CUBA MUST BE MADE FREE.

WHAT THE MARQUIS OF SANTA LUCIA SAYS.

The Form of Government is Republican and Suited to the Cubans—Spain Can Have a Money Settlement if She Wishes But Independence Must be Granted.

NEW YORK, Dec. 6.—The Herald publishes the following:

Rebel Headquarters, La Matilda Plantation, Province of Puerto Cuba, Nov. 27th, via Tampa, Fla., Dec. 5th, 1895.—I arrived here this morning and at once sought Salvador Cisneros Betancourt, the Cuban executive, better known as the Marquis of Santa Lucia, who is here with his entire cabinet. Personally, the president of the Cuban republic is a very agreeable man. He is tall, erect, and with distinct military bearing. He carries his sixty years well, and his kindly face bears a youthful look in keeping with his cordial manner. He proudly claims American citizenship. He went to the United States, years ago, and renounced his title of marquis, preferring to be a plain American citizen to a Spanish nobleman. President Cisneros Betancourt is everywhere in Cuba recognized as an ardent patriot. He was made president of the republican government organized in 1868, when the ten years war began. His wealth is immense, and no man in Cuba has greater personal popularity. When asked for a statement he readily complied and dictated the following:

"Ours is a republican form of government, based on broad democratic principles, and especially suited to the Cuban people. Our government was first organized by the election of four deputies from each of five army corps, who gave the matter sound and careful consideration and decided upon all the details of the first form of organization. Upon this occasion Gen. Gomez exhibited his true patriotism and democratic ideas giving over, as he did, all the extraordinary powers with which he had been invested upon his first landing in the country. This single patriotic act won for Gomez the unbounded respect and admiration of his fellow citizens.

"The officers of the present government were chosen by the assembly which first met for that purpose, and for the adoption of a constitution, and it is this government that has appointed as diplomatic agent or delegate plenipotentiary, Thomas Estrada Palma, who is now in the United States. He has in turn appointed our sub-delegates to other countries.

"Our government will last and the victory will be with us in the end. There is no chance for failure. We have the people of Cuba with us and our treasury is by no means empty, for the larger number of property owners of the island are paying taxes to us. Many Spaniards, wishing our respect and protection, are included in this list.

"I am well pleased with the progress of the revolution. When I first took up arms against the government the Spanish element tried to ridicule me by saying that an army of thirteen beardless youths would not injure the authorities much. But one month later a Spanish stronghold, the village of Altagracia, was captured and laid low. The garrison of 100 men at Elmulet was overpowered, a government contingent of 100 men was routed at Lalarga and the Spanish garrison at San Geronimo was captured.

"We were more powerful at the beginning of this war than we were at any period during that of 1868, while the enemy is all at sea concerning our movements and inside methods. Gen. Campos may have the idea that he can whip, or perhaps he will attempt to deceive the Cubans, as he did in 1878, but in each he will be wonderfully mistaken. Complete independence of Cuba is what we are struggling for and on no other basis will terms of peace be arranged. If Spain would agree to withdraw from the island and accept a money settlement, the amount to be paid by free Cuba, then all would be well, otherwise the war will continue to rage with all its attendant horrors.

"I expect that belligerent rights will be recognized by the United States and followed by every American republic. Ours is the cause of freedom, of justice and of right, and I hope at no distant day to see our flag floating in triumph over our beloved island."

THE LIBERAL POLICY.

The Remarks of Mr. Laurier at Vankleek Hill Yesterday.

