DR. WILLIAMS' PINK PILLS FOR PALE PEOPLE

Are a BLOOD BUILDER and NERVE TONIC. They supply in condensed form ALL the substances needed to enrich the blood and to rebuild it. Nerves, thus made them a certain and speedy cure for all diseases arising from impoverished blood, and shattered nerves, such as paralysis, spinal disease, rheumatism, sciatica, loss of memory, erysipelas, palpitation of the heart, scrofula, chlorosis or green sickness, that tired feeling that affects so many, etc. They have a specific action on the sexual system of both men and women, restoring lost vigor.

WEAK MEN

young and old, suffering from mental worry, overwork, insomnia, excesses, or self-abuse, should take these PILLS. They will restore lost energies, both physical and mental.

SUFFERING WOMEN

afflicted with the weaknesses peculiar to their sex, such as suppression of the periods, bearing down pains, weak back, blemishes, etc., will find these pills an unfailing cure.

PALE AND SALLOW GIRLS

should take these Pills. They enrich the blood, restore health's roses to the cheeks and correct all irregularities.

BEWARE OF IMITATIONS. These Pills are sold by all dealers only in boxes bearing our trade mark, or will be sent by mail, post paid, on receipt of price—50 cents a box or 6 for $2.50.

THE DR. WILLIAMS MED. CO.

Brockville Ont. or Schenectady, N.Y.

WERE MISUNDERSTANDINGS.

BETWEEN LORD DUNRAVEN AND THE VARIOUS COMMITTEES.

Two Men Were Sent to Lord Dunraven to Act in the Matter—The Valkyrie Will Soon be Ready to Leave for Home—The Defender Off For New Rochelle.

NEW YORK, Sept. 14.—Valkyrie was towed to the Erie Basin yesterday, reaching there shortly before ten o'clock. She did not enter the dry dock, but was moored in a slip and began at once to strip off her racing rigging. Her topmast was soon housed and then lowered to the dock and in an hour practically all her running rigging had been stripped off. On board her tender the City of Bridgeport, the sailors were packing up their belongings for removal. Defender, gayly decorated with flags and in tow of the tug Wallace B. Flint left Bay Ridge about 11:30 o'clock, presumably bound for New Rochelle.

According to the statements of Lord Dunraven the regatta committee of the New York yacht club and the America's cup committee, the unfortunate muddle which has been the outcome of the races for the cup between Defender and Valkyrie III, which ended in a victory for Defender in one race won by sailing, another by a foul and a third on a walk-over, is due to misunderstandings on both sides. Lord Dunraven asserts that he did not get any answer to a letter requesting certain concessions by the committees, and that the committees fully understood that unless he did receive such answer he would appear at the line yesterday, cross and retire, giving the race to the Defender. He also says that he did not understand the address of the two committees and was somewhat delayed in his sending letters.

Commodore Jas. D. Smith, chairman of the America's committee, said that he had read the interview with Lord Dunraven and that there certainly seemed to be a misunderstanding. He said that the committee did meet to take action on Lord Dunraven's letter and sent A. Cass Canfield and J. B. Busk to him as a sub committee to make all possible arrangements. The meeting took place at a little after nine o'clock on Wednesday when the answer of the committee to the letter was given verbally.

Valkyrie Prepares to Leave.

NEW YORK, Sept. 14.—Whatever doubt may have existed as to Lord Dunraven's intentions of racing Valkyrie in this country again, was dispelled by Maitland Kersey. When seen by a reporter he said:

"No, the Valkyrie will never race again on this side of the Atlantic. The races are over, and that settles it. I have nothing more to say on that point."

"It was rumored that Lord Dunraven intended to start for Niagara Falls," said the reporter.

"If that is so the rumor is false. He is still in this city. He may go to Newport in a day or two, when, I cannot say. I have not heard anything about the Niagara trip."

Mr. Kersey, speaking of the offer of Col. Taylor, of Boston, said that as Lord Dunraven had decided not to race his yacht again in America, it would be idle to discuss that or any other offer.

ARE SEEKING CHARTERS.

The Gazette Has Many Applications—Deposits in Savings Banks.

OTTAWA, Sept. 14. — To-day's Canada Gazette contains a number of applications for charters:

Hon. John Beverley Robinson, Sir Melville Parker and others of Toronto, are applying for incorporation as "The Bicycle Accident Repair Company," with a capital of $10,000.

