THE CHILIAN WAR.

The London Morning Post says:—

The action of the Spanish Government, having been anticipated in Liverpool, the merchants connected with the West Coast trade do not consider the blockade important. They believe that they can carry out copper ore from the blockaded ports as well as cotton was carried from the Southern ports during the late. It is therefore not at all impossible that there may issue from Liverpool as complete a fleet to run the Spanish blockade, as there was to run that of the United States.

The confirmation of the blockade of the Chilian ports caused copper to advance another £10 per ton—making a total rise of £20 in two days.

An influential meeting of merchants and ship-owners, interested in the trade of the West coast of America, was held in Liverpool on the 17th instant. The conduct of Spain was strongly denounced for its buccaneering acts, and a general want of political morality. A resolution was passed to the effect that the meeting viewed with surprise and indignation the course pursued by the Spanish Admiral, and that a memorial should be dispatched to Lord Clarendon, requesting the Government should take prompt action for the protection of British interests. This resolution was unanimously adopted and a deputation was appointed to present a memorial to Lord Clarendon on the morning the steamer sailed.

It was stated in Liverpool that blockade runners had been fitted out, and that it was quiet probable some would sail on the day the Scotia left Liverpool.

The Times says the meeting at Liverpool was one of the most influential commercial meetings ever held in Liverpool. The Times, in a leader, declares that the interest of every kingdom in Europe, as well as every republic in America, demands that the complaints Spain had made against Chili should be authoritatively rebuked. England, France, and the United States cannot suffer the rights of neutral nations to be trampled on. In most of those dangers it is time to have done with the miserable selfishness of an absolute non-interference. A joint remonstrance of the Great Powers cannot fail to recall the Spanish government to the consideration of legal principles, which it seems to have forgotten, to the reparation of wrongs which it has so hastily authorised.

Liverpool, Nov. 18.—A deputation of the Liverpool merchants had waited upon Earl Clarendon in regard to the Chilian troubles, and the interview was a very satisfactory one. There is every reason to hope that the Government will take energetic measures in regard to the matter.

The dead-lock in the Government of Victoria, caused by the refusal of the Upper House to pass the Supply and Appropriation Bill, had been rather cleverly circumvented by the Governor and the party in power. Matters having come to a stand-still, the servants of the Government being unable to get their salaries, though the exchequer was full, for want of authorization, an arrangement was come to with the London chartered Bank, by which the manager, Mr. Brammell, made advances from day to day, the Crown confessing judgement for the amounts, and so, according to the forms of law, feeding the over draughts from the Government balances. Thus an utter break-up of all the the establishments of the colony had been averted. After a fortnight's adjournment, and after payments as above mentioned had been going on for a week, both chambers met again on the 17th September. An address was voted to his Excellency the Governor, thanking him for the part he had taken in saving the colony from anarchy and confusion. The Council passed an address to Her Majesty to interpose her authority. The object, it seems, for which parties are fighting is office, as the instrument where-with they may, by a dexterous manipulation of the new land Act, keep back the public lands from colonists at large.

ATTEMPTED ESCAPE OF A CONVICT AT CHATHAM.—During a thick fog at Chatham on Wednesday morning one of the convicts, named John Milton, attempted to effect his escape from the dockyard extension works upon which he and several other convicts were employed. At the time of putting his plan into execution Milton was engaged in assisting to unload a barge alongside the dockyard-wall, with the usual number of convict warders in attendance. In the fog, he succeeded in eluding their vigilance, and let himself down to the opposite side of the barge into the water, with the intention of swimming to the Upnor side of the harbour, when on landing he might have escaped through the woods. After swimming out into the middle of the river, and not been able to see before him for the fog, he became alarmed, and his woollen clothes being filled with water, and very heavy, he would soon have sunk had not his cries directed attention to him. A boat was immediately despatched to his assistance, but in the meantime he had been picked up by a waterman's boat passing over the spot. He was immediately taken to St. Mary's Convict Prison, where he will undergo the usual punishment inflicted on convicts who attempt to escape. It is somewhat remarkable that only one convict has ever effectually succeeded in making his escape from Chatham, although there have been numerous attempts. In the case referred to the convict got away during a very thick fog.—London Times.

*** Our readers will perceive that this convict was taken back to his prison and there punished. He will not be brought to the Assizes and there tried and punished again. In England one punishment for one offence is considered enough.

QUEEN'S BENCH.—*Jno Waddell, plaintiff, vs. Thomas A. Corbett, William Anglin, Samuel Anglin, Charles Gay and others*, defendants. This was an action brought by the plaintiff against the defendants for trespass, in which plaintiff claimed $6,000 damages. There were demurrers to the justification pleaded by the defendants, which were argued before the Court during the present term at Toronto, and the Court has decided in favor of the plaintiff.