VANKLEEK HILL, Dec. 6.—A most enthusiastic meeting of the liberal electors of the county of Prescott was held at Vankleek Hill, at which addresses were delivered by Messrs. Rider, M.P., Stanstead; Harwood, M.P., Vandreuil; Edwards, M. F. Russell, and Tarte, M.P. Addresses of welcome to Hon. Laurier were delivered in both English and French, after which the great liberal leader arose to address the meeting, amidst a prolonged thunder of applause. He expressed his pleasure at seeing such a large and enthusiastic audience gathered together for the purpose of listening to the discussion of the current topics of the day and showing that the electors of the county of Prescott were alive to a sense of the responsibility devolving upon them as citizens of this fair dominion, although, as was expressed in the well worded address of welcome tendered him, it was with pleasure he was received, still it afforded himself (Laurier) still greater pleasure to meet with the electors of this fair county, so much pleasure, indeed, that he proposed coming back again at some future date. Continuing, he said that, with regard to his policy, he was for free trade whenever the country was ready to accept it, and that till then a tariff for revenue only would be the policy followed by the party which he had the honor to be leader. The country is certainly not in the state of prosperity which we would like to see. Something must be done and that something is the goal towards which the great liberal party are striving. The policy of the liberal party is to put Canada on an equal footing with her neighbors or, in other words, national progress was their motto. Those who favored this policy were liberal while those who were against it were tories and he was confident in saying that under these circumstances we were all liberals. There was a class of people who called themselves liberal-conservatives, but this was an nonentity and for his own part he would rather be a liberal at once or else an out-and-out, old-style, thoroughbred conservative (applause).

Regarding another question, a question which was causing a national agitation at the present time, namely the Manitoba school question, he would say that he believed in the provincial right to legislate. The privy council has also decided that the federal government shall take into consideration the minority, and it shall be the policy of the liberal party to look carefully into the matter and legislate in such a manner as will be agreeable, not to the minority of the province of Manitoba alone, but to legislate according to principles of right and justice as shall benefit the citizenship of Canada at large. Thanking the assembly for their attention and calling on them to stand shoulder to shoulder in the coming strife, the liberal leader brought to a close his first address to the electors of the county of Prescott.

CUT OFF HIS LEG.

Wind Blew a Railing from a Building Struck a Man.

HALIFAX, N.S., Dec. 6.—A terrible accident occurred this morning by which a man named O'Brien, of Maitland, N.S., loses a leg and possibly his life. A very high wind prevailed, and an iron railing together with heavy mason work on top of a building on Granville street was blown off. A portion of the iron railing fell across O'Brien's leg and severed it completely. Drs. Farrell and Flynn were called, and an ambulance soon arrived. It is doubtful if O'Brien will recover.

PRINCE OF WALES.

Prospect of His Being Invited to Canada and Toronto.

PRINCE OF WALES.

TORONTO, Dec. 6.—It is suggested that his royal highness the prince of Wales be invited to Toronto to open the new municipal buildings in 1897, when the British association for the advancement of science will meet in this city. The idea has met with enthusiastic approval. Those entrusted with the arrangements for the meeting of the British association will be asked to use their influence to have the prince elected to the presidency of the association, so that he might accompany the association in an official capacity, and also be invited on behalf of the country by the proper authorities, thus fulfilling the duties of president and of a royal guest at such functions as the opening of the municipal buildings.

MR. GLADSTONE'S LETTER.

On Account of Physical Unfitness he Cannot Speak in Chicago.

NEW YORK, Dec. 6.—The press club of Chicago has had an address from some speaker of distinction in the auditorium every year for several years. They invited Mr. Gladstone for 1896, to discuss the Armenian question, and the mayor of Chicago supplemented the request with a cordial letter, inviting Mr. Gladstone and his family. These letters were sent to Chauncey M. Depew, to be forwarded with a personal letter from him. Mr. Gladstone answered from Hawarden castle:

"I wish to add that in my opinion no cause more sacred, and none more urgent than that of the Armenians has ever been brought before the citizens of our humane and enlightened country. It is for the moment enveloped, so far as the public are concerned, in uncertainty, but yet there are indications in the handwriting on the wall, which warned one ancient despot of his coming doom, and which may be traced visibly enough to betoken some approaching crash of a system of government far more impious and iniquitous.