Harry Abbott, Q. C., Montreal, with several New York capitalists, are promoting the "American Tobacco Company of Canada," whose capital is to be $1,000,000.

Incorporation has been granted to Messrs. T. G. Brigham, A. Gerard, Geo. Roe, G. D. Cunningham and A. R. M. Boulton, of Ottawa, as the "Chaudiere Machine & Foundry Co.," capital, $15,000.

Leo Norman, Fred. Masters and J. F. Clemee, English gentlemen, representing British capitalists, are here on their way to the coast to look into mining interests there.

Deposits in the dominion government savings bank during August amounted to $314,088. There was withdrawn the sum of $257,862, leaving on deposit at the end of the month $17,706,921.

The return of Henry Powell as member of parliament for Westmoreland, N.S., will be gazetted to-day.

BRITISH CONSUL STONED.

Mob at Wen-Chow Does Violence—Inquiry At Ku-Cheng Obstructed.

SHANGHAI, Sept. 14.—The British consul at Wen-Chow, in the province of the King, has been stoned by a mob. Literature inciting against the English has been circulated by the officials.

The inquiry at Ku-Cheng is being obstructed by the tactics of the officials, headed by the viceroy, who is trying to exonerate the prisoners in the face of the most damning testimony.

Fires at Brockport.

BROCKPORT, N.Y., Sept. 14.—An alarm of fire was turned in shortly after midnight, and the firemen found a blaze in a pile of rubbish which had been moved from the Morgan harvester works to make room for the Roby wheel works, which are to occupy the building. The fire department had hardly reached their quarters, before another alarm was sounded. This proved to be the Morgan foundry, occupied by the Clark sulky works. This was burned with all its contents. It was thought that the Morgan harvester works were doomed, but the fire department saved the building. The cooper shop was found to have kerosene on it which would give the idea that it had been intended to burn the plant out.

Discovered by Chance.

QUEBEC, Sept. 14.—Detective Walsh has just discovered the perpetrator of a bold robbery which took place here in May, 1889. Seven valuable gold watches were stolen from Donahoe's jewellery store and search made at the time, both in Montreal and this city, proved fruitless until recently. Detective Walsh, by a mere chance, discovered one of the watches and traced the robbery to an individual named Jack Cotter, a jail-bird, now serving a term of imprisonment in jail for robbery. Cotter sold the watches to an hotel keeper for $30. The courts will take immediate action in the case.

A Vessel Destroyed By Fire.

NORTHAMPTON, L.I., Sept. 14.—There is reason to believe that some vessel was burned at sea off this village, Thursday night. Nothing definite can be learned yet as no wreckage has come ashore to indicate whether it was a steamer or a sailing vessel. The fact that a thunder storm prevailed at the time has led to a belief that the vessel was struck by lightning and set on fire.

A New Cabinet.

VIENNA, Sept. 14.—A new Austrian cabinet has been formed as follows: Badeni, president of the council and minister of the interior; Belinski, minister of finances; Gleispach, minister of justice; Ledebur-Wichein, minister of agriculture; Glunz, minister of commerce; Czutsch, minister of education, and Welscheriheim, minister of national defence.

Dying By Thousands.

PARIS, Sept. 14.—The Eclaire publishes despatches from Madagascar, which assert that 3,000 French soldiers have died there since the French expedition began operations against the Hovas. The dispatch also say it is not likely that Antanarivo, the Hova capital, will be occupied by the French before spring.

Has Been Recalled.

BRUSSELS, Sept. 14.—Capt. Lothair, at whose order the British traitor Stokes was hanged in the Congo country, has been recalled to Brussels to give an explanation of Stokes' execution.

Wells, McLeod, Brown and Gibbons, four Toronto flyers, have entered in the class B. contests for the local bicycle meet.

BLOODY TIMES IN CUBA.

The War is Now Going on With Vigor—Spaniards Repulsed.

NEW YORK, Sept. 14.—Sympathizers with the Cuban revolutionary movement in this city have received a letter from Cuba which states that Jose Flores, a lieutenant under Col. Rodrigues, of Gen. Maceo's division, made an attack Sept. 7th, upon a force of Spaniards in the village of Caimanera, about ten leagues from the city of Guantanamo. After a short engagement the insurgents were victorious, capturing twenty prisoners, 200 stands of arms, 50,000 rounds of ammunition, stores and provisions in large quantities, and medicines and clothing.