*** The above is taken from the Dispatch, alias the British American. What a humbug to call this a Judgment for six thousand dollars, or for six thousand cents! The demurrer referred to affected one of the defendant's pleas, (one out of thirteen) and because the Court thought one of the pleas no answer to the plaintiff's cause of action, the Court on demurrer so decided; and the fact forsooth furnishes the British American with an item; and Sir Henry Smith, Q. C., with an opportunity to puff himself to the prejudice of others in the public market! Alas! for the dignity of Canadian Knighthood.

RAIN.—A good jolly old fashioned Rain, a thing so much wanted to fill the wells and the swamps, fell on Sunday night, and has done an infinity of good. Now, we may look for Winter Sleighing.

THE COMMERCIAL COMMISSION.—Mr. A. M. Delisle left for England Saturday evening, as one of the Commissioners to be authorised by the Imperial Government to enter into a commercial treaty between the West Indies and this province. The Commission is now composed of the Hon. W. Macdougall, Hon. T. Ryan, and Messrs. Dunscombe and Delisle.

STRANGE OCCURRENCE AT PALMERSTON'S GRAVE.—It is stated that when the Dean of Westminister pronounced the words, "dust to dust, ashes to ashes," over the grave of Lord Palmerston, the chief mourner, as a last precious offering to the dead, threw into the grave several diamonds and gold rings. Another account states that the vault was so constructed, that it would not permit the throwing in of any earth at the solemn portion of the funeral service. This novelty attracted a great deal of notice, and was received with various degrees of approbation. To some it appeared a great improvement, as taking away all the earthly hideousness of burial; but others thought that the traditional solemnity of the grave suffered when the dread words, "Ashes to ashes, dust to dust," are not accompanied by the usual symbolic pelting of earth on the coffin. The chief mourner responded to the words by casting several valuable rings into the grave.

Of all the places in the world a Penitentiary would seem the most unlikely to be broken into by burglars. Yet on Wednesday night last week, the Provincial Penitentiary at St John's was broken into by robbers who stole a gold watch and chain valued at $125 from the apartments of one of the keepers. No clue to the thieves has been yet discovered.—Nova Scotia paper.

Mr. Pope, Provincial Secretary of Prince Edward Island, has sailed for England, where he is to meet the other colonial delegates who are to be nominated by Great Britain as commissioners on colonial trade.

It is reported that General Michel has been informed of the contents of the papers seized on the Head Centre of the Fenians in Ireland, and this is the reason why the rifles numbering about 600 men, have been concentrated at Isle au Noix, to be ready for any attempt of the Fenians by way of Lake Champlain.

NEW FURNITURE FOR THE PUBLIC OFFICES.

PARLIAMENT FURTHER PROROGUED.

Ottawa, Dec. 2.

Mr. Chapais has arrived here.

A large quantity of new furniture is about to be manufactured for the government offices under the direction of the Board of Works.

The river is still open, but very little freight is offering, so that the Montreal boat has ceased running.

To-day the weather is mild half snow and half rain.

The Canada Gazette of to-day contains a militia general order directing all correspondence, except on finance, to be addressed to the Brigade-Majors of the respective Districts.

The names of twenty-eight new insolvents are published.

The discount on American invoices is declared to be 32 per cent for the ensuing week.

A proclamation appears further proroguing Parliament till the 15th of January, not then to meet for the despatch of business.

LATEST FROM MONTREAL.

THE ASSAULT UPON AN EDITOR.

MEETING OF FRENCH CANADIAN CITIZENS.

ATTEMPTED BURGLARY ON FRIDAY NIGHT.

Montreal, Dec. 2nd, 1865.

It is rumoured that one of the editors of Le Pays has been assaulted, while sick in bed, by two French Canadians, in revenge for an article published in that journal.

M. Lauctot, editor of the Le Pays, has procured warrants against M. M. Marchand and Chapoleau, advocates, for assault, with intent to do grievous bodily harm. The case comes up on Tuesday.

Canadian artisans have formed a charitable and patriotic association. At the meeting, Mr. Chauveau referred to the want of perseverance amongst French Canadians, and pointed to Scotchmen, who by esprit de corps and tenacity attained honorable positions.

Last night the office of Mr. J. G. Beard, McGill street, was shut up by the clerk, who shortly after returned to get his coat. When opening the door, thieves jumped out of the window, leaving a bottle of powder, dark lantern, &c. They had tried to open the safe, in which was nothing.

A fire occurred this morning in the grocery store of Mr. John Martin, St. Antoine street, and in the office and engine-house of Mr. Gardner, near the canal.

A co-operative grocery store, on temperance principles, has been opened. The shears are chiefly held by tradesmen.

The Harbour Commissioners made a trip in a steamer, with a spar attached, to represent the depth of the water. It was proved, beyond doubt, that vessels requiring twenty feet can sail from here.

