The dim whiteness of the room, the heavy perfumes, the somber touch of the red, tell quite as plainly what it is that ! lies behind the screen as could black velvet and silver, burning tapers, and the damp scent of dying flowers. In the midwhite draped, the dead Sultan lies, to all appearances calmly and peacefully asleep. Dr. Bayle's balsams have changed death into sleep, and he lies with his gray mustache and wavy hair and his ! black arched eyebrows, his handsome, soldierly, dusky features smoothed and softened, and with his eyelids lightly closed in the calm and perfect repose which easy slumber brings to the face of the man of the world.
