MR. ALBERT CROOKER, the well-known druggist and apothecacy, of Springvale, Me., always advises every one troubled with Rheumatism to try VEGETINE.

READ HIS STATEMENT Springvale, Ma., Oct. 12, 1876. MR. H. R. STEVERS :-Dear Sir, -Fifteen years ago last fall I was

taken sick with rheumatism, was unable to move until the next April. From that time until three years ago this fall I suffered everything with rheumatism. Sometimes there would be weeks at a time that I could not step one step; these attacks were quite often. I suffered everything that a man could. Over three years ago last spring I commenced taking VEGETINE and followed it up until I had taken seven bottles; have had no rheumatism since that time. I always advise everyone that is troubled with rheumatism to TRY VEGETINE, and not suffer for years as I have done. This statement is gratuitous as far as Mr. Stevens is concerned. Yours, etc.,

When cheese dairyin; became a new branch industry a few years ago Frontenac farmers showed they could do as well as their neighbors in turning to account new ideas. The new branch of farm industry which is now engaging attention, is the trade in dead and live meat, at present carried on with England, and likely to be extended to France. An idea of its magnitude may be learned from the fact that during the past year eighty-four thousand six hundred and twenty-seven tons of dead meat, and eighty-two thousand eighty hundred and twenty-seven tens of live meat were imported into Great Britain.