Ex-Sheriff Delisle has been appointed one of the commissioners for the trade negotiations with Brazil, West Indies, &c. He left for England last night.

Mr Devlin is to appeal to the Court of Queen's Bench, now in session, on Monday, for a writ of habeas corpus for the kidnappers, to admit them to bail.

The duty collected here last month was over $100 000 more than during the same month last year.

In the Superior Court, $100 with full costs, was awarded against a clergyman for marrying a girl aged 18. He did not ask her age, and the license had been obtained by false representations.

Such a storm arose in the Court of Appeals between a Judge and an Advocate, that it had to be adjourned.

Mr. McGee has received a large requisition to speak at St John's. He agrees to address them next Thursday. Subject:—"British America."

C. G. B. Drummond, graduate of McGill University, has been appointed Vice-Consul General for the United States in Canada. Mr. Potter will be in Washington for some time. He is not to be removed.

The latest arrival here of a sea vessel was on the 5th December, 1857.

By a Militia order, all correspondence, except on the subject of finance, is to be with the Brigade-Majors.

A fire broke out early this morning at the Novelty Iron Works, Griffintown. The office and engine room were totally consumed with a number of valuable books and papers, but the property was insured.

Washington, Dec. 4.—The galleries of the House were densely crowded with ladies and gentlemen. Much good humor prevails among the members. At noon, Mr. McPherson, clerk, proceeded to call, as required by law, the roll of the members elect. While the roll was being called, Mr. Maynard, of Tennessee, whose name was not set on the roll by Mr. McPherson, wanted to suggest something, but the clerk refused to be interrupted. After the call was completed Mr. Maynard again rose to speak, but the clerk again ruled him out of order. One hundred and seventy-five members answered to their names.

Chicago, Nov. 3.

At three o'clock last night a fire broke out at the furniture store of W. W. Serving, at No. 203, Randolph street. The loss of stock of furniture amounted to about $100,000, and on the building $10,000.

San Francisco, Dec. 2.

Trade very dull. The rainy season has interrupted transportation to the interior. While the Western market is stocked with goods, leading imported articles are unchanged. Petroleum sells at 84½c. Barley is firm at $1 07 to $1 10. Wheat $2,02½. Freights dull. Money plenty. Stocks depressed.

Fort Monroe, Dec. 1.

Several ordnance pieces are being shipped to West Point, consisting of the Whitworth, Gatling, Parrott, Coffee-mill, and Williams' revolving gun. The latter is a rebel relic.

The gale in this vicinity has been very severe.

New York, Dec. 4.

The last advices from Honduras, by way of San Salvador, report notable political changes.

The insurrection in the department of Olotitche has terminated.

The question of capital punishment is attracting much attention in Honduras.

THE ST. JOHN EXPLOSION.

INDIAN OUTRAGES IN KANSAS.

A BURGLARY, WRECK &c.

New York, Dec. 2.

Clara T. Cunningham, a daughter of the late John F. Cunningham, who died in consequence of scalding received by the explosion of a boiler on board the steamer St. John, expired this morning from the same cause. She was a sister of Mary E. Cunningham, whose death this week also from the effects of burns received on the St. John, has been reported. Mary was 13 years old, and Clara's age was 11 years. The girls, with their father, were three of four members of the family, who were on board at the time of the disaster. Miss Cunningham, the fourth, will probably recover. This death is the seventeenth known to have been caused by the explosion.

Lawrence, Kansas, Dec 1.

A party of about 200 Cheyenne and Apache Indians attacked a coach on butterfield's Express route on Sunday last, near Downes's Spring, and killed six of the passengers and the Express messenger, named Merwin. After burning the Express coach, the Indians went to Downes's Spring and Bluff stations, and burned all the buildings around them and destroyed all the goods stored in them. They also destroyed a considerable amount of other property.

One of the passengers killed three of the savages, but was afterwards shot, his heart cut out, and his body burned over a slow fire.

MORTGAGE SALE OF VALUABLE CITY PROPERTY.

CLEANLINESS!

A Stove most brilliantly polished in two minutes for less than one farthing.

W. C. NIXEY'S

CELEBRATED REGISTERED

Black Lead.

A NEW DOMESTIC DISCOVERY.

Cannot be wasted, and is a preservative of Furniture from the injurious effects of the common article now in use, as it creates no dust, and requires comparatively no labour. Sold everywhere, in Solid Blocks, 1d., 2d., 3d., 6d and 1s.

The Advantages of the Elegant Chemical Preparation are great saving of time, cleanliness of application, smallness of quantity required, and the prevention of waste, dust, and its destructive consequences. Further, it ultimately produces a pure metallic coating of a high degree of brilliancy and durability, reflecting both light and heat. (See specimen on the sides of each block.)