The loss on the side of the insurgents was unusually heavy, one sergeant and fifteen men being killed and fifteen men and officers wounded. It is not known exactly what the Spanish losses were. The Spanish force was of the Valencia contingent, who acquitted themselves with credit in Spain's Morocco campaign.

Lieut. Flores paroled the captured Spaniards and sent them under guard to the Spanish lines. It is understood in Cuba, the letter says, that the insurgents have arranged for the purchase of a Peruvian man-of-war, fully armed, and it is stated a retired American naval lieutenant has received an offer of the command. It is positively stated also that several French and Belgian syndicates have offered to furnish money to the insurgents.

To Protect American Mines.

BALTIMORE, Md., Sept. 14.—The vessels which arrived in Baltimore from Cuba this week report that the Spanish authorities have ordered troops to protect the iron ore mines of the Juaregua and the Spanish-American companies, both American-owned properties. The same sources of information state that there is increased apprehension over the ability of the Spaniards to protect the mining property. The mines are in a section of the island which is filled with filibusterers. During the early stages of the troubles on the island, the insurgents stole hundreds of pounds of blasting powder.

Recently a steamer went from New Orleans to the mines with lumber to build a barricade around them. Now troops have been ordered to protect the property from the filibusterers. If the Spanish troops are not able to cope with the situation American troops will probably be called on to protect the American property.

A Very Stern Fight.

SANTIAGO DE CUBA VIA KEY WEST, Sept. 14.—Particulars have just reached here of the engagement between the forces of the Garrido and Gomez and Jose Maceo at Savigne of the 30th ult., wherein the loss of life was very heavy. A Spanish column of 850 men of the regiment of Simancas, 400 guerrilas of Guantanamo, under commander Garrido and Capt. Gomez, with two pieces of artillery, met the vanguard of Jose Maceo's forces a short distance from camp "Santa Maria Savagne," near Ramon de Las Yaunguas. The Spaniards attacked the skirmishing party, the fighting continuing all the forenoon. The Cubans retreated slowly to the foot of the high hill, on the peak of which their camp was located, drawing the enemy on.

Maceo with 1,200 men watched the fight from his well-fortified position on the hill top, his near presence being unsuspected by the Spaniards. At break of day, Saturday, 31st ult., the Spanfards resumed the attack, placing themselves along the bank of a creek at the foot of the hill. When the engagement was at its height Maceo sent part of his force of 1,200 down the opposite side of the hill and surrounded the enemy. Hemmed in on either side the Spainards fought desperately, and for some time the list of slain grew rapidly. Antonio Maceo, who was in Escandel, ten miles from the scene of the conflict, learning that his brother was fighting the Spaniards, sent 500 cavalrymen to his aid. With this additional force Jose Maceo soon had the enemy whipped and retreating, but it was not until after eight hours of hard fighting. The Spaniards' loss was about 100 killed and wounded; two officers lost their lives and nine were wounded, among them Capt. Gomez, of the artillery, whose wounds will probably prove fatal. He was brought to this city last night, with many others who were crippled in the battle. The Spaniards, in their official report, confess to twelve killed and fifty wounded. The rebels lost fifteen men and thirty were wounded.

Gen. Garcia Navarro, with 800 men, left Cristo, on the 31st ult., to go to the assistance of Canemas, but on arriving at Caney, he learned that Antonio Maceo was in Escandel with 300 men, so Navarro returned to Cristo.

A small band of rebels, led by Chongo Rivero, whom the Spaniards have reported killed, attacked the village of Campechuels on the 30th. In the battle twenty guerrillos belonging in the village were killed. Several persons were wounded. There was a great deal of excitement among the residents of the eastern portion of this city on the night of the 1st inst. The vanguard of one of the rebel parties fired on the government guards in the suburbs, and the volleys could be heard in the centre of the city. The excitement was soon over, however, as the rebels retreated without loss of life to either side.

THE LATEST STATEMENT.

The Regatta Club Issues a Bulletin This Afternoon.

