Daily British Whig. TUESDAY EVEN'G, AUG. 14, 1877. GOLD IN NEW YORK AT 3 o'clock 105 1/2.

CITY AND VICINITY MEETING.—The Directors of the Frontenac Agricultural Society are summoned to meet in the Secretary's office on Saturday, 18th inst.

REMOVAL.—Mr. Abbots has removed to Ottawa, where we hope he may have good success in the photographic business. He is an artist in good standing.

CRICKET.—The "Wanderers," of Montreal, played the K.C.C. here to-day. The Montreal team went first to the bat and made 72. The K.C.C. had made 64 at time of writing, with five men out.

EXCURSION.—To-day Adams Centre band had an excursion to Kingston via railway to Cape Vincent and Maud to Kingston. The party numbered about 500—a large but most agreeable company.

ILL WITH FEVER.—Captain Morden, of the steamer "Pictou," formerly of the "Maud," in the Bay of Quinte, is suffering from an attack of intermittent fever. He is lying under medical treatment at St. Catharines.

MATCHES.—The Belleville Cricket Club has written to ask from the K.C.C. the use of the latter's ground for a match between the Oswego and Belleville Clubs. Of course the request will be complied with.

TONGUE.—Women have the reputation of possessing very active and energetic tongues. And the statement is sustained by the evidence taken in two cases of abusive language to-day.

FREIGHTS.—We believe there is considerable enquiry for grain vessels, and freights are advancing accordingly. Of up freights, however, there is a scarcity, consequent upon the ruinous effect left upon trade by the recent railway and coal mining strikes.

THE LEAD WORKS.—The work is progressing favorably on the buildings and apparatus for lead smelting. Operations will be commenced shortly. It is calculated that the Company will have about fifty tons, in bars, ready for delivery next month.

THE MASS MEETING, for which arrangements have been made by the Y.M.C.A., and in the interests of Sabbath Schools, will be held on Monday evening in the First Congregational Church. Addresses are to be delivered by distinguished speakers.

O'BRIEN'S SHOW.—O'Brien's Great Consolidated Show made a parade through the streets of Ottawa yesterday forenoon. The cavalcade included three band wagons, huge elephants, great giraffes, and an immense number of caravans.

OIL TANKS.—Messrs. McMill, of Montreal, are having very large iron tanks built by McEwen & Son, for carrying oil from the wells in the west to such places as the consignment may desire. The contract is a very large and important one, and many men are employed upon it.

VISITING.—The Church of England Temperance Association of Pictou will have an excursion to Rockwood on Thursday, Aug. 16. At the asylum the visitors will be met by the Kingston Temperance Union, and addresses will be delivered by the Revs. Messrs. Kirkpatrick, Carey and Baker. The excursionists will be accompanied by the Mohawk brass and string bands.

MASSAGE.—To-morrow, Wednesday, the Masonic excursion to the camp ground, will take place. The Maud is going, and one of the most agreeable parties which has left Kingston this season. The run down the river is always delightful, but this year the route is increasing in popularity, as the crowded boats which pass or leave the city so clearly testify.

A SLEAZER.—The Belleville Ontario says many unkind things about Kingston and Kingstonsians. It also takes a drive at our columns, whose seedy appearance and seedy hacks have offended a number of our contemporary's staff. But our hacksmen must not be put out about it. They should visit Belleville, and see the rickety concerns that did service before the street cars commenced business—not hacks, indeed, but dilapidated busses.

PROBABILITIES for the next 24 hours: For the lower lake region stationary or slightly falling barometer, moderate to fresh winds and fair weather with local rains, followed to-morrow by rising barometer and cooler northerly or north westerly winds. For the St. Lawrence: moderate winds and fair weather, with local rains. For the Maritime Provinces: moderate easterly to northerly winds, and cloudy weather with rains.

COMPLETED.—We understand that Dr. Dupuis has just completed the sale of his upper lot on Brock street for the sum of \$2,000. The Methodist Episcopal Church in Canada are the purchasers, and they intend to erect upon it a beautiful and commodious church in modern style, to cost somewhere in the neighbourhood of \$20,000, plans for which are now being prepared. Who says that Kingston is not going ahead!

