DESERONTO DOINGS.

Events of Interest to Our Neighbours-All Coming to Kingston.

DESERONTO, Sept. 11. - The new cemetery has great beauty. Nature was bountiful and the cemetery company tasteful. It is on the Napanee road. To the west is the T bay and to the south the river and L'nger'en island, a situation unequaled on the bay. A large number of lots have been sold. The main drive will be continued to the island, and will take a circle around that lovely spot. On the island walks will be erected seats so as to give a good view of the bay and the whole thing thrown open to the public as a park.

The Tribune is warring against the fences, which it declares are no decoration to a house and a disgrace to civilization. It has been successful and a number of fences have disappeared. But right in front of the sanctum of this apostle of open-door yards stands a fence that would disgrace a log cabin in the Bald Mountains. Down with that fence Mr. Trib. Do not be one of those slow coaches you were telling us of ...

There was a heavy frost in this district last Thursday and Friday nights. Buckwheat and corn suffered severely. Buckwheat of which there was a splendid crop was damaged to a great extent. Corn did not receive near so much damage.

James S. Bowen, of the boundary road, has something very unusual for this district, a large second crop of strawberries in his garden north of the Slash road.

Three respectable young men, Thomas Dibbie, Thomas Pigden and E. Prickett, ap peared before the magistrate charged with throwing a stone through a Thomas street window which came near striking a sleeping babe. The young men were honourably discharged as the magistrate concluded after hearing the evidence that the boys had no thing whatever to do with the matter.

The Deseronto car works have received an order for several hundred flat cars for the Canada Atlantic railway. They are busy now on a second order for some box cars for the Manitoba and Northwestern railway. These works are evidently destined to attain large proportions.

The early closing by law has worked splendidly in Deseronto, and is held by business men of all classes to be a success. is hoped the legislature will not repeal the act but rather improve it. Here the business men close on Wednesday, Thursday and Friday evenings at seven o'clock. It would have been better for other towns to have pursued a similar course.

Several fashionable weddings are spoken

Nearly every person in the town is going down to see the Kingston fair. They want to see the governor general if there is any thing left of him after he has listened to the long worded address of the Kingston officials. He should visit Deseronto, a live town, where he would not be subjected to an address of any kind, only an honest pump-handle hand-shake which he would

prize far more. The action of Napanee and Ernesttown farmers in remitting the rents to tenancs is contrasted with that of the Indian department, who are levying on the goods and chattels of delinquent tenants whose crops have failed on Tyendinaga reserve.

HOW IT STRIKES THEM.

The Editors as Their Politics Go Let Harrison Have the Benefit.

NEW YORK, Sept. 12.—Commenting on Gen. Harrison's letter of acceptance the Herald says: "Mr. Harrison's is the serious letter of an honest man, who recognizes the necessity of giving a reason for his candidacy but sees the difficulty of finding one adequate to the occasion." On the question of the surplus and the tariff the Herald. says: "On this subject a comparison i invited. While Mr. Cleveland's is with a perfectly free pen and great force and em phasis, Mr. Harrison is evidently cramped

by his unfortunate want of material." The Tribune says the letter will take a high place in the literature of our politics. It is courageous, frank, simple and unaffected. Many of its phrases pierce the democratic armour like sword thrusts. It is a

letter that will make votes. The Sun says: "The letter lacks the ring and decision noticed in President Cleveland's document. It contains few striking

phases. The Times says Mr. Harrison's letter is not able for nothing save its weak and safe generalization.

Why Not Try to Eind a Market for the Canadian trop in England, Where there is No Benty, Instend of in the States?

WINNIPEG, Sept. 12 .- The barley question is among the greatest that have lately arisen above the horizon in this new conn Whether the Canadian seller or American buyer pays the duty Winnipeg grain men are not agreed. In the meantime it is asked: Why net try to find a market in England where there is no duty at all? Are there not men in Montreal, Toronto or Winnipeg enterprising enough to try the experiment of a shipment or two to

As for what makes the price of barley circumstances are not now what they were Michigan, with their large product, fixed While the farmers of Upper Canada sent their share it was too little of the whole to influence the price very much, but now the time is drawing near when the barley production of Canada's prairies will be so immense as to make the price, not only for Canada, but for the United States too.

The authorities who hold that Canada must always remain too small a fraction in the problem to put prices either up or down, are invited to take this into their serious consideration. It might be reasonable for people to reflect that the case being altered alters the case, and that the entrance of the vast Canadian Northwest into the situation has created a new one. Things are changed now, they are not what they were before.

What other event of magnitude, equal to the development of the Canadian Northwest as an agricultural influence, has been so contemptuously ignored by the school which sees no moving cause of any account except those that are from the States? The discovery of this Canadian Northwest is "a big thing " and great consequences of some kind must result. Henceforth Canada's production will help to make the price of

Winnipeg Rativay Rumors. WINNIPEG, Sept. 12 .- Another grist of railwa rumors is afloat, amongst others that the Canadian Pacific Railway will extend the Glenboro branch to the Souris country, heading off the Northern Pacific, and that the latter will penetrate the northwestern portion of the province, and if unable to secure running rights over the Manitoba & Northwestern a new road will be built to Rapid City.

The purchase of the Northwest Central is also contemplated. The Northern Pacific has purchased a part of the old Grace Church property, and the station will be located on the corner of

Water and Main-streets. Seven Negroes Killed in Revenge. BIRMINGHAM, Ala., Sept. 11.-A negre camp meeting was in progress near the residence of a Mr. Milburn, and they obtained drinking water from his well. The water being almost exhausted, Milburn took the

bucket away from the well and refused to let the negroes have any more. One of them started into the house to take the bucket and was shot and wounded by Milburn. That night the negroes surrounded Milburn's house and fired over 100 shots into it. The next day a crowd of masked white men went to the negro meeting and shot and killed seven negroes who were supposed to have been ringleaders in the attack on Milburn's house. No arrests have been

A Girl Canght on a Wheel.

