SIGNS OF TI & TIMES. Christ's Coming Kust be Near at

Last evening the third of the course of ermons on the second coming of the Lord was delivered by Rev. W. W. Andrews, in the Catholic Apostolic Church. Surely every christian will say. come Lord Jesus, come quickly, come and relieve us of the miseries of this evil world, come to break the yoke of the captive, come and bring in the new age in which man shall be lifted up into the true divinity. Is not that our cry? But Weber & Co. lead off the piano and he knew well the dangerous ground on which he was treading when he proposed the hands of the Church for the promoto talk of the time of the tion of holiness. until the Battle of Waterloo disappointed the hopes of the people who had come to look upon Napoleon as the Anti Christ. But there came in our country a remarkable movement, the movement of the Adventists, about thirty years ago, and Millar fixed on the year 1843 as the date of the Lord's return. They knew the agitation which prevailed, how thousands forsook their occupations, threw open their stores for every one to help himself, how that men even went so far as to put on ascension robes to meet the Lord as if robes woven by man would be fitted to edorn the bride. But that agitation passed away, and here we are in the year of grace 1877, and the Lord is still at the right hand of God. Did they ask, was he going to repeat these mistakes and subject many to fresh disappointment By no means. He was not going to deolare the time of the Lord's coming, for he did not know it. It was one of the seerets hidden in the Father's bosom. That day or hour he had no means of knowing. They were bound, in every generation of the Church, to keep in the attitude of watchfulness, and the loys; and loving heart will keep on hoping for the return of Christ. It is a sort of stinct which leads the wife to desire the coming back of the absent husband, especially when sorrows are pressing upon her; she knows that when he returns he will lift the bondage which bore heavily apon her spirit. Therefore every one should seek to cultivate an attitude watchfulness, aiding in the good work, for the Church was becoming indifferent to the Lord's return.
