FOR SALE CHEAP

ROMAINE GOLD, so extensively worn in Paris, was first discovered in 1870, by the cele brated French chemist, Mons, D. Be Lainge who manufactured it into jewellery, and for five years sold it to the leading jewellers of Paris for solid gold. In 1875, when his secret became known, ten of the manufacturing jewellers established a stock company, with a capital of \$10,000,000 for the purpose of manu facturing ROMAINE GOLD JEWELLERY AND WATCHES. With this immeuse capi tal, and the aid of improved machinery, they are enabled to produce all the latest patterns of jewerlery at less than one tepth the cost of solid gold, and of a quality and color which makes it impossible even for experts to detect it from the genuine.
