Q. What is free trade?

who has not earned or paid for it.

Definition of Free Trade.

from any channel into which it would otherwise flow, into any channel or favored by the legislation which enacts the customs. A country may collect its yet be an entirely Free Trade country, so long as it does not lay those duties in such would avoid in the absence of such duties. Thus, the customs duties levied by England-with a very few exceptions-are not inconsistent with her profession of being a country that believes in Free Trade. They either are duties on articles not produced in England, or they are exactly equivalent to the excise duties levied on the same | 11 articles if made at home. They do not lead | 12 anyone to put his money into the home production of an article, because they do 13 Oi not discriminate in favor of the home pro- 14 ducer. It is therefore no concession to 15 Sh the protective principle when the Demo- 16 Sa cratic platform says that 'since the | 17 No house duties have furnished its main source | 18 My would run otherwise, into channels favor- | 22 Gb ed or created by law."

Q. What is protection? A. Protection, on the ground of advantages, according directly or incidentally, | 25 advocates and defends the imposition of 26 Lime kilns. taxes on imports for other purposes than 27 Rope and twine. those of revenue. The protective system 28 Founderies is opposed to the revenue system because the Government collects revenue on what 29 Cooperages..... comes in, while protection is secured only to the extent to which commodities are

Q. What is the idea underlying each? . Free trade assumes that a people like those of Canada might be left to them selves to decide what is to their own advantage; Protection assumes that parlia-ment can better decide what business the

people shall do than the people themselve A. A "tariff for revenue only" is one framed that all the taxes which the people Q. What is meant by a tariff for revenue