INDEED.—Mr. John Taylor, the Chief Engineer of Belleville Fire Brigade, was here to-day and trundled up street in a hack after the steam engine. John is so accustomed to attend fires that when the alarm struck he was off "like a streak of greased lightning." Some one must have known he was in town, and wanted to see how he stirred himself among hose and engines. He must make allowance for the delay in getting the fire apparatus to work. Firemen horses were absent pic-nicing.

WIND WAFFS.—O'Brien's great show made a grand entrance into Ottawa yesterday. Chicago charters to Kingston—Schra. Mary Copland and Hammond, corn at 60. Stratford's civic holiday, 15th. Port Hope's was on 13th.

Parties are in the city to-day arranging for the despatch of a working party (Messrs. Calvin & Brock) to raise the schr. Lillie Parsons, coal laden, sunk at Brockville.

The tug Elwood, having broken her cylinder head, the tug Lady Franklin went to her assistance and brought the disabled boat and her barges to this harbour.

Passed through the Welland Canal: Sweden, Lake Superior, Kingston, Timbier; Prince Alfred, Cheboygan, Colby Bay, timber; Mary Lyons, Chicago, Kingston, corn; Ella Murton, Toledo, Kingston, timber; Two Friends, Toledo, Kingston, corn; barge H. F. Church, Chicago, Kingston, wheat; D. R. Van Allan, Dresden, Quebec, timber; Canada, Milwaukee, Montreal, wheat; Armenia, Toledo, Montreal, wheat.

St. Paul's Excursion. The first excursion which the congregation of this church has had for some years was held yesterday. At 1:20 p.m. the Maud left the dock with between 400 and 500 on board.

The first excursion which the congregation of this church has had for some years was held yesterday. At 1:20 p.m. the Maud left the dock with between 400 and 500 on board.

The scenery among the latter half of this part of the trip was fairly enchanting. On reaching Wells Island the boat was received, as usual, by the closing of the gates on shore. About one hundred and fifty landed.

Some sixty cottages have gone up at the Thousand Island Park this season. Until within the past few days, fifty or sixty carpenters, employed at the Park, have been boarding at the dining hall there.

It is a noticeable fact, that no matter how interesting a minister may be preaching, if a person attempts to shut a window, on account of too much draft, three-fourths of the congregation will have to look down.

The care with which the Office of Routine and Records, and the postal service also, is conducted is to be seen in the delivery of official papers. The Hansard reports were received this year by us complete. They have been five months in coming.

Young ladies may indulge in scientific experiments a little by rubbing a ribbon against their black or white silk stockings. The contact is said to generate electricity very perceptibly.

THE BIRTH OF THE CUCUMBER. A seraph was sick with the colic one day. And, weeping, leaned over the moon. The tears, as they fell, dashed lightly away. On the cucumber pinnions of June.

But one, as he drifted along in the damp, sank wearily down to the earth. As trembling lay, 'twas embraced by a camp. And the cucumber blushed into birth.

DIVISION OF ESTATE.—The Halifax Reporter gives the annexed particulars. The decree in the estate of Rev. John S. Clarke, the Episcopal clergyman who died in Ashland in 1870, has been made by Judge Mattice, of Green County, U. S.

It will be remembered that Mr. Clarke left his big fortune in an old trunk, which he bequeathed to benevolent societies. The will, however, was not executed legally, and was set aside. The result now is that the sum of \$23,561.71 goes to the widow, Diana Clarke, of Kingston, and the balance is divided into three equal parts, of which Napanee Clarke, Esq., of this city, brother, takes one third—\$29,978.50.

Two children of a deceased brother, Sophia L. P. Clarke and Walter Clarke, of Halifax, each take \$11,488.27. The remaining third (\$22,978.55) is equally divided among the four children of another brother, James T. Clarke, of New York, Harriet S. and William H. Clarke, of Connecticut, and Charles A. Clarke, of Canada.

A LONG ROWING VOYAGE.—The Utica Observer "observed" on Saturday—This morning two young men, C. Arthur Constock and Ed. B. Green started in a handsome new boat, which arrived last night, to row themselves on one of the pleasantest trips that can be devised. Their course is from Utica to Oneida Lake, to Oswego, to Cape Vincent, to Alexandria Bay, to Kingston, to Brockport, to Prescot and Ogdensburg, to Montreal, and home by way of Lake Champlain, Lake George, the Hudson and the Erie canal.