NEW YORK, Sept. 14.—The following letter was posted on the bulletin board of the New York club this afternoon:

"To the members of the New York yacht club:

"Having filed the America's cup committee's report on the international yacht race, we take this opportunity to state in answer to inquiries why the last two races were not ordered to be re-sailed:

"The yacht committee, before taking the evidence on Defender's protest, made an unsuccessful endeavor to bring about a settlement by mutual agreement, but each contestant preferred that the protest should take its course.

"The protest filed and insisted upon must be adjudged, and a decision once rendered, the event is closed. As regards the re-sailing of the third race the regatta committee has no latitude since the new conditions demanded by Lord Dunraven had been declined by the cupcommittee, and therefore, the race had to be sailed under the original terms. Respectfully yours,—Regatta committee, New York yacht club."

Novel Charity Scheme.

SYRACUSE, N.Y., Sept. 14.—The members of Syracuse's "400" spent most of Thursday riding on trolley cars. For eighteen hours a regular organized company, composed of women, had charge of four cars each, on four of the different lines of the Syracuse street railway company. The use of the sixteen cars for one day was tendered to the woman's christian association by the railway officers, and as a result the treasury of the organization is swelled to the tune of $2,000. About fifty of the most fashionable young ladies of the city as conductors, relieving each other at stated intervals. The cars were gayly decorated with flags and bunting. All day the cars were crowded and in the evening trolley parties held the boards. The regular conductors were on board to prevent accidents.

Bound To Have a Race.

BOSTON, Sept. 14.—General Taylor has been asked whether the offer of a $5,000 cup for races off Marblehead would be open for a contest between Vigilant and Valkyrie if Defender refused to contest. Gen. Taylor said: "In case Defender declines, I shall make the offer of the Massachusetts Bay cup for a race between Vigilant and Valkyrie."

The Claim Paid By Draft.

WASHINGTON, Sept. 14.—The Mora claim was paid shortly after twelve o'clock to-day, by Senor DuPuy De Lome, the Spanish minister to Washington, handing to acting secretary of state Adee a draft on the Spanish finance agent at London for $1,449,000 in gold. Mr. Adee gave the minister a receipt for the draft.

Pratt's headache powders cures headaches instantly, only at McLeod's.

OLD TIME MUST DO THE WORK

UNION OF CHRISTENDOM CONSIDERED BY DR. VAUGHN.

England Sees a Long Banner-Carrying Procession—A Man Who Has Won Success Through Many Schemes—A Copper Combine Probable—Cable Gossip.

LONDON, Sept. 14.—The Catholic conference that is annually held in England under the auspices of the Catholic truth society, has hitherto been treated by the press as unworthy of mention. It has, this year, suddenly assumed the importance of a leading congress. The conference began at Bristol on Monday and terminated Thursday. The questions before the conference were not new but the meeting derived unwonted interest from Cardinal Vaughan's address on Christian Union. The archbishop of Canterbury's recent missive on the subject, a reply to the pope's letter to the English people, required a reply, and Cardinal Vaughan gave it in such clear terms as will end discussion within the Anglican church on the basis of an agreement with the Roman Catholic church. The kernel of the question of the reunion of christendom, said Cardinal Vaughan, consisted in the admission of the Roman claim that the pope had received by divine right authority to teach and govern the whole church. The essence of the Anglican position was a negation of the Roman claim. Until this claim was admitted no basis of reunion was possible. The cardinal further declared that he did not expect to witness the submission of the English people, as a body, to claims that were repudiated at the time of the reformation. He looked to the slower process of individual conversion. These declarations have been ill-received by the ritualists of England, and are reported to be also causing the pope disappointment as a check to his plan for the reunion of the churches.

The report was accepted as true among the members of the congress, that at the next consistory at Rome another cardinal will be created for England. The congress concluded on Thursday with a 'pilgrimage to Glastonbury abbey, the oldest shrine in England. Thousands of pilgrims, including one hundred robed clergy, travelled by train from Bristol to Glastonbury. It was not very long ago that popular sentiment would not have allowed such a pilgrimage. On Thursday a large crowd watched with the greatest sympathetic interest the long banner-carrying procession, composed of Roman Catholic guilds, Jesuits, Dominicans, Franciscans, Benedictines and Carmelites, alternately singing and reciting prayers. The scene was an impressive and picturesque one, and marked an immense change in the position of the Roman Catholic church in England.

