FIRE DEPARTMENT.

The Company commenced business in October, 1861, as a Fire Office, and was called into existence to modify the excessive rates demanded by the combined Offices after Great Fire in Tooley Street, London. The success which has attended the Company's operations has been such as fully to realize the most sanguine expectations of the Directors, and has induced them to extend their operations to Canada, where the General Agents are prepared to take proposals for Insurance against Loss by Fire of Property of every description

. The marked preference shown for an Office which studies the interests of the Public as well as of its Proprietary, induced the Directors to transact Life Business with the intention Property, against LOSS or DAMAGE by | not to favor one class of Policy-holders at the expense of another, but, resolved that the FIRE, on the MOST FAVORABLE TERMS, same liberal views which have gained for the Office the confidence of the Public in and at the LOWEST RATES charged by any | Branch, shall guide them in the management of the Life Department, they extend to the Assured every benefit which science warrants or experience suggests.
