#### The Work Of White Caps. MOUNTAIN GROVE, Mo., May 21 .- Si

miles north of here, on the banks of Whetstone river, a mob of white caps murdered two men last night and burned the home of another. Suspicion pointed to Lige Mayfield and the Mitchell brothers, John and Dave, who have been warned to leave the country. The mob did not find Mayfield at home, so his house was burned The Mitchell's had barricaded their house, and the raiders fired upon the place, killing John Mitchell and his brother-in-law, Jack Coffin and seriously injured Dave Mitchell. The same raiders recently took Dave Mitchell from his house, whipped him and warned him to leave, but he remained defiant.

## Knocked Into The Water.

OTTAWA, May 21. - Dennis Murphy, one of the wealthiest men in Ottawa, head of the Ottawa transportation company, and a director of the Bank of Ottawa, was watching the loading of some of the company's barges at Hull yesterday, when a derrick boom knocked him into the river between the dock and a barge. He was half stuned and sunk, but coming to the surface before losing consciousness he grappled a piece of floating timber until rescued. He was able to return home an hour or two later, apparently little worze of the epi-

OTTAWA, May 21.—The fast Atlantic line contract is at last an accomplished fact. A cablegram received by the government from Mr. Chamberlain, colonial secretary, states that the contract for the service signed with Messrs. Peterson, Tate & Co., of Newcastle, has been accepted by the imperial authorities, who agree to grant a subsidy of \$350,000 a year. The contract only awaited the confirmation of the imperial government and the admiralty subvention. This being now granted, the firm will at

once proceed to build their fleet. Mr. Casey's bicycle bill, providing that bicycles should be carried free by railways as a baggage, has been endorsed forty-one to twenty-one by the committee to which it was referred.

W. F. McLean's bill to prevent railways from putting down upper berths when not occupied, was killed at Ottawa by the railway committee. An item of \$26,000 to pay the expenses

of Canada's military representatives at the queen's jubilee was passed by the house of commons vesterday. A deputation waited on the government yesterday to ask for a bonus of \$1,000,000 towards the construction of a bridge over

the St. Lawrence at Quebec. Mr. Laurier promised consideration. Postmaster general Mulock announced yesterday that the jubilee stamps of various denominations would be issued to the pub

lic on the 19th prox. The senate will adjourn to morrow evening until a week from Monday next. Messrs. D. C. Fraser and Logan, M.P's. have accepted invitations to speak at a queen's birthday celebration in Chicago on

The Canadian jubilee postage stamp is to be issued on June 22nd. It is of a special design, representing two heads of the queen side by side, one 1837, the other 1897. The stamp is to be the same height as the present stamp, but about one-half wider. The edition will be limited as tollows: 150,000 half-cent stamps; the finest 8,000,000 one cent stamps; 2,500, made in the city. 000 two cent stamps; 20,000,000 We've lots of three cent stamps; 750,000 five cent stamps; 75,000 six cent stamps; 200,000 eight cent stamps; 150,000 ten cent stamps; 100,000 fifteen cent stamps; 100,000 twenty cent stamps; 100,000 fifty cent stamps; 25,000 \$1 stamps; 25,000 \$2 stamps; 25,000 \$3 stamps; 25,000 \$4 stamps; 25,000 \$5 stamps; 7,000,000 one cent post cards. It is estimated that the supply will last about three months. The smaller issues are likely to be at a premium at once. The stamps will be obtainable by the pub-

OTTAWA, May 20.-Mr. Foster and Sir Charles Tupper attacked the government in the house to-day for having taken the contract for printing bills and stamps from the British American bank note company and awarded it to the American bank note company, of New York. It was charged that the Canadian company had not been treated fairly. Its tender was, they asserted, the only one which complied with the specifications, yet the contract had been given to an alien corporation and Canadian industry had been destroyed They emphasized the point in their criticism that the American company had been permitted to manufacture the dies in New York, a work requiring the very highest skill, which Canadians were capable of performing. The minister of finance replied that there were 153,000 arguments in favor of the tender of the American bank note company, and they

were that it was \$153,000 lower than that of the British American bank note company. The old contractors, he said evidently thought they had a monepoly of the work, for they not only asked the sum that they had received under the previous arrangement with the government but \$300,-000 more. He mentioned the fact that out of a contract aggregating over \$525,000 and covering a period of five years only \$6,000 worth of work will not be done at Ottawa. The Canadian comhad demanded twenty per more than the figure named by the American company, but when the tenders had been opened G. B. Burland, president of the former company, had offered to come down to the prices named by his competitors. The minister expressed the opinion that it would have been a scandalous thing to listen to such a proposition. The opposition did not venture to

test the opinion of the house on the subject. Mr. Fisher gave notice to-night of his intention to introduce a bill on Monday next to provide for the registration of cheese factories and creameries, and for the branding of dairy products, and to prohibit misrepresentation as to dates of manufacture of such products. There is a very general consensus of opinion in the country in favor of the measure,

which will still further increase the reputation of Canadian products in England by preventing American products from being represented as Canadian.