The speculative mania in South African stocks shows no sign of abatement. Stock exchange dealers compare the present time with that of Law's Mississippi inflation in France, and the South Sea bubble in England. Men who were financially "broke" two months ago, now boast that they are worth tens of thousands of pounds. Stocks that were quoted in June at one pound are now quoted at forty pounds. Brokers who were recently struggling to keep their heads above water now employ large corps of clerks, and net enormous profits. Barney Barnato, the leader of the boom, who at one time was an itinerant juggler; now a multi-millionaire, is about to build a palace in Piccadilla, which will cost £250,000. In the meantime he has leased Earl Spencer's house. Despite the success of his Barnato bank and every other scheme into which he has entered, he has not succeeded in entering the highest financial circles, which is also operating in South Africa, but which yet holds itself aloof from Mr. Barnato. The speculative spirit extends to other branches of the stock exchange, and gives impetus to business generally.

The representative of the United Press learns that an Anglo-American syndicate has been formed that is likely to lead to the long-striven-for combination of European and American copper producers. The key to the whole affair is the projected acquisition of the Anaconda mine. This concern will be transformed into a limited liability company, with a capital of $30,000,000 in $25 shares. The syndicate will take $300,000 shares at $30 each, provided the report of the well-known expert, Hamilton Smith, confirms the understood value of the mine. The bargain must be concluded at the latest by Oct. 15th.

In an interview with Richard Croker he said, that he had entered another colt for the Derby of 1897. He had a strong desire to win the blue ribbon of the turf, and meant to keep on making entries for the Derby if he had stock worthy of the honor, until he won it. He did not intend to trouble himself much about racing while in the United States.

Ex-prime minister Rosebery returned to London, Thursday. He says there is not the slightest truth in the report that he intends to visit America.

Dr. Pentecost has resumed his ministry at the Marylebone church and great crowds attend the services. Dr. Millburn has completed three weeks services at Canonbury, where he made himself very popular. Dr. Hugh Johnston, Washington, is preaching at the Crouchend church, and is drawing large congregations.

A Distinguished Engineer's Terms.

TORONTO, Sept. 14.—A day or two ago acting mayor Shaw cabled city treasurer Coady, who is now in London asking him to ascertain the fees which Mr. Mansergh, the distinguished engineer, would charge for reporting on the projected tunnel scheme and as to improving the present water works system generally, including the gravitation scheme. This morning Ald. Shaw received a reply from Mr. Coady stating that Mr. Mansergh's fee would be £2,500, that is $12,500, for reporting on the tunnel scheme alone, or £3,000 for reporting on improving the present system and the gravitation scheme.

They Were Arrested In Utica.

ROCHESTER, Sept. 14.—Harry C. and Fred. H. Lloyd, two young men arrested in Utica and brought to this city for beating the Livingston hotel out of a $68 board bill, were fined $25 by Judge Earnest. The men came to this city canvassing for advertisements for the Christian Endeavor directory. They claimed their business was ruined by their arrest on a charge of violating the city ordinances by doing business without a license.

An "Offensive Partisan" Removed.

LYNN, Mass., Sept. 14.—J. L. Parker, deputy collector and inspector of customs in Lynn, in the Marblehead district, has been removed by acting secretary of the treasury Hamlin. Mr. Parker is the managing editor of the Lynn Item, and in that capacity, it is alleged, has frequently scourged the administration. Offensive partisanship is the charge made against Mr. Parker by Mr. Hamlin.

A Young Dressmaker Burned To Death.

ALBANY, Sept. 14.—Miss Nettie Anderson, aged nineteen, a dressmaker, was fatally burned in attempting to right an overturned oil stove yesterday. She threw herself into the arms of Miss Albina Van Cleet, another dressmaker, and the flames ignited the other's dress. She was badly burned about the left side. The house was set on fire, but the flames were quickly extinguished.

To Meet in New York.

NEW YORK, Sept. 14.—The best amateur men of muscle in America will meet in friendly strife at Manhattan field to-day and struggle for national athletic supremacy. The occasion will be the annual national championship field and track competitions of the amateur athletic union, and every big athletic club in the country will be represented by the flower of its athletic talent.

A Canadian Shoplifter.