They carry with them a complete outfit for camp life and intend to spend the night where darkness overtakes them or the desire rises. Their trunks are filled with all conveniences.

MILITARY FUNERAL.—On Sunday the funeral of Robert John Warner, of Derry Lodge, No. 1, O.V.F., took place at Toronto. The deceased, who was one of the Toronto Field Battery, and had been at the Kingston School, died of typhoid fever. A firing party of the Engineers, the band of the Field Battery, a gun carriage horse and driven by comrades, detachments of the Engineers, Field Battery, Tenth Royals, and Queen's Own, and Derry Lodge, all attended. The "Pretence Boys, of which Lodge deceased was also a member, intended to follow the funeral procession, but, as they were their regalia, it would not have been lawful for the troops to take part in the ceremony. They therefore withdrew.

IRON BRIDGING.—Many have been attracted by the beautiful pictures exhibited in the windows of Mr. S. Woods' book store—photographs of an iron bridge put up last winter over Burlington Canal, Hamilton, for the H. & N.W.R.R. It was designed, manufactured and erected by Major Tomoson, Hamilton, and is a creditable piece of Canadian workmanship. People generally are not aware that such work can be done in Canada, and yet this bridge is a monument of the fact. It may be that we shall want a new crossing over the Cataract. Then it may be well to remember some of the information now so freely afforded.

THE IRISH-Canadian pilgrims reached Montreal last night.

CAMP MEETING NOTES. The Science Congress is now in full blast, and was scarcely interrupted by the Sabbath services. The latter were, of course, of a religious character, but the morning had evening sermons were separated by an astronomical lecture by Dr. Phillips in the afternoon, which kept up the continuity of the educational series without at all trenching on the sanctity of the Sabbath. The sermons of yesterday were distinguished by unusual ability.

That of the morning was preached by Rev. Mr. Abbott, of New York, and was a profound and eloquent discourse on the text, "God forbid that I should glory, save in the cross of our Lord Jesus Christ." The discourse in the evening was on the subject of human co-operation with God in the salvation of the world, and was delivered by Rev. Prof. Culwell, of Tennessee.

A solemn feeling pervaded the impressive Sabbath services from the fact of the sudden death during Saturday night of Rev. Elder Baker, of Watertown, N.Y. Rev. Mr. Baker was an aged superannuated minister of the Western New York Conference, and was stated by Rev. Chancellor Haven to have been an indefatigable worker, not only in the Church of which he was a minister, but in every social and Christian reform. He had taken a lively interest in the camp meeting enterprise from its inception, and was present upon the pavilion platform both the evening before his death. He was to have preached two special sermons on Sunday in Gananoque, but was called to his account the evening before. An impressive funeral service was conducted at the dock on Monday morning. Rather a strange sight for a scene of pleasure was the winding of the funeral cortege from the tent to the str.

"Island Belle," on which his remains were conveyed to his late home in Watertown for interment.

The lectures are being fairly attended. The first of the series was given by Rev. Dr. Haven on Friday p.m. At the close of the profound discussion he invited discussion. No one responding a prominent gentleman in the audience was invited to break the ice, and rousing from a pleasant nap he inquired if they wanted him to light a candle to enable them to see the sun! Upon this the audience rose for dispersion, and the worthy Chancellor declared that the meeting stood adjourned. To-day's lecture at 3 p.m. was a most effective one, by Prof. Hansel, of Victoria College. Every one who heard it speaks in the highest terms of the ability which the lecture evinced.

The subject thus popularly treated by Dr. Hansel was other and matter, and was intended as the introduction of another to be delivered on Wednesday by the same gentleman. Of course these lectures do not attract the masses as will the S.S. Parliament, which opens at the Island next week. There promises to be the greatest rush of all at the end of the series.

