CARTER MEDICINE CO., New York,

ARMBRECHTS

Sustains and Refreshes Both Mind and Body-Aids Digestion-Improves the Appetite, and Removes Fatigue.

It is both effective and rapid in its action, and may be taken with perfect safety for any length of time. It is superior to all other tonics, such as Iron, Cinchona, Calisaya, &c., and unlike these IT NEVER CON-STIPATES.

In cases of sleeplessness from exhaustion or fatigue it is invaluable, producing sound and refreshing sleep, without the distressing sensation so common after Opiates, Bromides, and Hydrate of Chloral.

It has been prescribed throughout Europe for years by the most eminent physicians, and has been pronounced the most powerful restorer of the vital forces.

ARMBRECHT, NELSON & CO., 2 Duke St., Grosvenor Sq., London, Eng.

FUR SALE BY G S. HOBART

A FIRST-CLASS Swelling or Sprain

May last a week, a year or even the rest of one's lifetime, still it is interesting to know

that a few applications of

is just what you have long been looking after to make a complete cure.

Capt. Dowling of the Brigt. "Leo" of Lunenburg, N. S., says: "I do not consider the ship's medicine chest complete without a quantity of Simson's Liniment. In one particular case that came directly under my notice, its operation was simply wonderful. The case was a very bad swelling of the legs of one of my men. A few applications, rubbed thoroughly in, brought him around in a very short time. Since adopting Simson's Liniment on board ship I have adandoned all others.

See testimony on every wrapper. SOLD EVERYWHERE FOR 25 CENTS. Brown Brotners & Co., Proprietors,
Halifax, N.S.

Unlocks all the clogged avenues of the Bowels. Kidneys and Liver, carrying off gradually without weakening the system, all the impurities and foul humours of the secretions; at the same time correcting Acidity of the Stomach, curing Biliousness, Dyspepsia, Headaches, Dizziness, Heartburn, Constipation, Dryness of the Skin, Dropsy, Dimness of Vision, Jaundice Salt Rheum, Erysipelas, Scrofula, Fluttering of the Hea . A rastic flower receptacle for the center of the table is very effective when covered with paper or silver foul (the former put on uniden hair or creepers, with flowers

room may be quite different, and large pattogether, big, deep red poppies, etc., are used. In a bedroom the little table covers are usually of the same material as the bed

in the form of a long bolster to be hung stuffed and fitted up for cushions. For the bedroom the favorite style is a square and low cushion, covered with fine embroidery and edged with a fulling of silk, with lace

In the decoration of walls very striking effects are obtained with lincrusta. It is no generally known that a moderate degree beat renders this material pliable and easy work. After heating it by a stove the designs may be readily out out with a penknife and used for relief decoration. Charming effects are obtained by cutting out sprays o flowers, vines, arabesques, geometrical patterns or whatever pleases most, and arranging them to suit the fancy on the wall or surface to be ornamented. To a plastered wall they are attached with paste. On wood small tacks may be used. These lincrusta designs come in various pretty colors, and, if liked, they can be painted over in any of the metallic colors-gold, bronze, silver, copper,

To Keep Milk and Cream Sweet. According to an English recipe when it is difficult in hot weather to keep milk from souring and spoiling the cream, it may be new mlik very gently, without boiling. Cream already skimmed may be kept twentyfour hours if scalded without sugar, and, by adding to it as much powdered lump sugar as will make it pretty sweet, will be good for two days if kept in a cool place. Syrup of cream may be preserved as above in the proportion of one and a quarter pounds of sugar to a pint of perfectly fresh cream; keep it in a cool place for two or three hours, then put it into one ounce or two ounce bottles, and cork it close. It will keep good for several weeks, and will be found very useful in traveling, etc.

Peach Cobbler. Take one quart of flour, four tablespoonfuls of lard or butter, one half teaspoonful of salt, mix with sweet milk or water, as for biscuit; roll thin and line a pudding dish. Mix three tablespoonfuls of flour with two of sugar and sprinkle over the crust; then put in layers three pints of peaches, sliced thin, and now and then a slice of crust. Sprinkle over them one coffee cup of sugar and wet the edges with a little flour and water mixed. Put on an upper crust, press the edges together and make two small openings in the top. Bake half an hour in a quick oven and serve with cream.

A Beautiful Work Basket. Though an article of household necessity, a work basket need not bear the stamp of utility alone. Work baskets are gotten up so handsomely and in such a variety of attractive styles that many of them are quite as decorative as they are useful. To this class belongs the pretty standing basket repre-

A WORK BASKET.

The framework is of bamboo, and the gathered bag is of satin of either light or dark shade. Lace edges both top and bottom of the bag, as well as the lower portion of the frame. The bows are of satin ribbon, and a large spray of artificial flowers at one corner | are purely vegetable; small and easy to furnishes further decoration. The whole makes a very light, dainty and convenient affair.

A profuse trimming of picot ribbons on rush, bamboo or wicker is a feature of many baskets.

Putting Up Pears, E:c.

In putting up pears, quinces, citrons, cherries, etc., many housekeepers prefer to boil them until tender, as they will harden if put directly into a very rich syrup. When tender the fruit should be carefully transferred to a platter, and the water or syrup it was boiled in used, with the remainder of the sugar and enough more water to maintain the proper proportion, to make the richer syrup. When the syrup is quite clear the fruit can be added and boiled slowly a shorter or longer time, according to the variety.

A Good Way to Cook Onlons. Lovers of onions will find that by boiling them in two waters and draining them much of the objectionable odor will be removed; add a little milk to the second water. Then put them in a stewpan and simmer for a few minutes in a sauce made as follows: Put butter the size of an egg into a saucepan, and when it bubbles stir in a scaut half teacupful of flour and stir well till cooked; add two teacupfuls of thin cream, some salt and pepper, and stir over the fire till smooth.

One Thing and Another. A lemon cut in half and rubbed over the

kitchen table will remove the grease.

Use only the best cider vinegar in making pickles, and heat them in a porcelain kettle. Frozen lemonade: To one quart of rich lemonade add the whites of six eggs beaten stiff; mix well and freeze.

When cleaning gilt frames the gilt will sometimes come off with fly specks. The spots should be touched with a little gold paint applied with a soft camel's hair brush.

A handy furniture polish, highly praised by a housekeeper, is a mixture of olive oil oue part and vinegar two parts. Apply it Rub dry with another cloth of the same ma-

Scientific authority claims that it is a mistake to clean brass with acid, as it soon be- sumed that Gould's nerves will be kept comes dull after such treatment. Sweet oil steady if the most enlightened treatment and putty powder, followed by soap and can accomplish that result water, is recommended as one of the best mediums for brightening brass or copper.