BUFFALO, N.Y., Sept. 14.—Detectives arrested a clever shoplifter from Welland, Ont., late yesterday afternoon. She gave her name as Ada Ramey, her age as twenty-two years, and said her father is a bailiff in Welland. She did a clever piece of work and came here with a regular shoplifting outfit. When she was taken into possession silks and laces were found in her possession.

MR. WELLS' DISASTER.

The Famous "George's" Barn Is In Ruins—Disaster At Cape Vincent.

Maurice Wells, of Wolfe Island, was a severe sufferer by the storm of Wednesday. Mr. Wells lives on the shore directly opposite Cedar Island and received the full force of the cyclone. His barn, known to yachtsmen and citizens as "George's" barn, was completely dismantled and smashed. The sheds alongside in which he kept his carriages, sleighs, machinery, etc., were crushed in and much of the contents seriously damaged. Another barn in an adjacent field was unroofed and had the sidings torn off. The orchard was completely mowed down, the trees being either uprooted or knocked over by the flying timbers. A boat lying on the wharf was blown to the gateway and a hatchway on the wharf that two men could not lift was carried 300 yards in the field. The house trembled as if affected by an earthquake. Happily no damage was done to it, notwithstanding the fact that the huge rafters and beams of the barn were blown over and about it and that several great pieces of timber were found near the house. Luckily the threshers and farmers who had been working at the barn during the day had left an hour previously. Had they remained they would, most probably, have sought shelter in the barn from the storm. While the waggons and other things were upturned the threshing machine, which had received the full force of the gale, was very slightly—injured, the carriers being mostly affected. The machine was not upturned, a circumstance which the owner declares must have been miraculous.

The Cape Vincent Disaster.

The Watertown Times in reporting the disaster and deaths at Cape Vincent gives these details:

"The first person taken out was George Godfrey. A huge beam had pinioned him to the earth. He was unconscious and breathing with difficulty. The beam had crushed his chest and inflicted other injuries, internal and external. He was removed to the Arlington hotel, where he died shortly afterward.

"The second one to be extricated was Thomas Arniel. He begged to be alone and said his back was broken, at the same time imploring the rescuers to go to the assistance of the others who were crying for help. He was taken to the Arlington hotel, where the physicians pronounced his injuries fatal. He was removed to the home of his brother, Robert Arniel, where he died at midnight.

"The oil had run out of two lamps in the shed and was burning along the floor. For a moment it looked as if the fire fiend was going to add horror to the scene, when John Rivers, comprehending the situation crawled under the timbers on his hands and knees and extinguished the fire by smothering the flames with cinders and dirt.

"Mrs. Agan, of Hamilton, is in a critical condition. She and her four children were visitors in the family of R. J. J. Newman, grocer, of Cape Vincent. She was injured internally and bruised about the body. She will probably die.

"Mrs. Eugene Fitzgerald, of Grenadier island, is in a delicate condition, and her injuries, which include a broken spine, will undoubtedly cause her death. She is at the Arlington hotel. Mr. and Mrs. Fitzgerald were visiting relatives at the Cape.

"The third probable victim is J. M. Anderson, a railroad man of New York, who lies at the Arlington hotel with a fractured skull. He is in delirium and is being attended by Drs. Dawson and Massey, who express little hope of his recovery."

SHE SEEKS A DIVORCE.

The Application Has Been Made in Lake County, California.

SAN FRANCISCO, Sept. 14.—Dunn and McPike, who are Mrs. Langtry's legal representatives here, have received from Howe & Hummel, of New York, the papers in "the Jersey Lily's" suit for divorce from her husband, with instructions to make the necessary application at once. The action must be begun here as Mrs. Langtry has her legal residence in Lake county, this state, where she has maintained a fine country place for several years. The complaint will be filed in the superior court of Lake county. Mrs. Langtry, on her first visit to California some years ago, leased a cosey cottage on Liberty Heights at the mission, in San Francisco, and took up her residence there with a view to becoming a resident in order to obtain a divorce. A suit was begun, W. H. L. Barnes, a leader at the local bar being Mrs. Langtry's attorney. She wished to avoid publicity, and so her declaration of intention to become a citizen of the United States was taken by the clerk of the United States circuit court at her house. After the filing of the divorce complaint, this method of making the declaration was challenged, and the late Judge Sawyer held that the proceedings were irregular and invalid. The divorce proceedings were then dropped. Subsequently Mrs. Langtry acquired large land interests in Lake county, and her California property is not worth more than $100,000. The Langtry ranch is famous. It will be Mr. Langtry's privilege, of course, if he contests the suit, to demand that it be transferred to the federal courts, as he is a foreigner and a non-resident.