DEATH OF GEORGE HATCH. The Virginia Territorial Enterprise has the following notice of the demise of Mr. George Hatch, a former Kingstonian (son of Chester Hatch Esq.) whose death occurred at Sacramento on Aug. 3rd:

"A good neighbor, an estimable business man, a loving and kind husband and father, passed away yesterday when George Hatch ceased to live. He was a pioneer of the coast and of the city through an active business life here of fourteen years he endeavored himself to all our people and he will be greatly missed and mourned by the thousands who knew him. He was one of the men who made his name in the world, but his whole life was saved with good deeds. Though he has been on the coast for twenty-eight years, he was but forty eight years of age when he died. He was a native of Kingston, Canada. His health has been much broken for more than a year and, though he has rallied two or three times, it has been apparent for several months that he could not last long. He leaves a wife and four little children, to whom the heartfelt sympathies of all our citizens go out today. The remains of Mr. Hatch will be brought here for burial to-morrow afternoon. The ranks of the old settlers have been sadly depleted during the last year or two, and the loss of an active and familiar to every one is a sorely felt deprivation. Among the less pretentious or more estimable citizens than George Hatch did not exist, and it will be with sincere sorrow that his neighbors will to-morrow heap the clouds upon his coffin lid."

ODDFELLOWSHIP. Time and place and circumstances being duly considered the weary citizen, whose nature rebels against incessant employment, and who desires to compress a large amount of recreation into limited space, and assume a large amount of sightseeing to reasonable expense, must undoubtedly prepare himself for a journey to Montreal with the Oddfellows. There are many reasons for making this decision. The trip will be a long and, at the same time, a short one—long because it covers a vast area of country, and short since a clear road and a good locomotive will tend to make the passage a speedy one. Then there is something to see en route, and much to entertain when Montreal is reached, and, finally, the excursionists will include the most sociable of the city. They may be Oddfellows—old in lodge connection, but just like the rest of us when on pleasure bound—may, they will be old, in so far as they will minister to the comfort of their friends as people are not accustomed to experience. All these are inducements which warrant us in commending the excursion to the favourable notice of the public.

NIAGARA EXCURSION.—Complaint is made that the recent excursionists by train to Niagara were unable to procure refreshments at Kingston station. Complaint is also made in order, and grumbling is an easy occupation. But those who manage these refreshment rooms know how hard it is to arrange matters to the satisfaction of everybody. The restaurant keeper does not know how many to provide for, and should he overestimate his company he may lose more in one day than he may make in a week. Cobourg station was more fortunate in the recent tour of pleasure seekers. Mr. Thomas Carroll, proprietor of the refreshment rooms there, heard of the coming crowds and made extensive preparations therefor, and, as a result, he was neither embarrassed or put to inconvenience. But Carroll is an able caterer, whose judgment and popularity are equally appreciable.

VOTERS' LISTS.—During the past quarter several important changes have been made in the postal system—and a very significant alteration is that applying to the mailing of voters lists. Formerly the law required that they should be posted and registered, and yet there was no means of doing so. For two or three years the lists had to go open matter, but now, through the Kingston Inspector, the Departments have given permission to the Clerks of municipalities to send them by post, and to be admitted to registration within the Province of Ontario, without payment of letter postage.

CASH PAYMENTS.—Paradoxical as it may seem, there are in this season, when the times are held to be so hard, more and better patronized pic-nics and excursions than were ever recorded before. Large steamboats go off on long trips crammed full of people, and the excursion trains, though very numerous, are well filled. These trips all represent cash payments—a certain amount of floating currency which must be expended every year in seeking rest and recreation which all need, though all cannot take it.

MARINE. Parties are in the city to-day arranging for the despatch of a working party (Messrs. Calvin & Brock) to raise the schr. Lillie Parsons, coal laden, sunk at Brockville.

The tug Elwood, having broken her cylinder head, the tug Lady Franklin went to her assistance and brought the disabled boat and her barges to this harbour.

Passed through the Welland Canal: Sweden, Lake Superior, Kingston, Timbier; Prince Alfred, Cheboygan, Colby Bay, timber; Mary Lyons, Chicago, Kingston, corn; Ella Murton, Toledo, Kingston, timber; Two Friends, Toledo, Kingston, corn; barge H. F. Church, Chicago, Kingston, wheat; D. R. Van Allan, Dresden, Quebec, timber; Canada, Milwaukee, Montreal, wheat; Armenia, Toledo, Montreal, wheat.

St. Paul's Excursion. The first excursion which the congregation of this church has had for some years was held yesterday. At 1:20 p.m. the Maud left the dock with between 400 and 500 on board.