MONTREAL, Sep'. 12.-Zelia Perrin, wl. is employed at the Montreal Woolen Mills, was the victim of a serious accident. It appears, that she was walking near a wheel, when her arm was suddenly caught by the belt, the wheel of which was then running at about 300 revolutions a minute. Before the machinery could be stopped, and the poor girl, who is but 17 years of age, removed from her perilous position, the whole of the skin of one of her arms was completely torn off, and she was rendered insensible, having also received several other injuries.

A Wedding Tour Cut short.

MONTREAL, Sept. 12. - The wedding tour of A. Sydney Ben of Mobile, Ala., was cut short yesterday when he was arrested on a capias at the Windsor Hotel. The capias was issued at the instance of Hon. Peter Mitchell, who alleges that defendant is, indebted to him to the amount of \$600 which he lent him in St. John, N.B., some years ago and for which he held a draft until last August when it was destroyed in The Herald building fire.

A Fire on Shipboard.

LONDON, Sept. 12 .- A fire broke out in the coal bunkers of the steamship Pembroke Castle, plying between Southampton and Cape lown. Ten coolies were smothered to death by the coal gas and six seamen who tried to rescue them were nearly suffocated and are in a precarious condition. The fire was extinguished before it extended to other parts of the ship.

Chonked to Death by a Mill Gear. GETTYSBURG, Sept. 12. - Nervin Deardorff, only son of Christian Deardorff, about 20 years of age, was caught in the gearing of his father's mill, eight miles from this place and choaked to death. The mill had been running but a short time.

The party then proceeded to the University where Sir Baniel Wilson read an address. His Excellency, replying, said that amongst the many addresses which been presented to him there was none which he received with more pleasure than that which proceeded from the University which had been foremost in this Dominion in the cause of learning, and which had ever made use of its opportunities to extend still wider education throughout Canada.

Visits were next paid to Osgoode Hall, the Normal School and the Public Library. In the afternoon the Governor-General formally opened the Industrial Exhibition, and in the evening the address of the Lancashire lads and lasses was presented at Ald. Hallam's residence. Fireworks and illumi-

nations wound up the proceedings. DAVITT HEARD FROM.

He Writes His Views Touching the Glorification of Gladstone.

LONDON, Sept. 12 .- Mr. Davitt writes with reference to his recent speech that he did not make disparaging references to Gladstone or Morley. He only complained that Irishmen did Gladstonian glorification which ought to be done by the English liberals, who would be the greater gainers by the pacification of Ireland. He still considers that if Gladstone showed as much enthusiasm over Ireland as he showed over Bulgaria, Balfour would not dare to continue his brutal policy which is possible only because Irishmen, out of deference to Gladstone, have abandoned even legitimate resistence. He still believes that Cladstonians will give a left-handed acquiescence to the thinning out of the Irish population by eviction, just as they formerly advocated emigration as a panacea. He bears the liberals no ill will, although from his former experience he has little cause to love them. If, as the Daily News taunts him, he is not now in prison, perhaps it is because the liberals are not now in power.

Alleged Absconders. OTTAWA, Sept. 12. -Stewart Bros., Eastman's Springs, lumbermen, have skipped out. The total liabilities of the firm are about \$25,000 with no assets beyond the mill property, which is valued at about \$7,000. Before their departure the brothers sold every stick of lumber and a great deal of it twice over, including a large amount of lumber belonging to the customers. The

case will come into court.

Three Vesse's Seized. OTTAWA. Sept. 12. - The customs depart. ment have been advised by Inspecter Kavanagh, Quebec, that he has made a seizure of two American barges, the Beaupre and Pacific for landing bituminous coal and other articles at the outport of Valleyfield without a report or clearance from any place. The vessels were also found without certificates or registration licenses. The cases are under consideration.

A VERY PRONJUNCED DECLARATION AGAINST FREE TRADE.

The Principle of Protection Squarely Advocated The Tariff Question the Issue of the Campaign.

INDIANAPOLIS, Ind., Sept. 12.—General Harrison's letter accepting the Republican nomination for the presidency was given to the press last night. The General says :

"That the declaration of the Chicago convention upon the questions that now attract the interest of our people are so clear and emphatic is a matter for congratulation. There mocratic party, if in any degree uncertain o contradictory, can now be judged and interpre-It is not a contest between schedules, but be-A gentleman just up from Murray Bay, tween wide-apart principles. We will revise the schedule, modify rates, but always with an intelligent provision as to the effect upon domestic production and the wages of our working people. We believe it to be one of the worthy objects of tariff legislation to preserve the American market for American producers, and to maintain the American scale of wages by adequate discriminatory duties upon foreign

competing products. "A proper reduction of the revenue does not necessitate and should not suggest the abandonment or impairment of the protective system. The methods suggested by our convention will not need to be exhausted in order to effect the necessary reduction. We are not likely to be called upon, I think, to make a present choice between the surrender of the protective system and the repeal of the internal taxes. The surplus now in the treasury

should be used in the purchase of bonds." The letter denounces the importation of foreign labor under contract, but says that if the protective tariff is removed it will be found to make but little difference whether the cheap laborer is across the street or over also the exclusion of alien races, like the Chinese, whose ultimate assimilation is neither possible nor desirable. ballot and a fair count in all elections is demanded.
