THE EYE, EAR and THROAT **Successfully Treated with** SANFORD'S RADICAL CURE.

CUCCESS is the test of merit, and success in the treatment of Catarrhal Affections, after so many miserable failures, means undoubted specific curative properties in the remedy used. Does SANYORD'S HADROL CURE for Catarrh possess such properties? The evidence, in the shape of unsolicited testimonials from the most respectable people in all stations of life, must be conclusive on this point. Never, we believe, in the history of popular medicines has such valuable testimony been offered, freely offered, in favor of any remedy than that in the possession of the proprietors of farmy one of the properties of friends in its favor. People of wealth and refinement in all parts of the country daily admit its superiority over any method of cure known to the regular medical profession, but shan the publicity incidental to a eny method of curs known to the regular medical profession, but shan the publicity incidental to a published statement. Hence the testimonials in our possession represent but a small part of those withheld for the reason mentioned. The following unselicited testimonial from HENRY WELLS, Evq., of Wells, Fargo & Co.'s Express, is an outspoken indursement of which we are justly proud.

INVALUABLE.

Mesers. Where & Potter. Wholesale Druggists, poston, Mass: Gentlemen.—I have for some months felt it a duty that I own to suffering humanity to write you, stating the great benefit that I have derived from the use of Sanford's Radical Curryon Catabral. For more than 20 years I have been afflicted with this very troublesome complaint. I have tried all the remedies that I could find, but without material or permanent benefit. Last fall the disease had arrived at that state that I must have relief or dise. The cutire membraneus system had become so inflamed, and the stemach so disordered, that it was a doubtful matter whether I dered, that it was a doubtful matter whether I could go to the l'acific coust, or if I did go whether I should live to come back or not. I saw an adver-I should live to come back or not. I saw an advertisement of this medicine, and although being very incredulous about appetities or nestrums of any kind, yet in sheer desperation I tried this, and was at once benefited by it. The changes of climate, a chronic disease of the liver, and my age—over 70—may prevent my entire restoration, but the benefit I derive from its daily use is to me incahable, and I am hoping to be completely cured, and as last arrive at a respectable aid age.

If this statement of my case can be of any service to those afflicted as I have been, and enable you to bring this remedy into more general use, serecially on the l'acide coast (where it is much needed), mi AUBORA, N. Alas for science in our day.

Tom Darley, yet a young man, had grown to be a very hard one. At heart he might have been all right if his head and his will had only been all right; but these being wrong, the whole machine was going to the bad very fast, though there were times when the heart felt something of its own truthful yearnings. Tom had lost his place as foreman of the great machine shop, and what money he now carned came from odd jobs of tinkoring which he was able to do here and here at private houses; for Tom was a genius as well as a mechanic, and when his head was steady enough he could mend a clock or clean a watch as well as he could set up and regulate a steam ongino and this latter he could do better