SUDBURY MERCHANT ARRESTED

He is Held For Obtaining Goods by Fraud—The Sheriff's Action.

MONTREAL, Sept. 14.—The sheriff of Montreal has taken out actions against the city of Montreal for $500,000 and against the cities of St. Henri and St. Cunegonde for smaller amounts. It is alleged that the corporations sued have, since 1867, been in the habit of appropriating all moneys collected as the proceeds of fines in their recorder's courts, which moneys it is pretended rightfully belong to the government to be applied according to the statute to the maintenance in repair of the court house and cells and the payment of petit jurors.

High constable Bissonnette, arrived here yesterday having in charge Harris Kert, dry-goods merchant, of Sudbury, Ont., who has been arrested on a warrant charging him with having obtained goods to the value of $338 from wholesale dealers here under false pretences. Kert was refused bail by Judge Dugas this morning. A number of similar charges will, it is understood, shortly be made against Kert by Freidman Bros., Dault & Gibson, W. L. Schleman, J. Conen & Co., Canada Underwear Co. and others who say they have been victimized to the extent of $5,000.

ROBBED OF HER TRESSES.

Midnight Thief Despoils an Indian Girl of Her Hair While She Sleeps.

ANDERSON, Ind., Sept. 14.—John Howe, of Elwood, is behind the bars charged with breaking into the home of Jose Pence, north of this city, chloroforming all those asleep, and cutting off the long, golden tresses of Pence's daughter Mary and stealing them. She woke in the morning to find them gone, the first that she knew of it. She also found a note lying on the table telling her that the person who had taken them could get sixty dollars for them.

Bloodhounds were called and put to work on the trail. They worked all day and at last cornered Howe in Alexandria. They would have torn him to pieces could they have got to him as they wished. While he does not admit his guilt there are many things to prove it. The dogs followed the trail through the pastures, woods, over the railway, and through Alexandria to the Lake Erie depot, where he was waiting for a train out of the city. The hair could not be found. The girl is broken-hearted.

Made Good Time.

NEW YORK, Sept. 14.—R. P. Scarlin, the cyclist of Rockford, Ill., who left Chicago on Sunday, the 8th, at 8:45 a. m., arrived in New York at 3:35 this morning. Allowing time difference of one hour, he made 1,011 miles in five days, twenty-two hours and twenty minutes.

Kingston's Mayor In Town.

Toronto News.

Mayor Wright, of Kingston, visited acting mayor Shaw this morning. The chief magistrate of the Limestone city is looking for information regarding the reading of by-laws and the mode of assessment.

THE AFFAIRS OF THE HOUR.

TELEGRAMS FROM THE EARTH'S FOUR QUARTERS GIVEN.

Little Matters That Interest Everybody—Notes From All Over—Little of Everything Easily Read and Remembered.

They say the crop of peach brandy in south-west Missouri will beat the record this year.

Rev. Alexander MacLennan, aged sixty-four, Presbyterian minister at Heath Head, Ont., died at Owen Sound on Thursday evening.

Both Toronto and Montreal yacht clubs have tendered invitations to Lord Dunraven to be their guest and to be entertained at dinner.

Dr. McClintock, of the university of Michigan, has been making experiments with hen's eggs, and finds that many of them are infested with deadly bacteria.

The big frame barn of the Chicago golf club, at the club grounds, a mile south of Wheaton was burned this morning, containing 150 lockers for suits and playing paraphernalia.

Jesse Shank, foreman of the lines of the Edison Electric Illuminating Co., Lancaster, Pa., grasped a wire through which 2,200 volts of electricity was passing. His condition is critical.

Several of the larger Massachusetts cities have increased, according to the recently published returns of the state census, much more rapidly since 1890 than either Minneapolis or St. Paul.

Two Chinamen of Belfast, Me., have paid the poll taxes assessed against them as Chinaman No. 1 and Chinaman No. 2. They refused to give their names to the assessors and the taxes were assessed as above.