"The blessing of good health is still vouchsafed to me, but diminished strength, imperfect vision and growing deafness incapacitate me from public efforts, which more weighty considerations might lead me to undertake, and confine my intercourse with others to what is purely private and of a very restricted character, but with too full an assurance of necessity."

A RUSSIAN CATHEDRAL.

To Cover An Acre Of Ground To Be Built In Chicago.

CHICAGO, Dec. 6.—Bishop Nicholas has been instructed by the holy synod of St. Petersburg to build a great cathedral in Chicago to cost not less than $500,000. It is a part of the decree that the sanctuary shall cover an acre of ground. The architect must follow the established lines of the ecclesiastical forms of Russia. The general design shall reproduce the famous St. Vasilo, of the Kremlin of Moscow. The priest house shall be the home of the head of the denomination in the western world and the diocese of Alaska and the Aleutian islands shall be re-named to include this country or a new see will be created.

This is the greatest mission work ever undertaken by the synod. It was advised by the bishop in a long report to the body during his visit last summer to the czar and the empire's capital. Three locations are under advisement—one near Garfield park, one opposite Humboldt park, and a third in the midst of the best residence district of the north side. Harold Julius Debosse, the supervising architect in the cabinet of the czar, will direct the erection of the cathedral.

ARE TEN VACANCIES

In the Senate at Present—Appointed Inspector of Cattle.

OTTAWA, Dec. 6.—The government cruisers Petrel and Dolphin are put into winter quarters at Owen Sound.

W. Alonzo Chesley, of St. John, N.B., has been appointed active inspector of cattle at that port.

One million salmon trout are now in the incubators of the fish hatchery, O'Connor street.

The city council is to be asked to give $1,000 towards assisting giving a grand welcome to the brotherhood of engineers who will visit Ottawa next summer.

The sudden death of Senator Murphy, at Montreal, leaves ten vacancies in the senate. Five of them are in Quebec, two in Ontario, two in New Brunswick and one in Nova Scotia.

Mr. Martin On The School Question.

WINNIPEG, Man., Dec. 6.—Hon. Joseph Martin does not intend to be in Ottawa for the opening of the house. He thinks the coming session will be a long one and full of interest. He believes that the dominion government has not the slightest intention of passing a remedial bill as intimated by their stumpers and friends in the east. He thinks they may bring down a half measure but nothing like what they have pledged themselves to do. The series of compromises, he says, are only sent out by the Ottawa government to keep up the spirits of their supporters. "They are practically on the run," remarked Mr. Martin, "else why do they not bring on all the bye-elections at once." In Mr. Martin's opinion Mr. Greenway's government will not recede one bit from the stand they have taken on the school act.

Gananoque Budget.

GANANOQUE, Dec. 6.—N. C. Heathcote is in town for a few days. Mrs. T. P. Richardson left on Wednesday for Riverside, Cal., on a visit to her daughter, Mrs. D. Matthew. The coal oil lamps in police quarters are to be superseded by electricity in future.

Marsden Kemp is in town for a few days. William Connor has returned home from Manitoba. Miss Ormiston is visiting friends in Montreal. The bazaar being held in Turner's hall is being well patronized. George Cartwright severed his connection with the Harry Lindley company in Hamilton. George was pianist with the company.

The fall term of the model school is drawing to a close. The examinations will be held shortly.

An English Commoner Unseated.

SOUTHAMPTON, Dec. 6.—After consideration of a petition lodged against the election Tankerville Chamberlayne, to represent Southampton in the house of commons, upon the ground that electors were bribed, by agents acting in Mr. Chamberlayne's interests who paid their railway fare to induce them to vote for him, the election judges have declared Mr. Chamberlayne's seat vacant and writs will be issued for a new election.

T. G. Marquis, M.A., of Stratford collegiate institute, has been chosen for the English mastership of Kingston collegiate institute. His old friends at Queen's college and throughout Kingston will be pleased to welcome his return to the city. The institute secures a brilliant teacher.

