ago, containing a restrictive railroad provision, had been adopted by the House almost unanimously, though the railroad section was subsequently stricken out in the Senate. The committee unanimously adopted the amended bill reported by the sub-committee. Mr. Belmont having been absent when the consideration of the subject was begun, expressed the opinion that it would be proper for Mr. McCreary to report the bill to the House. It is understood to be the intention to call it up for action on Saturday. The following is the text of the substitute

Sec. 1. Be it enacted, etc.: That whenever the President may deem it his duty to exercise any of the powers given to him by an act entitled "An act to authorise the President of the United States to protect and defend the rights of American fishing vessels, American fishermen, American trading and other vessels in certain cases, and for other purposes," approved March 3, 1887, it shall be lawful for the President, in his discretion, by proclamation to that effect, to suspend, in whole or in part, the transportation across the territory of the United States, in bond or without the payment of duty of goods, wares and merchandise imported or exported from any foreign country from or to the British dominions in

North America. Sec. 2. That whenever the President shall be satisfied that there is any discrimination whatever in the use of the Welland Canal, the St. Lawerence River Canal, the Chambly Canal or either of them, whether by tolls, drawbacks, re-fund of tolls of otherwise, which is or may be detrimental touthe interests of the United States or any of its citizens, it shall be lawful for the President in his discretion to issue a proclamation to that effect, whereupon there shall be collected a toll of 20 cents a ton upon every foreign vessel and her cargo passing through either the Sault Ste. Marie Canal or the St. Clair Flats Canal, and the Secretary of the Treasury may authorize and direct any of the Customs officers to collect the tolls levied under this act, or the President may in his discretion, where he is satisfied there is any such discrimination, proh bit the use of said canals to any such The President when satisforeign vessel. fied that such discrimination has ceased may issue his proclamation to that effect in his discretion, whereupon the tolls authorised by this act shall no longer be collected and said prohibition, if ordered, shall cease. Sec. 2. That the Secretary of the Trea-

sury is authorised to make any regulations needful to carry this act into effect. At only one point was there anything like a difference between the Democrat and Republican members. This was upon a proposition coming from the Republicans that he surface.

courtesy to threat britain required that it should be notified that Article XXIX of the Treaty of Washington has been practically nullified and abrogated upon the refusal or denial of the rights of American citizens in Canadian ports, Upon this proposition there was a division on party lines, resulting

in its defeat by a vote of 50 to 6. When the question came on ordering a favorable report on the substitute bill, there was not a negative vote. The Republican members do not expect that the bill will meet with any opposition from their side of the House when it is called up, although the proposition which was rejected to-day may be renewed and serve as the basis of some speeches, in which the position will be taken that the President already has sufficient power to do what he desires in the way of retaliation.

It Got a Boom. NEW YORK, Ang. 31 .- The President's recent message to Congress, recommending retaliation in the matter of the Canadian York Democracy at the Cooper Union las night. More than 30,000 people crowded into the hall. Senator Gray, of Delaware, was the principal speaker.

A Congressman Talking Eloquence. NEW YORK, Aug 31. - In speaking on the fisheries question at Yonkers last night, congressman Mills said : "This is a serious position in which we are placed by the blunder of the republican party. God knows what it may result in. It is not the pathway to peace when a man says to his neighbour, 'you have killed my cat and I am going to kill your dog.' That means irritation, bad temper, bad blood. The road to retaliation is not the road to peace. may result in war, but our duty to our people is plain and mandatory, we will stand by the people at whatever cost. If it comes to the point that war must come, and that Canada must fall, as she will, into the arms of the union, and if in the providence of God that poor carpet bag ridden island across the water should end the days of her captivity, then every liberty-loving man can raise his voice in hallelujah.'
