The fact is that one of the chief reasons urged against the Quebec project was that it would deprive the people of New Brunswick of the advantages of the entire control of their own affairs, which they have hitherto enjoyed, and the letter of the Ministry declares that the union proposed " would "lead to the neglect and inquiry of their local "interests." It is needless to point that if the union were made legislative instead of federal sideration; and the conclusion is inevitathat a union with only one legislature would prove far less acceptable to the people New Brunswick than that proposed by the Quebec conference. The allegation that "the difficulties of Canada were the motive "and ground-work of the Confederation scheme, 'that "the union was only sought 'as a means of separating the Canadas," is a false statement, which indicates the pretty character of the members of the pretent New Brunswick Government. No one entertains the least intention of " separating the Cana das," in the sense of the letter and settle ment of the relations of the two Province. can and will be effected, whether Conferation succeeds or fails. THE GREAT WANT SUPPLIED.

It is a well known fact that Physicians have long sought to discover a vegetable purgative as a substitute for Calomel, that would cleanse the Alimentary Canal all diseased and retained humors, as thoroughly as Lobelia will the stomach, without producing sickness at stomach, weakness, or irritation of the mucous membrane.

In Dr. Radway's Pills, this very important and essential principle is secured. A dose of two to six (according to the condition of the system) of Dr. Radway's Pills will produce all the positive alterative change-from a sluggish or torpid, to a healthy action of the Liver-as the physician hopes to obtain by a dose of Blue Pills, or Calomel; and will as thoroughly cleanse the Stomach, and purge from the owels the diseased and retained humors as the most approved emetic, or cathartic without occasioning inconvenience or sickness to the patient.