Sir Charles Tupper says that he regards Mr. Chamberlain's despatch to the colonial governors, calling for trade returns, as of the highest moment. It almost, he adds, savors of a preferential tariff for which, however, Great Britain is not ripe.

A change in the eastward route of the Hamburg-American line has been made their English port, being Plymouth instead of Southampton, to hasten the landing of passengers and mails in London. At least three hours will be saved.

The Erie canal traction company has entered into a contract with the Erie construction company to install a system for canal boat propulsion from Buffalo to Albany at an expense of $2,250,000, and will proceed as the work upon the canal enlargement advances.

The war which the Crusaders began against the Turks in 1195 seems to have reached the beginning of its end in 1895, exactly 800 years later. In the spring of 1096 not less than 6,000,000 Crusaders were on their way to redeem Jerusalem and Palestine from the Saracen. Then the armies of Europe set forth to attack the Turk for his oppression and cruelty toward his christian subjects, exactly as they seem about to do to-day.

SHARPTON SAYINGS.

What Our Correspondent Has to Write About This Week.

SHARPTON, Dec. 4.—James McGowan, who left these parts one year ago, and has since been working in the lumber shanty adjacent to Gladwin, Michigan, is visiting friends here. He has purchased a farm out there and will return shortly. Miss Catherine Farney, after an absence of three years in Bay City, Mich., is a visitor here. Mrs. Stephens killed two spring pigs that weighed, dressed, 297 and 300 lbs. As far as we know this beats the record. Butchering is the order of the day. Meat of every kind is very cheap. The scarcity of fodder causes an over supply on the market.

At a recent sale no bids were made for the cattle. It would seem that the country is over-stocked. We have a big crop of grain and a deal of coarse fodder, but there is a scarcity of hay and straw. Those who have relied too much on the last named crops will be short. There has been a great deal of fall ploughing done. This is fortunate inasmuch as it enters largely in to the prospects of next year's crops. We have had heavy rains and high water; only a little snow yet, just enough frost in the ground to stop the plough. Mr. Judge had a ploughing bee on Friday. M. Raycroft and Mr. Sharp have had their cattle dehorned. The plan is becoming popular. Experts charge 10c. per head. Miss Leonard, daughter of J. Leonard, Glenvale, has been engaged to teach the Sharpton school for 1896. Mrs. McKinley has purchased and will occupy the Duffin homestead. George Bennington has leased the Warner place. Arthur Patterson has been working for A. Glassford, Glenvale. We still hear the old complaint of hard times, low prices, etc. If we have to sell cheap, can we not buy proportionately cheap? And if so, we think as long as we have good crops, there is no great reason for the chronic grumbler. Hay commands a good price. Very few have much of this year's crop for sale. The municipal council has repaired the bridge on the concession east of here. Mr. Larne has temporarily moved to Mountain Grove, where he will for a time fish in the surrounding lakes. Mr. Reid has erected a new cow stable for Mr. Main.

STOLE CANCELLED STAMPS.

Removed From Treasury Papers Which Were Burned.

WASHINGTON, Dec. 6.—William Washington, a negro, has been arrested for complicity in the treasury cancelled stamp steal, and has made a confession which shows that the thefts had gone on for months. The stamps, he says, were not taken from the documents at the treasury building, but the papers were taken away in small quantities to different houses, where young girls, employed at from 40c. to 50c. a day, removed such of the stamps and signatures as seemed valuable and then burned the papers. It is intimated that Washington and Edwards together obtained from the file-room of the treasury about 25,000 old papers and destroyed a considerable number of them after removing the stamps. About 18,000 of the stamps have been recovered by the department.

'Twas A Great Success.

Quite a large crowd attended the bazaar in the city hall last evening, the closing night. Both dinner and supper were largely patronized by citizens and all expressed themselves as well pleased with the excellence of the meals served. Last night the goods remaining in the booths were disposed of at auction at good prices. The willing workers hustled around and added quite a sum to the total amount as the result of their exertions. The bazaar can be counted a great success and the ladies interested in it can congratulate themselves on the result of their undertaking.