Frank Meyers, St. Joseph, Mich., an aged and invalid veteran of the civil war, received word, yesterday, that a pension of $10 a month had been granted him. The news was more than he could bear and he fell over dead.

Twenty-one guns have been brought from Cherbourg and placed in the naval arsenal at Havre. They are intended, in case of war, for the transatlantic company's steamers Bourgogne, Champagne and Normandie, which would serve as auxiliary cruisers.

A tidal wave swept over Lake Superior and Chequamegon Bay late yesterday afternoon doing considerable damage. The water rose nearly six feet in a few minutes. The engines in the elevators at Washburn, Wis., were flooded and several waggon roads were washed out.

The list of killed in the Great Northern railway wreck at Melby, Minn., has been increased to seven by the finding of two bodies in the wreck yesterday. They were of unknown tramps. The coroner's jury has rendered a verdict finding engineer Haines responsible for the disaster.

Ocean City, Md., was visited by thousands of large red butterflies yesterday afternoon. The wind was blowing strongly from the north-east. The heavens became almost dark with them. They moved in a southerly direction. It took more than an hour for them to pass over.

Sir Charles Rivers Wilson, the president of the Grand Trunk railway company, was given a reception at Hamilton yesterday. Joseph Price, vice-president of the company, said that they had arranged to make Hamilton the headquarters of a western freight division with an agent having headquarters there.

When the German consul at Odessa undertook to celebrate Sedan the other day by a garden party he applied to the prefect of the government for permission. The prefect wrote the minister of the interior, who, after consultation with the minister of foreign affairs, answered that he considered the celebration inopportune, and permission was consequently refused.

MARINE INTELLIGENCE.

Paragraphs Picked Up About the Wharves And Elsewhere.

The str. Monteagle will bring corn to Kingston from Chicago.

The tugs Thomson and Walker cleared for Montreal last night with eight barges.

Arrivals: Str. Hamilton, Montreal; str. Spartan, Toronto; str. Algerian, Montreal.

The schr. Pilot, from Napanee, and sloop Idlewild, from Bath, have peas for Richardson & Sons.

The prop. Bannockburn and three consorts arrived in yesterday afternoon from Duluth with 215,000 bushels of wheat. They will clear again to-night for Duluth.

The prop. Shicluna lightened 7,500 bushels of wheat at the M.T. Co's dock and cleared for Montreal with the balance, and the prop. Arabian lightened a portion of her cargo of flour and proceeded to the same place.

Capt. E. Booth took the steambarge Jack as far as Port Colborne. Upon arriving there he handed her over to the captain of the Armenia. Crews were exchanged and Capt. Booth brought the Armenia and her consorts, Valencia and Norway, on down to Kingston. Capt. Booth says the Jack is working excellently since being repaired. She will go to Duluth and load grain for Kingston.

The schr. Trade Wind, from Toronto to Oswego, was caught in the storm of Wednesday night and had a lively experience. The little schooner could not stand the wind and the crew had to lower her sails and let her scud under bare poles, and still she was in danger. Boxes and ropes were thrown all over the craft but did no damage. Capt. Wilson said it was one of the worst encounters with a storm in his experience as a sailor. The Trade Wind was headed for the shore, and when abreast of Sheldon's Point the anchor was dropped with about forty fathoms of chain.

Miss Chitty Drowned.

LONDON, Sept. 14.—Miss Eleanor Chitty, daughter of Sir Joseph Chitty, a justice in the chancery division of the high court of justice, was drowned at Inverlochy, county Inverness, Scotland, yesterday, while fishing in Loch Eil.

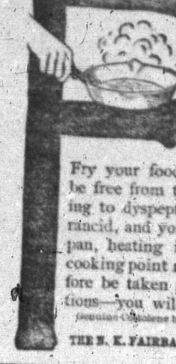
FRY IT in Cottolene



Fry your food in Cottolene instead of lard and it will be free from that greasiness and "richness" so distressing to dyspeptics; the flavor will be delicious instead of rancid, and your food will *do you good*. Put it in a cold pan, heating it with the pan. Cottolene reaches the cooking point much quicker than lard—care should therefore be taken not to overheat it. Follow these instructions—you will never use lard again.

Genuine Cottolene has trade-marks—"Cottolene" and steer's head in cottonseed wreath—on every tin.
