FRONTENAC ELECTION.

Mr. Patterson requests the publication of the following letter addressed to the conservative organ :

KINGSTON, Sept. 20.—(To the Editor): Permit me to say that I did not feel personally aggrieved in any way at not being the choice of the convention. So far from desiring or expecting it I had no intention of becoming a candidate, my time being fully occupied with other and more lucraative avocations. Nay, on leaving the convention, and even the next day, I firmly refused many friends who wished me to run, tation of a large number of the most influential men from the different townships composing the riding that I consented to come out.

So far from coveting the position I have always said, and say so now, that I would | ferers. If we bought our respect of the people; and I will willingly retire in favour of any eligible man. But when I found that not one of the twentytwo Pittsburg delegates had received a a notice, and that such men as R. J. Dunlop, J. P. Bower, John Tierney, Robert Anglin and others had been deliberately ignored, I think I could naturally presume the business was hardly square. Storring similar treatment.

Again, when on the second ballot the total number of votes was one hundred and one, and on the next, when nine islanders and eight out of the possible original one somewhat similar to the widow's cruse of oil, and that while the more you took out the fuller it became there must be a gerrymander somewhere. Remember it was not to Mr. Smith I objected, far from it; it was the outrageous manner in which the convention was packed that caused my withdrawal. Mr. Smith may be a strong man in one sense, but how few people in the front townships know him by sight? On the contrary, I think there is hardly a farmer in the whole county I am not personally acquainted with, while from education, farming knowledge and intimacy with municipal matters, I consider that I can as fairly represent the constituency as any other candidate. Still, as I said before, I am not, extremely anxious about it, and a fair and above Loard convention will find me ready to acquiesce in their choice. I do not think I need say more on the subject, but you will grant I could hardly say less to