HAS REACHED KINGSTON.

Teller For Traders' Bank, Strathroy, Helped Himself to Funds.

James Patterson, sentenced to five years in Kingston penitentiary for robbing the Traders' bank at Strathroy, of which he was teller, reached the institution yesterday. On March 9th he got away with $4,000, went to Arizona, thence to Mexico. There he was arrested on suspicion of being the runaway bank clerk. But he played his part like an actor and was released. Then he went to San Francisco where he fell in with a travelling company. They soon convinced him that he was a "mighty fine young fellow," and continued making him believe that until his purse was nearly depleted.

At Duluth he quit them and fell in love. His money was gone so he began tending bar and courted the maiden. Then came his second arrest, identification and confession. His sweetheart refused to believe anything hard of him, and when the boat was about to leave Port Arthur for Sarnia a regular Romeo and Juliet scene was enacted. Patterson takes his fate very coolly.

MRS. WM. PROWDEY FOUND.

SHE IS A RESIDENT OF THE CITY ON ELM STREET.

A Newspaper Taken Into the House Disclosed the Tidings to the Wife—How the Accident Occurred—The Condition in Which the Family is Left.

The funeral of the late William Prowdey, who died in the hospital from injuries sustained by being thrown out of a buggy, took place this afternoon to Cataraqui cemetery.

Mrs. Prowdey, who lives on Elm street, the family having moved from Wolfe Island last March, was seen by a Whig reporter this morning. She said that she did not know anything about the accident until a neighbor brought the newspaper into the house and read the account of the occurrence, and of her husband's death to her. She went to the hospital as soon afterwards as possible, and could scarcely believe that it was the corpse of her husband that she was shown.

The unfortunate man had been out of work for some time and she had been compelled to work out to support the family. Prowdey worked at the St. Lawrence hotel for a time, and was afterwards idle until he secured work with Mr. Barnes, of Pittsburg. He was home last Sunday, and left for his employer's residence without saying good-bye or telling the family where he was going. He turned back after having gone some distance, however, and after telling his wife to expect some provisions he intended to send her this week, said good-bye and left. That was the last time the family saw him alive.

Mrs. Prowdey says her husband was driving a cow from his employer's place to the residence of a neighbor who had bought it, and was riding in a buggy, and when turning into the road leading from the highway to the barn to which the cow was being taken, the wheel struck some obstruction and threw him out. His head struck the ground, and he was picked up insensible, in which condition he remained till death relieved him.

The widow is left with a family of six to care for—three of whom are children of a former husband, two of them being well grown, and three being small—too small to understand the full significance of their father's death. Four weeks ago Prowdey's life was insured, by his wife, in the London life assurance company for $138. The conditions under which the policy was issued, however, stipulate that if the death of the insured should occur within six months of the date on which the policy was issued only one-third of the amount shall be paid.

Mrs. Prowdey stated to a reporter that her son, a youth about eighteen years of age, is out of work, and her daughter, a year or two older, is also without employment. She does not know how she is going to tide over the coming winter as she has not a cent laid by.

Forced Her Away a Second Time.

WALLACEBURG, Dec. 6.—About three months ago Josiah B. McDougall eloped with another man's wife, leaving his own wife and four children unprovided for. The woman returned to her husband, but on Monday night McDougall appeared at the house and, drawing a revolver, ordered her to go with him or he would shoot her. Her husband was so alarmed by McDougall's threat that he advised his wife to go with McDougall, which she unwillingly did. They are now in Detroit. A warrant has been issued for McDougall's arrest.

Great Fire in Sweden.

STOCKHOLM, Dec. 6.—The town of Mariestad has been virtually burned down by fire which started yesterday evening and is still burning. The telegraph wires are all prostrated and railway trains are unable to leave the town, so that details are not readily obtainable. The houseless inhabitants had to take refuge in other places. The town, situated at the mouth of the Tida, 156 miles from here, has a population of about 3,000, three-fourths of whom have already been rendered homeless.

