A Suspicion That It Is Carlotto's Has Been Cleared Completely Away.

PROVIDENCE, R.I., Sept. 29 .- A large silk balloon, its car deserted and drifting, was captured on Cumberland Hill yesterday, where it caught among the trees. The address, "Carl Meyers, Mohawk, N.Y., was found on it, and a bit of a Buffalo newspaper pinned to the basket on which was pencilled " Met our death in the clouds."

Poughkerpsie, N.Y., Sept. 29.—Charlotte, who made a balloon ascension here yesterday, says : "On the 26th Leona Dare and Carlotta, wife of Carl Myers, were to have a balloon race from Syracuse yesterday. Carlotta was to make an ascension from Lockport. The name found on the lost balloon is that of my manager, Carl Myers. I cannot believe Carlotta or Dare are hurt, though may be. Either one could have met death in the clouds if they saw they were going to land in a bad place, either on land or water, and death being certain they would Thompson's own barn only a short distance have time to pencil something and then from Keene. But of that anon. jump out. I haven't heard anything in re lation to the matter, which makes me think it cannot be either of them, though it seems to be Carl Myers' balloon. listened to a speech by the star-eyed goddess of reform, Henry Latterson, and it was perfectly evident to me when he got front of me was a party of gilded youth who through that the republicans had no hand had evidently been dining and were out to in saving the nation from disruption, but that the present prosperity of the country was secured by the bright editor from Kentucky and his friends, for which information was becomingly grateful. When he got through I saw clearly that the republicans were the bitter enemies of the workingman -that the end and aim of their policy was to rob him, and to play into the hands of the bloated bondholder. Colonel Watterson made this so clear that I went home wondering bow same men could consent to ruin their country by voting the republican ticket. Bent on getting both sides of the question next night attended a republican meeting, and after listening to an oration of an hour and a half on the tariff, and its bearings on the poor man's life, I went home fully convinced that every demograt was a public enemy, and the best thing one could do with him was to shoot him on tight! evening in the Casino, and immediately in make a night of it, and were bent more on ogling the pretty girls of the ballet and chorus than on listening to the lively music of Von Suppe. Their conduct was sufficiently boisterous to call forth the remonstrance of the usher, and it was not till an officer was stationed at the end of the aisle that they stopped annoying the audience and the people on the stage. Their main efforts seemed to be to attract the attention of a sweet, saintly little creature who stood near the front of the stage, but they might as well have signalled a marble statue. She seemed to have no more idea of her surroundings than if she had been made of stone. At last the chorus struck into a wild strain, and as it finished she started to the middle of the stage and burst forth in a doed of melody that fairly electrified the house. The young men in front of me were wild, and the tallest and handsomest man of the party rose, and, balancing himself, stepped forward to the orchestra and threv her a magnificent bouquet to which was attached his card. The man was Fred, May, at that time one of the foremost figures of the town among our fast young men. He was even then on the broad highway to ruin, which culminated some months ago when he tried to kill a policeman. He had been en a drinking bout and stood on Park Place, grossly insulting every woman who passed. A policeman came up and told him to move on. May struck him and nearly knocked him down. The policeman drew his club and May drew his pistol; he fired one shot and then the policeman struck him with his club, laying open the whole side of his face from his eye to his chin, and destroying his beauty forever. He was indicted for felonious assault, which involved the penalty of state's pason. It took some time to get bail for him, which was finally furnished by the man he horsewhipped, James Gordon Bennett, with the understanding that the bail was to be forfeited, which i was. And so passes from sight a central figure in our fashionable life, a ruined drunkard and an outcast and a fugitive from jus-

tice, before whom state's prison yawns should he ever revisit his native land. Strangely enough the young girl who made such a sensation on the night I speak of entered a convent over a year ago, and four weeks since took the black veil to be-

come a recluse forever. Last week her theatrical wardrobe was sold; a rare collection indeed it was, and in sad contrast with her present sombre condition. Here were silk and satin dresses, bright covers of tinsel and paste diamonds. fiashy velvet jackets embroidered in silver and gold, silk tights and rainbow hues, and trinkets numerous and beautiful. The gaping crowd bid eagerly for the tinseled gewgaws, not thinking of the former owner. Perhaps while the harsh voice of the auctioneer called -Going, going, gone ! these flaunting vanities-Sister Felicia, as she is now known, was counting her beads in her silent cell, hoping and dreaming of the better life. - Truly yours, BROADBRIM.
