McKee, formerly living here, was a surprise to her friends and acquaintances. It was met by doubt, however, until confirmed by a reply from Neepawa. Her case was well known

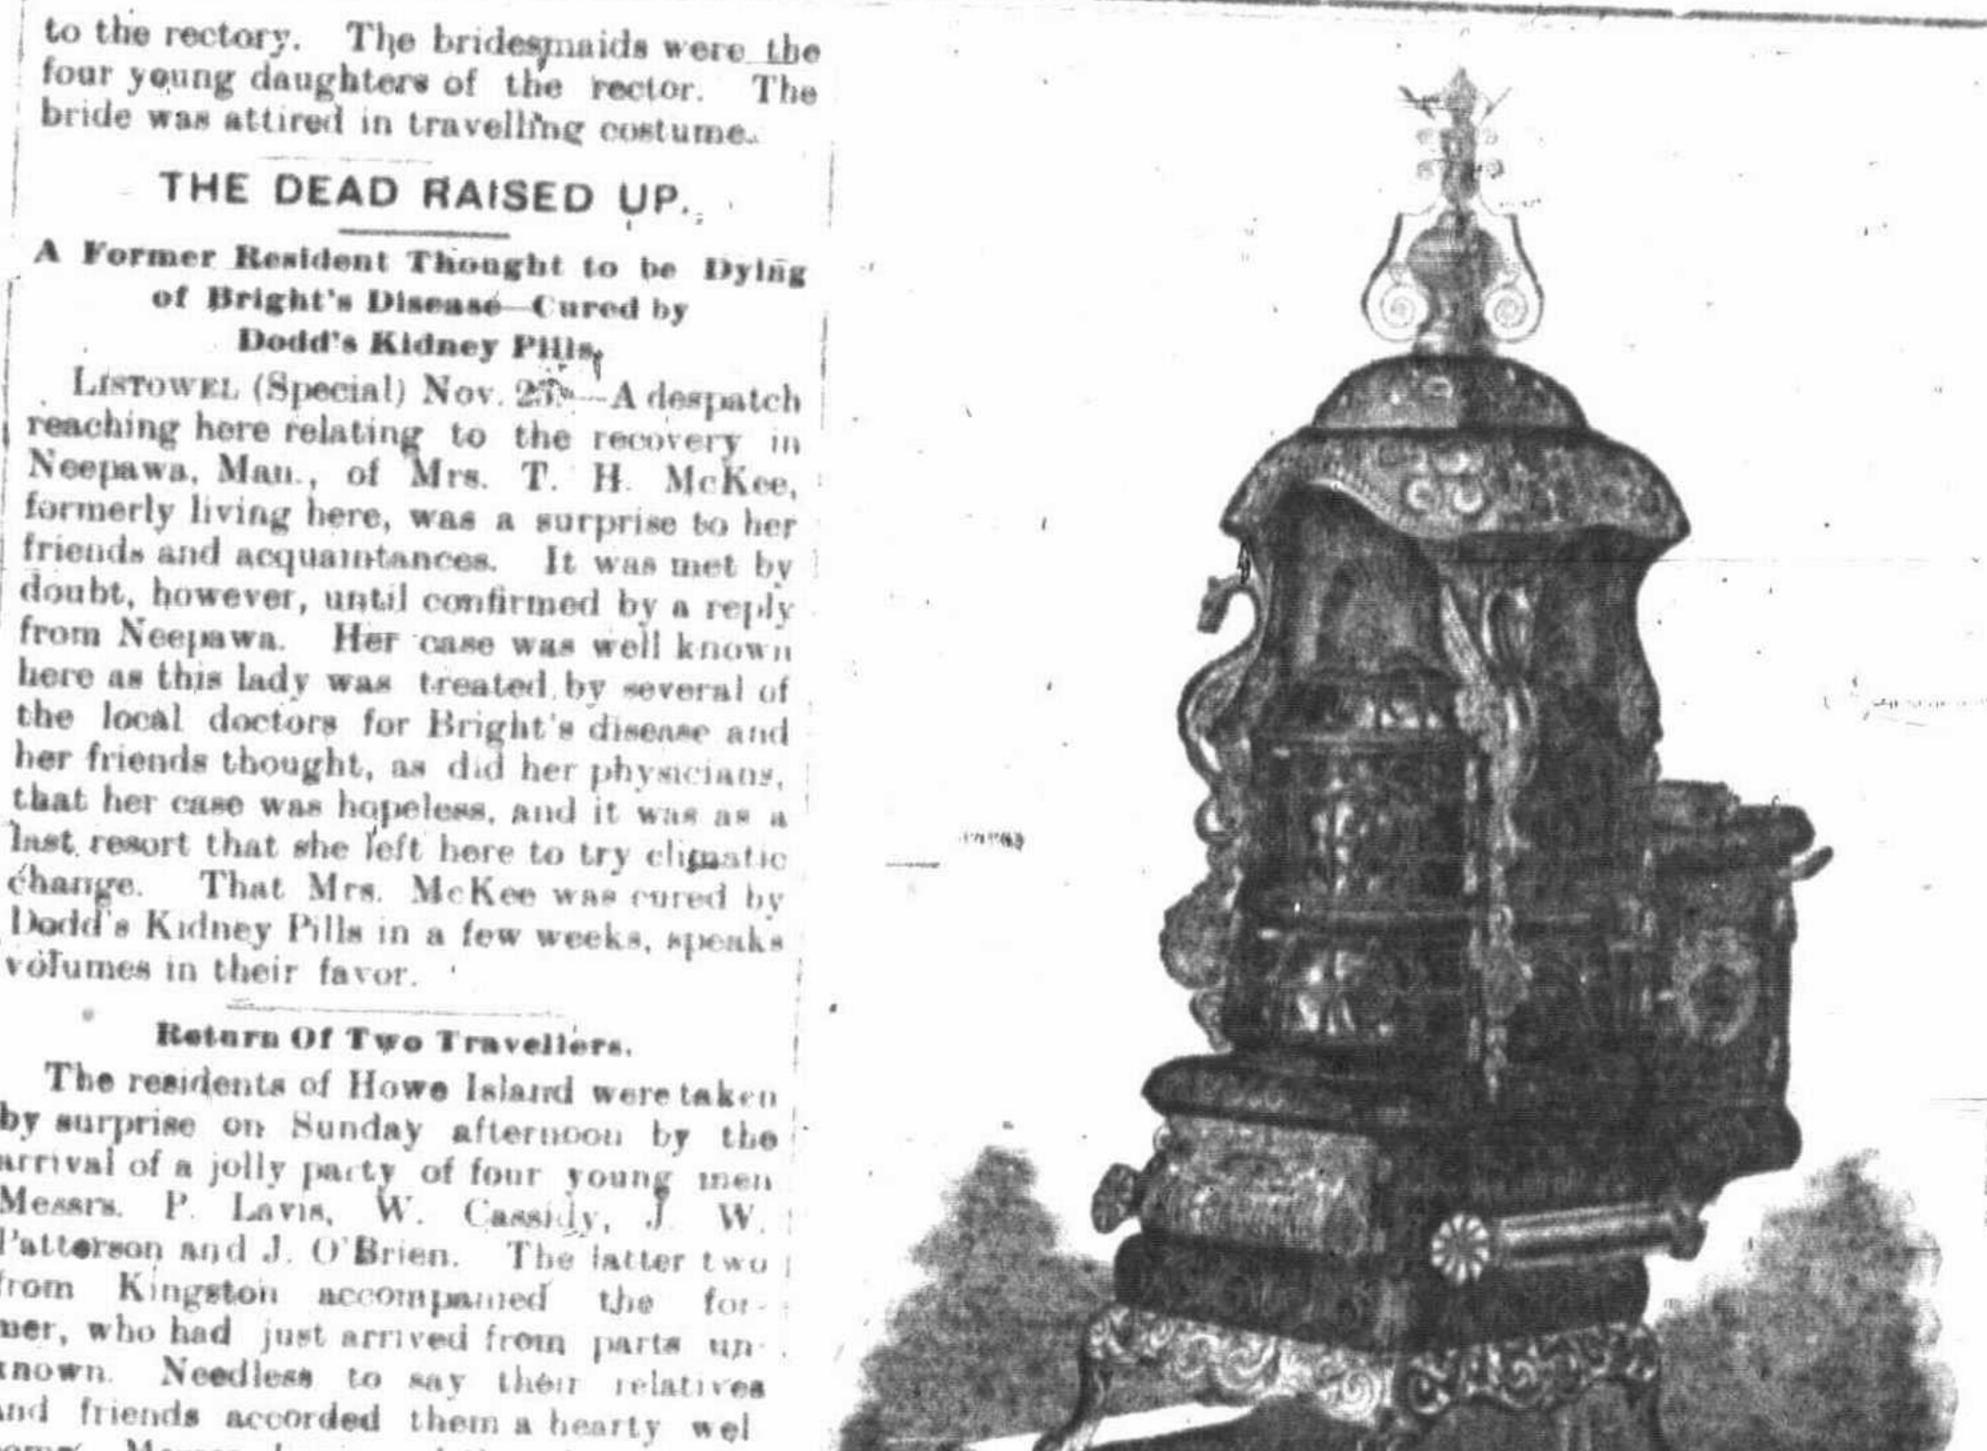

here as this lady was treated by several of the local doctors for Bright's disease and her friends thought, as did her physicians, that her case was hopeless, and it was as a last resort that she left here to try climatic change. That Mrs. McKee was cured by Dodd's Kidney Pills in a few weeks, speaks volumes in their favor.
