WATCHES!
JEWELLERY!
ROMAINE GOLD, so extensively worn in
Paris, was first discovered in 1870, by the cele-
brated French chemist, M. D. De LANGE,
who manufactured it into Jewellery, and
two years sold it to the leading Jewellers of
Paris for solid gold. In 1875, when his secret
became known, ten of the manufacturing
Jewellers established a stock company, with a
capital of \$100,000 for the purpose of manu-
facturing ROMAINE GOLD, JEWELLERY, GOLD
AND WATCHES. With this immense capi-
tal, and the aid of improved machinery, they
are enabled to produce all the latest patterns
of Jewellery at less than one tenth the cost
of solid gold, and of a quality and color which
make it impossible even for experts to de-
tect it from the genuine.
We have secured the exclusive agency of
the United States and Canada, for the sale of
all goods manufactured from this metal,
and in order to introduce them in the most
speedy manner, have put up assorted sample