Swept Over The Falls.

NIAGARA FALLS, N.Y., Dec. 6.—A letter received in this city from the United States naval home, in Philadelphia, establishes, beyond a doubt, the identity of the unfortunate man who threw himself from the Goat Island bridge about four weeks ago and was swept over the falls before the eyes of a score or more of horrified spectators. He was John Huff, not Buelor Huffman, as at first supposed, and had served forty years in the United States navy. He has sisters in Canada, whose whereabouts are unknown.

Asking For Russia's Aid.

PARIS, Dec. 6.—A despatch from St. Petersburg to the E'Clair says it is reported there that China has asked Russia whether the Russian government would be willing, if requested to do so, to send an army corps to help suppress the rebellion in North China. It is represented that the rebellion is spreading daily. The rebels have already overrun the province of Kan Su and captured its capital, Lan Chu Fu, taking 2,000 prisoners and seizing thirty guns, together with a large quantity of provisions, ammunition, etc.

Plenty Of Ice.

COLCHESTER, Dec. 6.—The lake from this point as far as the eye can reach is covered with ice. A steam barge with two consorts in tow, all loaded and bound up, are fast a little east of Colchester light with little prospects of releasing themselves. Large boats without consorts seem to work through all right as yet.

The strs. City of Cleveland, Ionia and Hope with consort, which were fast in the ice at Bar Point all night, were released by tugs at noon to-day.

Threw Her Child in the River.

MANCHESTER, Vt., Dec. 6.—Mary E. Weatherbee was arrested this morning, charged with drowning her six-weeks'-old child two weeks ago by throwing it into the river at Manchester Centre. It is stated that she has made a full confession. The woman came from Montreal, Que., and, it is alleged, threw the child in on her way to the house of her father, who lives here. She was married five years ago but was divorced from her husband.

Approves Of The Scheme.

ST. PETERSBURG, Dec. 6.—The czar has given the imperial sanction to the sugar scheme, formulated by M. DeWitt, minister of finance which provides that, besides an excise duty, a surtax shall be levied upon all stock in excess of a certain quantity whenever it shall come into market, but shall not be levied on the event of exportation.

Arton Was Extradicted.

LONDON, Dec. 6.—Emile Arton, arrested here on Nov. 14th, upon an extradition warrant charging him with complicity with Baron Reinach in the Panama canal frauds, was arraigned in the Bow street police court to-day for final hearing. The magistrate ordered that Arton be extradicted, but allowed him two weeks in which to make an appeal.

Elected the Officers.

WATERTOWN, N.Y., Dec. 5.—The Point Vivian park association of the St. Lawrence river has elected the following officers: E. O. Hungerford, president; William M. Comstock, secretary and treasurer. The trustees are: O. Van Wormer, of Watertown, G. D. Harrington, of Gouverneur, and R. Rodenhurst of Theresa.

Perished In The Flames.

BUFFALO, N.Y., Dec. 6.—A wretched frame hut on the sea wall strip at the foot of Michigan street occupied by Matthew Shannon, an old hermit, was burned about four o'clock this morning. Shannon perished in the flames. Little is known about him as he held communication with no one.

Has Been Boosted Upwards.

CONSTANTINOPLE, Dec. 6.—The former governor of Hadjin, who, while occupying that post a few weeks ago, threatened to burn the christian convent at that place, has been promoted to the more important post of governor of Tarsus.

Try Grover Cleveland Next.

MINNEAPOLIS, Dec. 5.—Col. "Bob" Ingersoll lectured last evening at Ottumwa, Iowa. The colonel was interviewed on the 3,000 prayers offered for him on thanksgiving day. When asked if he believed in the efficacy of these petitions, he said: "Oh, we will have to wait and see what will be done. If these prayers are effective, then the Endeavorers ought to go after Grover Cleveland. His message reads like he needed it."
