ON THE RESULT OF THE PRESIDEN-TIAL ELECTION.

is a Matter Touching Which Sir John Declines to Take the Public Into His Confidence.

OTTAWA, Nov. 8 .-- The Republican victory in the presidential election has caused no excitement here, the general opinion appearing to be that it makes no difference to Canada, as now that the elecnegotiate with the Republicans as it would will be allowed to go by default. All other have been with the Democrats, had they won. An attempt to interview Sir John was made yesterday afternoon, but he was too cautious to express any opinion on the result. The fo'lowing is the interview as published in The Journal

"What do you think of the result ?" "I have no opinion to offer on that point," replies Sir John, with a smile.

"There is an impression that the Dominion Government favored the return of Cleveland."

"Not at all, not at all. We were quite colorless on that point as well." Sir John said this with emphasis, and he looked as though he meant what he said.

" I canhot tell the causes which won the election for Harrison."

"And the international difficulties?" "President Cleveland remains in power until March next. What course he will adopt I cannot say. I have no reason to believe the Republicans are hostile to Canada. They favor a protective tariff not unlike our own. There is no great urgency in settling the fishery question. The fishing season is over for this year and operations will not be resumed until next year. "Are you hopeful of a settlement of the difficulty?

"You know I never allow myself to be interviewed," was the response. "The treaty negotiated last year is dead. It was rejected by the United States Senate, not by the Canadians. Of course if negotiations were resumed a new treaty could be framed on the same terms. At any rate the negotiations will have to be commenced anew. The Washington treaty of 1872 was negotiated by a Republican president with a Republican majority in the Sena'e. Is it not reasonable to suppose that the Republicans will manifest in 1889 the same spirit which actuated them in 1871 "