#### AN ARMISTICE ESTABLISHED. Message of the Czar to the Sultan Who Re-

LONDON, May 21.-A despatch from Constantinople gives the text of the czar's message to the sultan asking for the cessation of hostilities, as follows : "Your imperial majesty will not feel astonished by the fact that, encouraged by the evidence of sincere friendship and neighborly feeling which exist between us, I take upon myself the task of addressing to your august sensibility my expression of the wish that you will crown the heroic successes of your soldiers by a suspension of hostilities. This is a course which will be in entire accord with the firmness and peaceful moderation you evinced at the commencement of the campaign. Your imperial majesty wifl thus accomplish an act which will be entirely in conformity with wisdom and moderation, and which will serve to still further aug-

retain the memory. I pray your imperial majesty to be good enough to believe in my unalterable friendship." The sultan replied, expressing lively and sincere thanks, and informing the czar that he has ordered the Turkish commanders to

ment the respect and admiration you per-

sonally inspire, and of which I will forever

stop fighting. In conclusion the sultan said : "I pray your imperial majesty also to take into consideration that I wish for the friendly result the safeguarding of the rights and prestige of my government, and the maintenance of general peace by the subsequent continual security of my frontier."

ATHENS, May 21.—An armistice between the Turkish and Greek troops in Thessaly, to extend over a period of seventeen days, was finally concluded yesterday. .

Constantinople, May 21.—An armistice was also formally concluded vesterday for seventeen days between the Turkish and Greek troops on the frontier of Epirus.

ATHENS, May 21 .- Crown prince Constantine to-day had a long conference by telegraph from Lamia with premier Ralli. Mr. Ralli, in the course of an interview to-day, said : "The indemnity which Greece will pay Turkey will be in proportion to the resources of Greece and her financial position. The cessation of terri tory is out of the question. Greece cannot accept a modification of the strategic frontier which would render easy the raid ing of the Greek territory by armed bands, and which would compel Greece to maintain a numerous army in order to prevent

such incursions." LONDON, May 21.-A special despatch from Canea, island of Crete, says that the Cretans have decided to co-operate with the admirals commanding the fleets of the foreign powers in the work of organizing

a government for the island. CONSTANTINOPLE, May 21.-The armis tice is general, and includes the land and

sea forces of both combatants. LONDON, May 21. - The armistice agreement stipulates that a mixed commission of officers of superior rank shall establish a neutral zone between the two armies, and that no advance on either flank shall be permitted. It is understood-that Turkey wants the commission to be constituted of the foreign military attaches with the two armies.

Ontario Elections Not Yet. LONDON, Ont., May 21.-Hon. G. W. Ross, minister of education, says in regard to the report that a general election would take place in Ontario shortly: "The government is not considering an early appeal to the country, nor does it consider it is in any sense bound to make such an appeal. It has on every hand assurances of the continued confidence of the people. The change in premiers does not make a new election necessary. There have been four new premiers at Ottawa without an election being considered necessary.

## Ontario Crops.

TORONTO, May 21.—Reports here from different sections of the province east, west and south-east, are all unanimous in speaking of the splendid conditions of the crops. The fall wheat has seldom looked better than it does now, and if the progress already made is continued uninterrupted until the close of the harvest, Ontario should have one of the biggest crops in the history of the province. It is believed there will be a large increase of spring wheat, and in the general average of barley.

The Italian Deputy Lives. LONDON, May 21. - According to a special despatch received here from Rome, signor Fratti, the Italian deputy, who was reported to have been killed while fighting with the Italian volunteers against the Turks, is not dead. A despatch, it is announced, has been received at Rome from the Duke of Avarns, the Italian minister at Athens, denying the report of Fratti's death and it is added that the deputy has telegraphed to his sister saying that he fought against the Turks at Domokos, but was not even

It Was Mr. Lipton's Cheque, LONDON, May 21 .- The rumor that W. W. strictions at Pomona, Cal. POMONA, Cal., May 21.-Pomona has just adopted the most remarkable highlicense liquor ordinance known in California and possibly anywhere. It provides tor licensing two saloons. Each is to pay \$1,000 per year in advance. The saloon-keeper must give bonds in the sum of \$5,000, which shall be forfeit ed in case he fails to observe the law under which he is licensed. The saloons must be run in single apartments with no annexes or wings, and in buildings fronting on streets. Half of the front of the saloons must be of glass, to painted or frosted glass or screens beit z allowed. The view from the street must be free and unobstructed, and no billiards, cards or any

game shall be played. Only one seat, that for the barkeeper, will be allowed, and even casks will not be allowed for customers to lean or sit upon. There must be no back doors or windows. The saloonkeeper will forfeit his license and bond if he sells to a minor or a woman or to a man concerning whom there has been a complaint by his wife, sister, son, mother or daughter, or if a man

is an habitual drinker. The barkeeper must first be approved by the city council as a respectable citizen. Saloons must be open only from 5 a. m. to 10 p. m. on week days on pain of immedi-

ate forfeiture of the bonds. Notwithstanding these stringent regulations many persons are anxious to secure one of the two licenses for saloons in Pomona.

Norwegian Bark Reported-No Tidings of Steamer Arcadia, QUEBEC, May 21. - Norwegian bark Loining, Capt. Egear, from Christian Sand for St. Thomas, is reported down the river. This is the vessel which was recently reported as being in collision with the French schooner Vigilant on the banks of Newfoundland, when the latter was sunk and some lives lost. Many telegrams have since been received here from Norway

concerning the Loining, as fears were entertained for her safety. The tug boat Charles Stuart Parnell. owned by Michael Delaney, timber tower, was destroyed by fire late last night. The vessel was lying near the Grand Trunk wharf when the flames broke out. Mr. Delaney, while endeavoring to pull it ashore with a rope, lost his balance and fell into the river. He struck out for the shore and was rescued with difficulty. The city firemen were called out from a station near by, and after a couple of hours' hard work the flames were extinguished. The

tug, which is almost a total loss, is reported to be insured. Cape Ray signal service report of this morning says: "No tidings received of the
