THE ORIENTAL DISASTER.

Pumping Out the Cargo of the Sunken

NCIAL FAIR The schooner Bay Trader is at Toronto from the wreck of the barge Oriental with 380 tone of coal taken from the sunken barge. The tug Alert and schooner Bay Trader, owned by Carter Bros., Port Dalhousie, and fitted up with all the necessary appliances, left Port Dalhousie last Saturday for the wreck, for the purpose of getting out the coal which had been sold to Carter Bros. With the wreckers was Diver Edward Smiley, of Port Dalhousie. There was not much difficulty experienced in finding the Oriental, which lay in 10 feet of water. Diver Smiley, who went down, reports that the wreck was not in such a bad condition as was imagined, and was better than he expected to find it. The decks were gone, also the cabin and upper works. The hull, however, was intact.

The coal, 700 tons of it, was in the hold. Some little difficulty was experienced in keeping the schooner over the Oriental, as the weather was rough, and the bottom being rocky, the anchors would not hold. Carser Bros., had with them a cataract centrifugal pump, which under ordinary circumstances would pump fifty tons per hour. The donkey engine, boiler, anchor, and chains were first taken out of the vessel. The engine was put on board the steambarge Clinton on Thursday night and the rest land ed at Port Dalhousie. They returned to Port Dalhousie on Saturday and left again. the next day. Pumping operations were proceeded with Monday, Tuesday and Wednesday, and about 380 tons got out. All sorts of truck came up with the coal, including spikes, nails, bolts, pieces of wood and a good-sized block. A knife, supposed to d for threble the money. Do have belonged to Captain Stewart was also ocketbook or hand satchel? If | found. Mr. Smiley will retain it as a keepwe carry the largest stock and | sake. Carter Bros. expect to get the remainder of the coal.

It Had To Be Shot.

A very exciting scene was occasioned on Earl street last evening by the falling of a horse, belonging to Mr. Tiernan, a carter, into the excavation made for the water works extension. The animal was turned out for pasture, and in going up the street walked into the opening. A number of re sidents worked with spirit to extricate the animal, and after much trouble he was got out, but one of his legs and a couple of his ribs were broken. He laid for some time on the road, breathing heavily and suffering much agony. Finding that nothing could be done for the animal the owner consented to have it shot, which was done by police. man Tuttle. The drain is very dimly light. ed, and it is surprising that more accidents do not happen.

A Thorough Work.

The Toronto humane society is evidently a live institution. It not only does the work, a loving but unpleasant one, of protection, but is endeavouring to educate the masses. It has issued a work of over two hundred large pages, edited by J. George Hodgins and treating in every way of the virtue of kindness to animals. It should be read by all lovers of the brute creation; it would stimulate to a better support of local societies and to much less every day cruelty.

At the Opera flouse.

The attendance at the opera house last evening was large. The "Lightning Rod Agent," was placed on the boards, and the impersonation of the different characters was all that could be desired. The audience was in good humor and greeted the players with applause. The specialties added greatly to the pleasure of the evening and they came in for their share of commendation. Miss Gilbert's cornet solos were greatly admired and she received several hearty encores. The Baird company is a good one and are entitled to well-tilled houses.

Macdonald. Prof. Saunders of the Experimental Farm has made a careful enquiry into the damage done to the Manitoba wheat crop by the frosts. After a careful estimate made from reliable data he says 50 per cent. of the entire product has been frosted but the greater part of the affected grain will market at from 30 to 40 cents per bushel. It is conceded by prominent grain dealers in the west that the excuss of export values this season will be something over \$2,000,000, so that at the very worst the Manitoba farmers will have a good year. Experiments with the Ladoga wheat have been successful, and there is every prospect that ere long the farmers of the Northwest will be relieved of a great deal of anxiety now caused by

the action of early frosts. A schooner has been seized off Nova Scotia by Special Officer Bogue for smuggling. The offence seems to have been committed when the vessel was owned in Pictou, the present owners being entirely blame-

A MYSTERY SOLVED.

The Boffman House Suicide Declared to be Seebohm, the London Bramatist.

NEW YORK, Sept. 15,-The Hoffman House suicide is thought to be Edwin V. Seebohm, the London dramatist.
